CHINA SURELY IS AWAKENING

"It is obviously impossible," says Sir Robert Dredon, acting inspector general of Chinese customs, who is now in England, "for the world at large to treat as a negligible quantity, either politically or industrially, a homogeneous race of 400,000,000 human beings, a large percentage of whom are now fully alive to the possibilities of their race and country."

"As an instance of the changes in Pekin alone, Sir Robert says that 'the old, unpaved, filthy thoroughfares are giving way to spacious macadamized roads, lighted by electricity in place of the old-fashioned oil lamps. An adequate and pure water supply on European lines has replaced the old surface wells.'"

"Perhaps the most amazing progress in Chinese internal administration is that recorded in connection with the postal service. In illustration of this Sir Robert says:

"Foot and horse couriers now penetrate into extreme western China 2,000 miles and we have postal lines flying as far as Tibet. There is also a money order system all over China, an express delivery service in every big city. There are 4,000 native postoffices, employing 15,000 persons, of whom not more than 200 are foreigners."

"Again," says Sir Robert, "the sedan chair is being superseded among the wealthy Chinese by the use of broughams drawn by splendid horses of Australian breed. The police force of Pekin is now organized on American lines and effectively controls traffic in the streets."

"As regards the educational movement," he reports, "it is significant that many high officials are maintaining schools at their own expense. There is, for instance, the case of the wife of a Mongol prince, who has at least fifty Chinese girls in a private school, which she maintains."

Those Questions.
Wadsworth (at the telephone)—Hello! Is this Main 3967? Voice at the Other End—Yes. Who do you want to see? Wadsworth—Is Mr. Hammesley there? Voice at the Other End—Yes. Do you want to talk to him? Wadsworth—No. I want to kiss him.—Chicago Record-Herald.

Keeping His Word.
"Mr. Duxstia Stax said he was going to retire with a fortune."
"He has kept his word. Whenever he goes to sleep he puts his wallet and his check book under his pillow."—Washington Star.

Japan's Red Cross is Large.
The Japanese Red Cross society has a membership of 1,525,822. The funds of the society amount to \$5,571,613, an increase of \$727,030 in the year. The number assisted was 13,026, besides 77,130 hospital cases. The relief work was not restricted to Japanese. Italy received \$81,500 for earthquake relief.

Learn Dutch and English.
The pupils in the schools of British South Africa are to be taught both Dutch and English, using the former as an aid to teaching the latter.

SLAVE, ANCESTOR OF CLEVELAND

Through the efforts of residents of the town of Westfield, the genealogy of the late President Cleveland may soon be worked out, thus revealing one of the most romantic chapters in the early history of Massachusetts.

On a tour of investigation, which has occupied most of the last ten years, and which, with its last stopping place in Westfield, has now led to the island of Guernsey in the English channel, Miss Rose Cleveland, sister of the late president, thus hopes soon to set forth a new chapter in the history of the famous president.

Through this search, now temporarily halted in the little island where Miss Cleveland is at present carrying on the work, there has been established beyond a doubt the fact that two generations of ancestors of Grover Cleveland were after their arrival in America, some 200 years ago, held in slavery, one of them, the late president's great-grandfather, being sold to a woman in Canada for sixteen gallons of rum.

PLAN WASHINGTON STATUE.

Spokane to Have a Hundred Foot Figure of Re-enforced Concrete.

The Spokane (Wash.) branch of the Sons of the American Revolution will erect a statue of George Washington, 100 feet from the base to crown, in Cliff park, Spokane, to be completed in 1914, the twenty-fifth anniversary of the admission of Washington to statehood. The president of the United States, together with prominent men and women from various parts of the country, will be invited to take part in the unveiling ceremonies.

The statue, to be constructed of concrete-reinforced and occupy a circular rock rising 100 feet above the highest point in Cliff park, will cost \$50,000. It will be modeled on the lines of the statue in Independence hall at Philadelphia, declared to be the most acceptable likeness of the Father of His Country. The base will bear this inscription: "The First American. Let Every American Aspire to the Measure of This Man"

RATTLESNAKE BITES.

Simple Rules For Treatment if You Have the Nerve to Use Them.

The treatment of a rattlesnake wound resolves itself into the application of a few very simple rules. In the first place, a person wounded by a snake usually does the very thing he should not do—that is, goes tearing off at top speed for the nearest human habitation, thereby increasing the circulation and disseminating the virus through the system more rapidly. The man should sit calmly down and bind his handkerchief around the limb (if it is a limb), break off a stout twig and insert beneath the handkerchief, producing a rude tourniquet, and twist until the circulation is effectually shut off.

With a sharp knife make an X incision over the wound, taking care to penetrate deeper than the fangs have done. If he has good teeth and no canker in his mouth, he may now suck vigorously upon the wound. It does no good to suck the original wound. It is quite difficult to get any virus back through an opening not greater in caliber than a fine needle. If all this is done without delay the chances are that the patient will suffer no greater inconvenience from his experience. If he chances to have handy a stick of silver nitrate he can cauterize the wound thoroughly. Failing that, a brand from the fire will serve. After a time he may release his tourniquet somewhat and permit a portion of the retained blood to enter the circulation. The system is capable of taking care of a great deal of poison if it is allowed to flow into the blood gradually.—Outing.

Mineral Output Decreases.
The value of the mineral production of New South Wales in 1908 was \$37,100,480, which is \$4,733,217 less than for 1908. Labor disputes caused the loss.

WHOOPIING COUGH IS EPIDEMIC

A physician of town is authority for the statement that whooping cough is epidemic in Danville. He claims that no one who takes the pains to investigate can close his eyes to this fact. There are houses in which as many as four children, some or all of them being of the school age, are suffering with the disease. In very many instances no physician is employed, which explains why the cases are not reported to the local registrar, and at the same time furnishes a reason why the houses are not placarded and the ordinary precautions against the spread of the disease employed. As it is children from the infected families play with other children on the street and thus the germs of the disease are spread broadcast. Since August 1st it is said the cases of whooping cough have more than doubled.

OPENING OF SCHOOLS
The near approach of the time for the opening of schools has increased the anxiety somewhat. Indeed, it may be a question if the schools can open at the time fixed, unless some sweeping action be taken to locate the infected families not reported to the end that the houses may be placarded and the children kept out of school during the quarantine period. Persons who appreciate the real danger attending a siege of whooping cough will hesitate before sending their children to school unless the children of infected families are kept at home.

A prominent resident who intends going to Harrisburg today states that he will lay the matter before State Health Commissioner Dr. Dixon, who, he hopes, will recommend some procedure that will cope with conditions.

DANGER IN DELAY

Kidney Diseases Are Too Dangerous for Danville People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Care the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Danville.

S. M. Waite, 328 East Mahoning Street, Danville, Pa., says: "About eight years ago I had kidney and bladder trouble. I could not control the kidney secretions and I suffered intensely from backache. My rest was fitful and I had acute pains through my loins. When feeling weak and run down, I was told about Doan's Kidney Pills. I procured a supply at Hunt's Drug Store and their use helped me so greatly from the first that I continued taking them until cured. This remedy will always have my hearty endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Walked From Shamokin.

John Robinson and Jack Reese, aged sixty-five and nineteen respectively, of Shamokin, on Saturday morning walked from their homes to South Danville, just for exercise. The trip was made for the purpose of visiting the former's sister, Mrs. Martha Green, who resides on the south side. While no effort was made to do any record walking but five hours were occupied by the journey. The pedestrians arrived feeling fine and not in the least fatigued. They returned to Shamokin yesterday by rail.

WHITE'S SECRETARY

Elmer Rerig, of New York City, formerly private secretary to Stanford White, who several years ago was shot in New York City by Harry Thaw, spent Saturday and Sunday in Riverside as the guest of Professor T. B. Shannon.

Mr. Rerig is a man of about forty-five years of age and was associated with Mr. White for a number of years previous to the tragedy. He found his employer at all times, he states, a gentleman in the highest sense of the word and he brands as false many of the stories told of the murdered man during the Thaw trial.

Antiquity of Shorthand.

Shorthand is apt to be looked upon as an essentially modern art. The predecessors of Pitman—Byrom in the eighteenth century, Mason in the seventeenth—are dim and distant figures beyond which it seems useless to venture. Cleero dictated his orations to his freedman, Tullius Tiro, and was inconsolable when temporarily deprived of his services. He complained in a letter to a friend that, while "Tiro takes down whole phrases in a few signs, Sphintarus (his professional substitute) only writes in syllables." We need not, however, suppose that the "notae Thronianae" were actually invented by the freedman in question. As M. Guentz points out, the Roman created very few of the arts of peace, contenting themselves, as a rule, by copying from the Greeks. M. Guentz, however, indicates the banks of the Nile as the cradle of the art.

First Aid.
"Now," said the professor, "suppose you had been called to see a patient with hysterics—some one, for instance, who had started laughing and found it impossible to stop—what is the first thing you would do?"
"Amputate his funny bone," promptly replied the new student.—Houston Post.

CELEBRATED HER 86TH BIRTHDAY

The many friends of Mrs. Rachel Wertheimer, 117 East Front street, called at her home Saturday on the occasion of her 86th birthday. In the evening a few of her older friends had a very enjoyable time. Mrs. Wertheimer was showered with cards and remembrances. Among the numerous letters was one from Rev. John E. Miles, pastor of the Scotton Avenue Baptist church, at Detroit, Michigan, which The Morning News has been requested to publish.

The letter follows:
My Very Kind Friend:
Permit me to join with the host of friends who will be offering their congratulations upon your birthday. What a long eventful and singular happy life you have lived. We measure the value of life, not by what we get out of it, but by what we put in to it. He who lives merely to get, draws from others to himself, but He who lives to give leaves behind many lives enriched because of that life. Measuring your life by deeds of kindness, acts of generosity and words of encouragement, we find that you have been rich in possession, and lavish in giving. Many people if it were known, have reason to be thankful that you have lived.

One of the most gratifying possessions of life is memory; and I do not think of anything that can excel the fact of a life that can look back over their journey and feel that at every turn, every opportunity that life has done its best. I'm sure you can say with the patriarchal teacher of old "I have fought a good fight, I have kept the faith."

Personally I thank you for the kind influence you have had in my life, and if I am doing anything helpful to my fellowmen—you may claim a share in training me for the work.

May the God of our Fathers make your heart glad—and spare you many days to brighten the lives of others. Forget the "Dignified Doctor," and remember me "For Auld Lang Syne."
"Dot: Bad Boy Shoney."

Acute or Chronic—Which?

No matter if your kidney trouble is acute or chronic Foley's Kidney Remedy will reach your case. Mr. Claude Brown, Reynoldsville, Ill., writes us that he suffered many months with kidney complaint which baffled all treatment. At last he tried Foley's Kidney Remedy and a few large bottles effected a complete cure. He says, "It has been of immeasurable value to me." For sale by Paules & Co., Pharmacy.

Second in Tennis.

Danville tennis players came out second in the invitation tennis tournament given Saturday at the Berwick country club. Gosh and Watson pulled second honors for Danville, defeating Bloomsburg and Berwick. The scores: Sward and Markle, Hazleton, defeated Clay and Rishton, Bloomsburg, 6-0; Moore and Angle, Danville, defeated Lockard and Hicks, Berwick, 6-2, 6-4; Dickson and North, Berwick, 6-0, 6-3; Watson and Gosh, Danville, defeated Moore and Angle, Danville, 6-2, 6-3; Sward and Markle, Hazleton, defeated Watson and Gosh, Danville, 6-4, 6-0.

From Sickness to "Excellent Health."

So says Mrs. Chas. Lyon, Peoria, Ill.: "I found in your Foley Kidney Pills a prompt and speedy cure for backache and kidney trouble which bothered me for many months. I am now enjoying excellent health which I owe to Foley Kidney Pills." For sale by Paules & Co., Pharmacy.

Birthday Party

A pleasant party was held Saturday evening at the home of Mr. and Mrs. Warren Roat, East Front street, in honor of the thirtieth birthday anniversary of Miss Daisy Cornell, of Manassas, Va. The evening was spent with games after which refreshments were served. Those present were: Florence Beyers, Madge Jones, Isabel Dimmick, Ruth Gulliver, Elizabeth Evans, Freda Jones, Gertrude Thompson, Edna Roat, Bory Roat, Frank Roat, George Roat, Gorman Chesnut.

Has Motor Flying Fish.

A "mechanical flying fish" that combines the qualities of an aeroplane and the speedier motorboat is the latest invention, and Joseph H. Hoadley, president of several corporations, is the inventor. He asserts that he has tried his invention on Long Island sound and now desires to challenge any aviator to a 100 mile race for a side bet of \$10,000 to \$20,000. His machine, he says, can travel thirty-five miles an hour in the water or fifty-five miles an hour in the air.

Full Penalty.

Mrs. Peckem—Henry, what punishment should be meted out to a man who proposes to a woman and then refuses to marry her? Peckem—He should be compelled to marry her.—Exchange.

Didn't Want Trouble.

The Playwright—Honestly, now, what do you think of my new play? The Critic—Don't ask me. You're so much bigger and stronger than I am.

Since thou art not sure of a minute do not throw away an hour.—Franklin.

WAS TO RECEIVE MONEY FOR MURDER

Through the efforts of District Attorney Deibler and County Detective Glass, of Northumberland county and Chief of Police Morgan, of Mt. Carmel, startling developments in the Wisloski murder case were made known Saturday, a wealthy Polish resident of Mt. Carmel now being implicated in the murder with Anthony Ulgosh as an accessory before the fact.

Coroner Malone, the district attorney and county detective attended the inquest at Mt. Carmel during which the interesting facts were brought out. County Detective Glass produced letters written by Ulgosh, while in the county jail, at Sunbury, in his sweet-heart at Mt. Carmel in which he admitted the crime and at the same time implicated Joseph Yuskowski. The evidence was sufficiently incriminating for the jury to render a verdict to the effect that Wisloski met his death by being struck over the head with a bed post in the hands of Anthony Ulgosh and other unknown persons.

The testimony was bought forth by the divulgence of the contents of the letters which set forth the fact that Ulgosh informed his sweetheart that while he was the actual perpetrator of the crime, Yuskowski was equally guilty in as much as he had offered him a large sum of money if he would do away with Wisloski, the murder following the offer. Yuskowski failed to pay until the man died and as a result of his frequent statements about the affair Ulgosh landed in jail.

Yuskowski was arrested by the county detective and Chief Morgan and taken to the Sunbury jail. He is a man of about 48 years, married and has a large family. He is reputed to be worth \$25,000 and has retained L. S. Walter and Elmer John to defend him.

Ulgosh Turns STATE'S EVIDENCE

Anthony Ulgosh, of Mt. Carmel, who is now in the Sunbury jail, for the murder of Joseph Wisloski, has turned State's evidence. He says he was urged to the crime by Joseph Yuskowski, of Mt. Carmel.

Further particulars in regard to the confession are to the effect that at the arraignment of the two parties charged with the murder, County Detective Glass, District Attorney Deibler and Court Stenographer Joseph Cummings were heard and each one gave startling testimony that on Saturday morning they had gone to the county jail where Ulgosh voluntarily confessed to the crime. In his sworn statement, which he gave for the purpose of turning State's witness, Ulgosh stated that Yuskowski had promised to pay him \$1,000 in cash if he would kill Wisloski, Yuskowski claiming that the deed had wronged him. The killing was planned when a beer party was held at the accessory's home and to make certain that the crime would be committed Ulgosh was furnished with sufficient drink to make him unaccountable after which Yuskowski gave him an axe with which to head Ulgosh. Ulgosh objected to the instrument in hand and was given a bedpost instead, committing the crime about 1:15 a. m. on the morning of May 17, Wisloski dying at the hospital last week.

An effort was made to have Yuskowski released on bail but the evidence against him was of such a convincing character that the justice decided that he would be better off in jail and sent him thither, together with Ulgosh. The case will in all probability be tried in September.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c

Take Hall's Family Pills for constipation.

Routes Warshippers With Pepper.

York, Aug. 16.—Cayenne pepper thrown in at a window of the Little Shilo Baptist church here, Sunday night, set the entire colored congregation into such violent paroxysms of sneezing and coughing that the service came to an abrupt conclusion. A white boy on the outside is said to have been seen to throw the pepper.

Rev. F. C. Scott was in the midst of his sermon when the incident occurred.

Some of the irritating dust struck in the eyes of a woman seated near the window, temporarily blinding her. Others went to her assistance and the peppery atmosphere of the auditorium soon put all to flight.

Hand Injured.

George Gulliver, a bricklayer, had his thumb mashed and a couple of fingers injured while working at the Reading Iron works Sunday. Dr. Curry rendered surgical aid. It was necessary to insert several stitches.

Auto Trip.

Griffith Wheeler and family of New York were guests Sunday of Mr. and Mrs. J. C. Heddens at the Heddens house. They left yesterday in their touring car for Williamsport accompanied by Miss Margaret Billmeyer, who had been a guest of Mrs. Heddens for some time.

Were Married Here.

Bruce A. Kindt, of Morgantown and Miss Grace Rebecca Ruckel, of Mt. Pleasant, were married Saturday in the presence of a few friends at the Trinity Methodist Episcopal parsonage, this city.

George Roat accompanied by his wife and daughter Edna, left yesterday for Huntingdon, to attend the twenty-fifth reunion of the 3rd Heavy Artillery and the 188th Reg't, P. V.

which will be held on Wednesday, Thursday and Friday of this week.

POINTERS FOR BEE KEEPERS

A Pennsylvania beekeeper wrote to State Zoologist H. A. Surface, at Harrisburg, asking: "Will combs get too old for the bees to use? Ought the old combs be broken out? What will keep ants away, or will they do any harm? Would you advise clipping the wings of the queen?"

To this Professor Surface replied as follows:
"Perhaps the comb will never get too old for the bees to rear their young or store honey in, but the older the comb gets the smaller the cells become from the continued filling with the cast larval skins. The cells become thick-walled and this makes the bees small. Thus in old combs the bees are much smaller than those reared in new combs. Smaller bees will not carry as much honey as larger ones, and I am satisfied that it is best to renew the combs at least once every five years. There is not much loss in so doing, as they can be rendered into beeswax and this can be made into foundation and can be used in the hive to insure straight combs, and save the honey that would be transformed into comb if foundation were not used. I believe in cutting out drone cells, but to avoid the bees building more drone cells in the same place, you should fill this place with worker comb. Sometimes to fill it with foundation is sufficient."

"To keep the ant out of the hives you can set them on small blocks, and put these into shallow plates, or pans, filled with oil. They need not be very large in order to keep the ants out of them. A screen of wire netting fastened above and extending down over them like an umbrella, but not reaching the ground below, will keep the bees out of the oil."

"I do recommend clipping the queen's wings, and I clipped one of my own only this morning. It does not hurt the queen, neither does it prevent swarming, as some people imagine, but it does prevent the bees flying away at the time of swarming. This is important for one who is busy and often away from home."

MANY REQUEST FROM CATARRH

suffers who use atomizers have caused us to put up Liquid Cream Balm, a new and convenient form of Ely's Cream Balm, the only remedy for Catarrh which can always be depended on. In power to alay inflammation, to cleanse the clogged air-passages, to promote free, natural breathing, the two forms of Cream Balm are alike. Liquid Cream Balm is sold by all druggists for 75 cents, including spraying tube. Mailed by Ely Bros., 56 Warren Street, New York.

Birthday Party.

Mr. and Mrs. Lewis Paul entertained a number of people at their home on R. F. D. 7, Saturday evening in honor of the twenty-first birthday of their daughter Bertha. She was the recipient of many beautiful gifts. Those present were Misses Louise Borhn, Laura Reed, Verna Koher, Bertha Paul, Virginia Reed, Ruth Loreman, Mary Paul, Cora Reed, Ella Morrall, Bessie Paul, Ida Enterville, Annie Paul, Viola Enterville, Ida Paul, Edith and Ella Paul; Messrs. Ed Reed, Percy Swank, Walter Hands, George Loreman, Preston Koher, Benton Drum, Grant Loreman, Harold Bassett, Bert Gulick, Reeder Schultz, Walter Mettler, Walter Adams, Warren Paul, Clarence Martin, Roy Loreman. Refreshments were served.

They Have a Definite Purpose.

Foley Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser, Terre Haute, Ind., tells the result in her case. "After suffering for many years from a serious case of kidney trouble and spending much money for so called cures, I found Foley Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them." For sale by Paules & Co., Pharmacy.

Scranton's Fine Increase.

Washington, Aug. 16.—The census office today announced the 1910 enumeration of the following cities with changes since 1900: Newark, N. J., 347,469; increase 101,349, or 41.2 per cent. Scranton, Pa., 129,867; increase 27,841, or 27.3 per cent. Schenectady, N. Y., 72,826; increase 41,144, or 129.9 per cent.

For Quick Relief from Hay Fever.

Asthma and summer bronchitis, take Foley's Honey and Tar. It quickly relieves the discomfort and suffering and the annoying symptoms disappear. It soothes and heals the inflamed air passages of the head, throat and bronchial tubes. It contains no opiates and no harmful drugs. Refuse substitutes. For sale by Paules & Co., Pharmacy.

Will Camp at Forks.

Mr. and Mrs. John Peckworth and family, Mr. and Mrs. Frank H. Rusel and family, Miss Elsie Bennett, of this city, Mrs. William Austin and Mr. and Mrs. John Duffy of Scranton, Mrs. Frank Wilhelm, of Sunbury, and Mrs. Jennie Marshall and Wilbur Amesbury, of Philadelphia, will leave today for a two weeks' outing at Forks.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in urinating, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

ULGOSH TURNS STATE'S EVIDENCE

Anthony Ulgosh, of Mt. Carmel, who is now in the Sunbury jail, for the murder of Joseph Wisloski, has turned State's evidence. He says he was urged to the crime by Joseph Yuskowski, of Mt. Carmel.

Further particulars in regard to the confession are to the effect that at the arraignment of the two parties charged with the murder, County Detective Glass, District Attorney Deibler and Court Stenographer Joseph Cummings were heard and each one gave startling testimony that on Saturday morning they had gone to the county jail where Ulgosh voluntarily confessed to the crime.
