OLD ENGLISH BOXERS.

Hired to Prevent Trouble at George IV.'s Coronation. Boxing was introduced into England In the earlier part of the eighteenth century, its first practitioner being John Broughton, who kept a booth for exhibitions in Tottenham Court road. London, and rules were drawn up Aug. 10, 1743. The vogue was due to the decline of sword combat exhibi-tions in the reign of George I. Broughton himself was the first who stood in the position of champion, a distinction which he held for eighteen years, but eventually he was knocked out by a monkeys. Sparrman states the ele phant sheds tears when wounded o butcher named Slack. Broughton was a great pet of the Duke of Cumber-land, who took the pugilist with him to Berlin, when he declared himself of grenadier guards there "if he were only allowed a breakfast between each two battles."

The English fighter Tom Cribb once ment. Just before the coronation of George IV, certain sympathizers with that when a young dugong is captured the mother is sure to be taken also. The little ones then cry out and shed Queen Caroline bragged that on the day of the ceremonial they would make matters warm in the neighbor-hood of Westminster abbey, and this great care by the Malays and are pre-served as a charm that is certain to That high functionary sought an in-terview with the puglist "Gentleman" Jackson, who taught Lord Byron to

Peculiar Ring That Was Owned by Marquise du Barry. Marquise du Barry, whose lovely head foli into the basket beneath the guillotine in explation of her levity. Jackson got together some two dozen bruisers. Besides Cribb, the band in-cluded John Gully, in turn fighting man, racing man, colliery proprietor and member of parliament. They were attired as king's pages and gathered extravagance and folly, had in her possession a stone of which the Paris jew-elers were unable to tell the precise about the abbey doors. There was no trouble .- Chicago News.

REINDEER IN LAPLAND.

They Furnish the People With Shelter,

Clothing and Food. Some people have said that the reindeer of the northern regions is to the inhabitants of those countries what the horse, cow and sheep together are to the dwellers in southern lands, and very probably they are right. What would the Laplander be were he deprived of his favorite? How could he travel without his pair of reindeer harnessed to his sledge?

The reindeer has large black hoofs, before a scaffold and surrounded by a behind which are false or secondary crowd, while beside her stood the exe beening which are take of secondary hoofs; the result is that when running they make a clattering sound, which may be heard a good distance away. The reindeer has much endurance and takes a long isometry without seeming Guillotine had not then invented his celebrated instrument of death, nor had takes a long journey without seeming tired, though it is only about four and a half feet in height and not very strong. Its horns are long and slender, the horrors of the revolution begun. Snatching the jewel from the hand of the servant, Mme. du Barry exam-ined it, saw the kneeling woman, the with branched, rounded antlers, but they are not much used in combat, like those of some other deer. The largest reindeer are found where angry crowd, the death knife falling

the weather is coldest, and their color is lighter. Usually it is brown and white, but in the case of old animals the hair is sometimes quite white From the skin of the reindeer the Lap landers get not only their clothes, but also bedding and tents; the milk is drunk and made into cheese and the flesh is also good to eat, the tongue and haunches being particularly liked. Pemmican, an important article of food, is made by pouring fat over the pounded meat and mixing them well together.-St. Louis Globe-Democrat.

PICKING HUSBANDS.

A Woman's Cynical View of the Ger-

man Marriage Market. men in Germany do not marry. They are married. They are more or less passive articles of sale, which stand in rows in the matrimonial shop window with their price labeled in large letters in their buttonhole, waiting patiently for a purchaser. They are perfectly willing, even eager, vic-tims. They want to be bought, but their position does not allow them to grasp the initiative, and they are thankful when at last some one comes along and declares herself capable and

willing to pay the price. The girl and her mother, with their Willing to pay the articles in re-purse in band, pass the articles in re-view and choose out the one which best suits their means and fancy. "I shall marry an officer," one girl "I shall marry an officer," one girl

confidence of a person about to order a new dress, and, lo and behold, be-fore the year was out she was walking proudly on the arm of a dragoon lieuwho swore to each other that they a pawnbroker to accept it afterward." would marry only geniuses, and here also they had their will. One married a great painter, one a poet and another a famous diplomatist. That they were all three peculiarly unhappy is not a witness against the system, but a proof that geniuses may occasionally be very uncomfortable partners. In this case the purchasers were rich and popular and could therefore make their Others of lesser means would have had to content themselves with

established in Canada.

"Can this ring be mended so a pawn-broker will give me the usual amount on it?

"It can be mended." said the jeweler. "Then I guess I'll take chances on my finger getting well with the ring on," said the young man and left the store.

"Incidents like that," said the jeweler, "show what a surprisingly large number of Philadelphians live with the pawnshop looming up just ahead of them as an unavoidable evil. Of all the people who need their rings cut off two-thirds of them ask that very question, and a large percentage of them take chances on blood poisoning rather than destroy the ring's value as a pawnable asset."-Philadelphia Ledger.

Coal Miners' Capacity Increases. The output of coal per man employ ed in the Welsh mines has varied i the last five years from a minimum of 246 tons in 1909 to a maximum of 27 tons in 1906.

PENNSYLVANIARAIL ROAD BULLETIN.

OPENING OF THE GREAT PENNSYLVANIA

STATION IN NEW YORK.

On Sunday, November 27, full train service will be inaugurated by the Pennsylvania Railroad to and from its new station at Seventh Avenue and Thirty-second Street, New York City.

The location of the Pennsylvania Station, one block from Broadway, two blocks from Fifth Avenue, is in the heart of the hotel, club, and theatre district of Manhattan. Within a short radius are located the majority of the big retail stores and restaurants. The Seventh Avenue surface cars and the Eighth Avenue surface cars passits doors; the Thirty-fourth Street surface cars (crosstown) pass its Thirty-fourth Street entrance, and stations of the Sixth Avenue Elevated and Hudson and Manhattan Tubes are a short block from its main entrance.

Time tables showing the service to and from the Pennsylvania Station are now being arranged, and may be obtained at Ticket Offices before the opening of the Station.

Connection will be made at Manhattan Transfer (near Newark) with local trains to and from the downtown stations by way of Jersey City, so that downtown New York passengers who desire may continue to use the Cortlandt and Desbrosses Street Stations and the Hudson Terminal Station of the Hudson and Manhattan Tubes.

"What on earth shall I do to amuse in the Union.

these people?" she asked. The yachtsman looked at the serene sky and calm, blue water and shook

sky and calm, blue water and shook his head doubtfully. "A storm would enliven them up a bit," he said, "but the weather looks quite settled. There is only one thing to be done. You must arrange a break-down; the engineer will manage that all right for you. He has probably often done so before. Then you must make for the nearest port for repairs and let your guests have a run ashore. and let your guests have a run ashore Some of them, I expect, will find an excuse for bidding you goodby and those who remain with you will get along all right together."

The hostess took her guest's advice and arrived at Toulon a day later, where nigh twenty of her guests bid her goodby .- London M. A. P.

Gas Heating Values Studied. In Birmingham, England, particular attention is being paid to the caloric for industrial purposes. It has been found with high pressure gas that ten pounds of copper can be melted for less than 2 cents.

Mexican Commerce Improves. The increase in the constwise shipping in Mexico during the last ten years amounts to 77 per cent in the tonnage.

Fishball Factory Found. Fishball Factory Found. There is a canning factory in Nor-way which uses 3,600 quarts of milk daily in the manufacture of fishballs and other fish products.
