A LETTER FROM THOS. A. EDISON

Borough Electrician Newton Smith yesterday received a communication from Thomas A. Edison, which stirred up a great deal of interest about town. It is no secret that the great inventor for years past has been working on a special storage battery for automobiles. That important and far-reaching results depend upon the success of his labors is apparent to all.

The Mr. Edison has perfected his invention is evident from his letter, which is self-explanatory. Danville should feel honored that it lies in the route that the great inventor has selected for trying out his new battery, and of being permitted to assist in an experiment to which such general and widespread interest attaches. The letter follows:

"From Laboratory of Thomas A. Edison, Orange, N. J., Aug. 20, 1910.
"Dear Sir: I am about to make a number of touring tests with several electric automobiles equipped with my new type of battery.
"I shall consider it a personal favor if you will advise me at your earliest convenience as to charging facilities on your system.
"Will require from 75 to 110 volts, direct current, and would be pleased to know the exact location of the plant, the hours at which a charge may be had and the type of apparatus—whether direct current generator, a rotary mercury arc rectifier or alternating current, field exciter.
"Information as to tours will be published and widely distributed, and I consider it will ultimately benefit the electrical industry.
Yours truly
THOMAS A. EDISON."

FAVORABLE REPLY
Electrician Newton Smith yesterday stated that the municipal plant is of a type—alternating current, field exciter—that will lend itself without difficulty to the recharging of Mr. Edison's batteries. The reply to the inventor's inquiry, therefore, will be favorable. That Danville shall figure in the touring tests seems a foregone conclusion under the circumstances, and about all that remains is to wait until further information concerning the tour is published.
For Quick Relief from Hay Fever.
Asthma and summer bronchitis, take Foley's Honey and Tar. It quickly relieves the discomfort and suffering and the annoying symptoms disappear. It soothes and heals the inflamed air passages of the head, throat and bronchial tubes. It contains no opiates and no harmful drugs. Refuse substitutes. For sale by Paules & Co., Pharmacy.
Will Preach at Shiloh.
Rev. J. T. Rossiter, D. D., of Baltimore, Md., will occupy the pulpit at both morning and evening services at the Shiloh Reformed church on Sunday.
Danville Citizen Found Complete Freedom From Kidney Trouble.
If you suffer from backache—If from urinary disorders—From any disease of the kidneys, be cured to stay cured. Doan's Kidney Pills make lasting cures.
Danville people testify.
Here's one case of it:
Mrs. Charles Whispell, 127 W. Main Street, Danville, Pa., says: "My experience with Doan's Kidney Pills justifies me in saying that they are a remedy of merit. I had sharp twinges in loins and at times my back was so painful that I could hardly straighten I did not sleep well and in the morning when I got up, the backache was as distressing as ever. It was difficult for me to change my position when lying down and the stiffness across my loins made it a task for me to arise after sitting. A tired, languid feeling clung to me and I was all out of sorts. Reading about Doan's Kidney Pills and hearing them highly spoken of by local people, I was induced to give them a trial. A supply was procured for me from Hunt's Drug Store and the use of one box made a decided improvement. The pain and soreness was relieved and I regained my strength and energy." (Statement given January 2, 1908.)
CONFIRMED PROOF.
On January 24, 1910, when Mrs. Whispell was interviewed, she said: "I am glad to say that Doan's Kidney Pills completely cured my kidney complaint. My former endorsement of them still holds good."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.
Mr. Almeda Keefe, Walnut street, attn. 4 the Dyer reunion at Edge-wood Park, Shamokin, yesterday.

HOUSE CLEANERS ARE THROUGH

The repairing and renovating of the school buildings of the borough are now under way. In several of the wards the cleaning is practically completed. The hall ways, the rooms with all their furniture have been thoroughly scrubbed. In many of the wards walls have been calcimined.

The rooms clean and fresh in appearance, together with the extensive repairs put upon the buildings, reveal how much each year is being done to promote the mere physical welfare of the pupils.

For years past in caring for the school children Danville has stood for all that was humane and progressive. The present school board is particularly alert to heed the warnings sent out by science, adopting every reasonable precaution to prevent disease.

Now that the commodious and well ventilated school buildings are rendered clean and salubrious but one problem relating to the physical welfare of the pupils remains to be solved. This is the question of pure water.

For several years past the school board to be on the safe side, at the outlay of considerable money, has furnished sterilized or pure spring water to the pupils, in all instances discouraging the use of water directly from the faucets for drinking purposes. The boiled water, however, is found to be unpalatable, if removed from other objections, while the spring water, no matter how pure, after a few hours is found to be warm and insipid. The pupils care little for the water in either form.

In this connection it is proper to relate that a proposition has been advanced relating to the water question, which may eventually find favor with the school board. The plan proposed is to bore a well on each of the school properties going down in the rocks to the depth of a hundred feet or more securing water free from pollution and in quantity sufficient to supply the schools. The well recently bored by W. G. Pursell, it is urged, demonstrates both that the scheme is practicable and that a comparatively small outlay of money is required.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.
Mr. Almeda Keefe, Walnut street, attn. 4 the Dyer reunion at Edge-wood Park, Shamokin, yesterday.

FAVORABLE REPLY
Electrician Newton Smith yesterday stated that the municipal plant is of a type—alternating current, field exciter—that will lend itself without difficulty to the recharging of Mr. Edison's batteries. The reply to the inventor's inquiry, therefore, will be favorable. That Danville shall figure in the touring tests seems a foregone conclusion under the circumstances, and about all that remains is to wait until further information concerning the tour is published.
For Quick Relief from Hay Fever.
Asthma and summer bronchitis, take Foley's Honey and Tar. It quickly relieves the discomfort and suffering and the annoying symptoms disappear. It soothes and heals the inflamed air passages of the head, throat and bronchial tubes. It contains no opiates and no harmful drugs. Refuse substitutes. For sale by Paules & Co., Pharmacy.
Will Preach at Shiloh.
Rev. J. T. Rossiter, D. D., of Baltimore, Md., will occupy the pulpit at both morning and evening services at the Shiloh Reformed church on Sunday.
Danville Citizen Found Complete Freedom From Kidney Trouble.
If you suffer from backache—If from urinary disorders—From any disease of the kidneys, be cured to stay cured. Doan's Kidney Pills make lasting cures.
Danville people testify.
Here's one case of it:
Mrs. Charles Whispell, 127 W. Main Street, Danville, Pa., says: "My experience with Doan's Kidney Pills justifies me in saying that they are a remedy of merit. I had sharp twinges in loins and at times my back was so painful that I could hardly straighten I did not sleep well and in the morning when I got up, the backache was as distressing as ever. It was difficult for me to change my position when lying down and the stiffness across my loins made it a task for me to arise after sitting. A tired, languid feeling clung to me and I was all out of sorts. Reading about Doan's Kidney Pills and hearing them highly spoken of by local people, I was induced to give them a trial. A supply was procured for me from Hunt's Drug Store and the use of one box made a decided improvement. The pain and soreness was relieved and I regained my strength and energy." (Statement given January 2, 1908.)
CONFIRMED PROOF.
On January 24, 1910, when Mrs. Whispell was interviewed, she said: "I am glad to say that Doan's Kidney Pills completely cured my kidney complaint. My former endorsement of them still holds good."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

INVESTIGATING ORCHARD SOILS

H. J. Wilder of the Department of Agriculture, Washington, D. C., has been in this vicinity during a week past conducting an investigation as to the adaptation of Pennsylvania soils to orcharding. That the investigation may be attended with the best results the United States Department of Agriculture this year is working in cooperation with the State Experiment station.

Mr. Wilder was interviewed at the Montour house last evening, when some very interesting facts were learned concerning the different varieties of soil and the opportunities that present themselves to fruit growers of this and neighboring counties. Mr. Wilder, who has been connected with the United States Agricultural Department for nine years is a soil expert. With Danville as a center he drives over the country within a radius of several miles investigating the soil conditions for the purpose of ascertaining the relative merits of the different kinds of soils for apple growing. It has already been ascertained that some soils are much better adapted to orcharding than others. This is especially true in the growing of apples.

The fruit industry has been much better developed in the southern and central parts of Pennsylvania than in other parts. It is the object of the department to determine whether fruit growing might not be much extended with profit in other sections of the State.

The markets of the anthracite coal region are especially good and require for their consumption enormous quantities of fruit. At the present time the greater part of the fruit handled is shipped from a distance.

Mr. Wilder's investigations have brought out the fact that there are many locations within and near this district which are well adapted to fruit growing. As a result of the investigation it is intended to bring out a soil map and a report, which will be available for free distribution. It will also be arranged to have the subjects discussed at the State fruit meetings and at "Farmers' Week" at State College, etc.

Mr. Wilder in very decided terms expressed his opinion that farmers in general should not go extensively into fruit growing. The report when issued will not urge any to embark in fruit growing that have not a special liking for it.

It is a highly specialized business capable of bringing high returns
