S. P. WOLVERTON DEAD IN CHAIR

Sustaining a second stroke of paralysis, Hon. Simon P. Wolvorton, one of the most prominent attorneys in the State of Pennsylvania, died at his home in Sunbury Tuesday afternoon at 1 o'clock.

He was alone when stricken, and when his wife and sister-in-law, Miss Hendricks, entered the room a short time later they found him sitting in his chair dead.

Last Spring he sustained a slight stroke which affected his arm. He was confined to his home for a short time, but soon afterwards resumed his legal duties. He was an indefatigable worker and he refused to lay aside the burdens of his daily business life.

He is survived by a widow and three children, Simon P. Wolvorton, Jr., who was associated with him in his law practice, Mrs. Biddle Arthur, of Pittsburg and Mrs. B. F. Cummings, of Pottsville. He is also survived by three sisters, Mrs. Harriet Sarville, of Second street, Sunbury, and Mrs. Kate Reitz, of Lincoln, Neb., and Mrs. Mattie LaSalle, of Marshalltown, Iowa.

Mr. Wolvorton enjoyed a position of the highest dignity and respect in the county bar. He was counsel for the Philadelphia and Reading Railway Company, the Philadelphia and Reading Coal and Iron Company and affiliated corporations. His private business was of an extent that would have borne down a man of lesser physical and mental power than he. In spite of advancing years, he remained steadily at work, almost to the end.

The deceased, who was one of the most prominent citizens in this part of the State, both as an attorney and as an official in representative positions, was born in Rush township, Northumberland county, January 28, 1837. He came from substantial Pennsylvania stock, his parents, Joseph and Charity (Kase) Wolvorton, were descendants of an English and German ancestry, respectively both born in Northumberland county. In his youth, as is the custom of country boys, he worked on parental farm until he was sufficiently advanced to enter the Danville academy where he prepared himself for the Lewisburg University. He graduated with unusual honors. He was admitted to the bar in 1862 at Sunbury.

When Confederate General Stewart raided Pennsylvania, Mr. Wolvorton raised a company of emergency men, of which he was captain, and when Lee invaded Pennsylvania in the Gettysburg campaign, he again put himself at the head of the company of emergency militia who went to the front and did good service.

He was called from his legal activity by the Democrats of this Senatorial district in 1878 nominating him to fill the unexpired term of Hon. A. H. Hill in the State Senate. Mr. Hill having resigned to become a candidate for Governor.

He was elected, and subsequently re-elected twice, notwithstanding the district was strongly Republican. In 1890 he was elected to Congress as the Democratic candidate in the district composed of the counties of Northumberland, Montour, Columbia and Sullivan and was re-elected in 1892. His name was several times presented to Democratic conventions as a candidate for Governor, and Governor Stone offered him a position on the Supreme bench of the State to fill an unexpired term, but he declined the offer.

Since his retirement from Congress he has been engaged in the practice of his profession, he having one of the largest practices in the State.

He was a member of Lodge 23 F. & A. M., of Sunbury, of the Odd Fellows and of the Number One Fire company and a trustee of the Sunbury Presbyterian church.

Weddings End Catawissa Dance. For the first time in many years the annual Catawissa girls' dance, one of the big autumn social affairs in that town will not be held this year.

During the last few months the several numbers of the girls' committee which have planned the dance for a number of years have been married, and it is announced that the Catawissa girls' dance is a thing of the past.

Brave Bears.—While walking on the Bloomsburg and Sullivan railroad between Grassmere and Central, Brader Mausteller and Reese Shultz encountered two big black bears. The bears "cut dust" for the woods and were soon lost to sight, but they could be heard going through the brush half a mile away.

OFFICIAL LIST OF CANDIDATES

The form of ballot to be used at the coming election on November 8th, together with the official list of all the candidates was received at the office of the county commissioners yesterday and was immediately placed in the hands of the printers. The ballot this year is unique in that, while a multitude of parties are represented, the size of the ballot is smaller than usual, not exceeding twelve by fifteen inches.

THE CANDIDATES

The candidates certified to the county commissioners by the secretary of the commonwealth comprise those for lieutenant governor and secretary of internal affairs to be voted for in the State at large, as appears by the certificates of nomination filed in the office of the secretary of the commonwealth by the State conventions of the several parties and by the nomination papers filed therein, which have not been found or declared to be invalid, also the official list of the names of all candidates nominated at the uniform primary election held on Saturday, June 4, 1910, and also all candidates nominated by nomination papers filed for the offices of representative in congress in the 16th district; for senator in the general assembly in the 24th district and representative in the general assembly for Montour county.

The candidates of the various parties—seven in number—for the above offices are as follows:

GOVERNOR Republican and Workingmen's League, John K. Tener; Democratic, Webster Grim; Prohibition, Madison F. Larkin; Socialist, John W. Slayton; Industrialist, George Anton; Keystone, William H. Berry.

LEUTENANT GOVERNOR Republican and Workingmen's League, John M. Reynolds; Democratic, Thomas H. Greevy; Prohibitionist, Charles E. McConkey; Socialist, Louis Cohen; Industrialist, William H. Thomas; Keystone, D. Clarence Gibbons.

SECY OF INTERNAL AFFAIRS Republican and Workingmen's League, Henry Houck; Democratic, James I. Blakeslee; Prohibitionist, Charles W. Huntington; Socialist, Beaumont Sykes; Industrialist, James Erwin; Keystone, John J. Casey.

REP. IN CONGRESS Republican and Democratic, John G. McHenry; Prohibitionist, William Hart; Socialist, Jacob W. Renu; Keystone, Theodore C. Harter.

SENATOR IN GEN'L ASSEMBLY Republican, Clyde Charles Yetter; Democrat, Charles W. Sones; Prohibitionist, Joseph H. B. Reese; Socialist, C. Reightmire.

REP. IN GEN'L ASSEMBLY Democratic, Prohibition and Keystone, R. Scott Ammerman.

THE PROPER COURSE

Information of Priceless Value to Every Danville Resident.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement will add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of Danville citizens who have been permanently cured?

Leo Metzger, 364 W. Mahoning Street, Danville, Pa., says: "About a year ago I was troubled by pains in my back and could hardly walk when I first got up in the morning. At times I had a dull, heavy ache across my loins and whenever I took cold my condition was worse. The kidney secretions were too frequent in passage and often accompanied by a scalding sensation. Reading about Doan's Kidney Pills I had my wife get a supply for me. Half the contents of one box cured me and from that day to this I have had no further trouble from my back or kidneys. I procured Doan's Kidney Pills at Hunt's Drug Store and my experience was so satisfactory that I have unlimited confidence in their ability to cure kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Military Club at Orphanage.

The boys at the Old Fellows' orphanage near Sunbury are formed into what is known as the Iriquois club, the matron permitting them to have their own club room in the basement. Their uniforms are of khaki with white leggings, canteens and wooden guns. Weekly drills are held. To see these embryo soldiers on dress parade would warm any Odd Fellow's heart.

Left For the West.

Doyle Cotner, son of Mr. and Mrs. Hiram Cotner, of Washingtonville and Alvin Mower son of Mr. and Mrs. Jonathan Mower, of Strawberry Ridge, left yesterday for McCook, Nebraska. Mr. Cotner holds a responsible position on a railroad there and has been home on a visit. Mr. Mower is leaving to cast his lot with his friend in the west.

FRUIT GROWERS ARE SWINDLED

There is a fake scheme being worked in various parts of Pennsylvania, which Professor H. A. Surface, State Zoologist, has exposed and is warning growers against. He has received many letters on this subject, the following of which is typical, coming from a correspondent in Collegeville:

"A man came into this section, stating he was authorized by the State to treat trees affected by San Jose scale, by inserting a poison filled capsule under the bark of the tree. This poison was to be carried by the sap to all parts of the tree, and so kill the scale."

"Is this treatment effective in killing the scale without injuring the trees? I shall be very grateful for information on this subject."

In reply to this Professor Surface said: "His statements are false and his method is wrong. Several times unscrupulous persons have tried to gain the confidence and obtain money of the people of this State, by the statement that they are employed by this office or Department. All such imposters should be arrested for false pretense, and such other charges as can be brought against them, and such imposters can then be checked, even if they cannot wholly be stopped."

"This office authorizes no persons to treat or destroy trees, excepting our regularly appointed inspectors, who carry certificates of appointment, stamped with the seal of the Department of Agriculture and properly signed. Also, we do no work in treating trees, excepting that which is done as public demonstration work, inviting the public in to see how it is done, as a useful public lesson in the community. More than this, we do no other treatment of trees than the pruning and spraying, being assured that the best possible means of controlling the San Jose scale and certain other pests is by the use of the spray pump."

"No poison can be put into the system of the tree by injecting it under the bark in such manner that it will be taken up through the sap. You will find the safest, cheapest and more effective means of treating the San Jose scale to be thoroughly spraying with strong boiled lime-sulfur wash, applied at any time while the trees are dormant. If they are much infested you should make two applications, one just after the leaves drop, and another when the buds are swelling in the spring."

As Viewed By The Sportsmen.

Danville hunters thus far this season have met with indifferent success. With the exception of woodcock, several fine bags of which have been brought into town, game in season, if at all plentiful, has succeeded in eluding the sportsmen.

The succession of showers yesterday rendered conditions unfavorable for the pursuit of game, and the hunters who took to the woods in the morning, returned home early wet and empty-handed.

An experienced hunter last evening explained that it is a little too early for pheasants, owing to the presence of foliage on the trees, which affords these wily birds an opportunity to conceal themselves. No experienced hunter expects to bag many pheasants until after the leaves have fallen.

Few quail are seen. These have been scarce for years, but each season they seem to be becoming more plentiful. With respect to wild turkeys the record has been broken for so early in the season. An unusually large number of squirrels also have been shot.

It will not be until next Tuesday—November 1st—when the rabbit season opens, however, that the real slaughter of game will begin. The cottontails, which have been increasing in numbers during several years past, this season promise to afford rare sport to the hunters. Never have they appeared so plentiful. A gunner, who was in the woods a couple of hours yesterday, declared he could have shot three. A day or so before in a stroll he started seven rabbits.

For More Than Three Decades. Foley's Honey and Tar has been a household favorite for coughs, colds, and ailments of the throat, chest and lungs. Contains no opiates. For sale by Pauls & Co., Pharmacy.

Will Paint Cars Red and White. All the cars of the Columbia Power, Light & Railways company are to be repainted in the very near future, with the color a deep red and with the trimmings in white. The color is said to be very serviceable. It will be a decided contrast to the present color scheme.

Entertained in Valley Township. A back load of people from Danville were entertained at the home of Mr. and Mrs. Frank Beyer, Valley township, Saturday evening. Those present were: Mr. and Mrs. Frank Beyer, Mr. and Mrs. Herbert Sweitzer, Mr. and Mrs. Edward Sainsbury, Mr. and Mrs. George Beyer, Mr. and Mrs. Philip Beyer, Mr. and Mrs. Jacob Sechler; Misses Ida Beyer, Cora Wilson, Elizabeth Lee, Cordelia Sechler, Hannah Sainsbury, Hazel Beyer; Messrs. Charles Johnson, Guy Hoke, Sidney Beyers, John Markle, Glen Beyer, Henry Sechler, Samuel Sechler, William Sainsbury, George Beyers, Reynolds Beyers and Sidney Beyers. The evening was very pleasantly spent and a beautiful supper was served.

BURIED SATURDAY Mrs. Jennie Barry, whose death occurred Wednesday night, was laid to rest in Odd Fellows' cemetery, Saturday afternoon. The funeral took place at 2 o'clock from the residence of Mrs. Joseph Sherwood, sister of the deceased, Upper Mulberry street.

The services were conducted by the Rev. Joseph E. Guy, pastor of Shiloh Reformed church. The pall bearers were: Joseph Sherwood, Robert Good, John R. M. Curry, John Barry, John Good and Clinton Morehead.

Among those present from out of town were: Mr. and Mrs. Robert Good, Mr. and Mrs. Clinton Morehead, of Berwick, and Mr. and Mrs. John Good, of Hazleton.

CONTRACT FOR MACADAM ROAD

The contract for reconstructing East Market street between Front street and the macadam road leading to the hospital for the insane has been awarded to W. H. Lyon, who possesses the contract for paving East Market street, which is approaching completion. The bids were opened at Harrisburg on the 19th inst.

The substitute forwarded to Danville shows that there were three bidders: W. H. Lyon, of Sunbury; E. H. Reinhard, of Bloomsburg and R. C. Fiss of Shamokin Dam.

Mr. Lyon's bids were \$3601.50 for "slag bottom and approved limestone top," or \$3361.50 for "slag bottom, bituminous-macadam, mechan. mixed top."

In a communication to the borough council State Highway Commissioner Hunter states that he does not consider the bids submitted by Mr. Lyon excessive; also that he has forwarded to the county commissioners three copies of the agreement, which the law requires to be entered into between the State, the county and the borough. He asks that the agreement be signed by the county commissioners and the officials of the borough as promptly as possible.

The contractor is to begin work within ten days after receipt of notice from the State highway commissioner and is obliged to complete the contract within one month.

Being on the ground with his tools Mr. Lyon has a decided advantage and will be able to enter on the new job with a minimum of delay.

DO THE RIGHT THING if you have Nasal Catarrh. Get Ely's Cream Balm at once. Don't touch the catarrh powders and snuffs, for they contain cocaine. Ely's Cream Balm releases the secretions that inflame the nasal passages and the throat, whereas medicines made with mercury merely dry up the secretions and leave you no better than you were. In a word, Ely's Cream Balm is a real remedy, not a delusion. All druggists, 50 Warren Street, New York.

High Priced Auto Burned.

Two front wheels are all that is left of the \$4000, 75-horse power automobile, owned by George H. Morton, of Berwick, which was burned near Iola, Columbia county, Saturday morning, when Mr. Morton and two friends were returning from a hunting trip. The car ignited while it was running at full speed and all the occupants had narrow escapes. The blaze had started only a few minutes when the gasoline tank exploded, completely wrecking the car.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

CONDITIONS ARE IMPROVING

Recent activity on the Stock Exchange has been in refreshing contrast with the stagnation of the last few months. The better undertone which was intimated in these advices as early as September 10th has at last crystallized into an active demand for stocks at advancing prices. As usual, the initiative was assumed by powerful financial leaders who recognized changed conditions, and each day the buying movement widened with a resultant advance of several points in all the leading shares. The most important single element of improvement was the positive assurance of a bumper crop. The value of a good harvest is much more highly appreciated in the West than here. As a result of the big corn yield, our Western farmers and merchants have each put on a spirit of renewed confidence, so that already the business outlook throughout the great corn belt is showing real improvement. Pessimism, never so deep in the West as in the East, is now rapidly disappearing; for the farmers will be able to meet their obligations, and land speculation has received a wholesome quietus through the timely efforts exerted by interior bankers. Incoming advices from the West are all of a much more favorable nature than a few weeks ago. Corn is lower in price than last year, but this fact will be offset by farmers feeding more corn to cattle. As the latter are bringing high prices, it will prove more profitable to turn corn into meat than into any other marketable product. Our foreign trade is showing a very remarkable and satisfactory change towards more normal conditions. In September our exports were valued at nearly \$160,000,000. This was nearly \$15,000,000 in excess of last year, and was probably the heaviest September record. The increase was partly due to heavy cotton shipments. Imports during the same month amounted to only \$117,000,000, a decrease of nearly \$4,000,000 compared with last year. The net result for the month was an excess of exports of \$51,000,000, compared with \$23,000,000 in 1909 and nearly \$41,000,000 in 1908. This change in the tendency of our foreign trade is wholesome and significant. For a long period, owing chiefly to the high level of price here, the tendency has been for imports to increase and exports to diminish; thus creating a surplus of imports instead of exports as usual. It is quite possible to have a satisfactory foreign trade in which imports exceed or equal exports, for all foreign trade in the final analysis is barter, and cannot be continued unless mutually profitable. But the United States has always been an export country, owing to its surplus of agricultural products. With the growth of population it is certain we shall gradually change in this respect, and if we are to continue importations from abroad, as we must, it will be necessary for us to prepare to make payments in larger exports of manufacturers to compensate for diminished agricultural exports.

"It Beats All" This is quoted from a letter of M. Stockwell, Hannibal, Mo. "I recently used Foley's Honey and Tar for the first time. To say I am pleased does not half express my feelings. It beats all the remedies I ever used. I contracted a bad cold and was threatened with pneumonia. The first doses gave great relief and one bottle completely cured me." Contains no opiates. DIED AT TURBOTVILLE

Mrs. William Brittner, a highly esteemed woman of Turbotville, died suddenly early yesterday morning, aged about 50 years. About six weeks ago Mrs. Brittner suffered a stroke. Sunday night, shortly after retiring, she was taken ill. A physician was summoned, but she grew rapidly worse and passed away a few minutes after twelve o'clock.

She was born at Paradise and lived all her life in that vicinity. She is survived by her husband and the following nine children: Charles and Edward, both married and residing at Turbotville; Mabel, Blanch, Harry, Grace, Carl, Ruth and Helen, who live at home. Mrs. Cramm, of Paradise, is a sister. She was a member of the Zion Lutheran church at Turbotville.

The funeral will be held Wednesday afternoon at 1 o'clock from the home. Interment will be made in the Turbotville cemetery.

Thousands Have Kidney Trouble and Never Suspect It. How To Find Out.

Fill a bottle of common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

What To Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder, urinary part of the urinary passage. Corrects incontinence, holds water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

BOILING LIME-SULPHUR MIXTURE

From Waynesboro, Pa., in a region now known for its successfully restored industries, a letter from one of the prominent fruit growers reached State Zoologist H. A. Surface, of Harrisburg, stating that the writer had failed to find in the Bulletin a detailed discussion as to whether the lime-sulfur solution, which is universally being used in that region to suppress scale and other pests, is better boiled in an open vessel or in a closed vessel. Dr. Surface discussed this question in this reply as follows:

"The reason you did not find a discussion in our Bulletin as to whether the lime-sulfur solution should be boiled in an open or closed vessel, is the fact that it does not make one bit of difference. You cannot boil it in a vessel tightly enough closed to keep in the steam. You doubtless saw us boil it in an open kettle. We obtained good results by so doing. If you would boil it in a covered vessel you would simply prevent the rapid evaporation of water, and perhaps hold the heat longer, but there are no special points of value in this.

"When boiling with steam, I recommend running the steam pipes directly into the solution. The steam will escape and condense, but the condensation will not be more than that which is boiled away by steam after you get the boiling well started. It is a great deal of trouble to run a circular coil of pipes through barrels or vats for boiling with steam, and I have found by experience that it is not necessary. You can boil lime sulfur solution in an open kettle, on a fire of old rough stumps or logs, or you can boil it by extending the ends of steam pipes down into vats or barrels, or in any way so that it can be boiled an hour. There is no other material that can be boiled by such a variety of methods and have good results in killing the scale. The main point is, not to dilute the too much, and to do this you should have a hydrometer, and dilute it so that it does not stand lower than 1.03 specific gravity test, when liquid is almost without sediment.

"There may be a dark sediment in the solution, which is all right. The sediment hurts nothing, neither does it kill the scale. It is the red liquid which is the really effective scale-killer. However, there is no need of going to the trouble of removing the sediment, as I really prefer to have it there, in order to act as a marker on the trees."

Capt. Bogardus Again Hits Bull's Eye This world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says: "I suffered a long time with kidney and bladder trouble and used several well known kidney medicines, all of which gave me no relief until I started taking Foley Kidney Pills. Before I used Foley Kidney Pills I had severe backache and pains in my kidneys with suppression and a cloudy voiding. On arising in the morning I would get dull headaches. Now I have taken three bottles of Foley Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and again feel like my own self." For sale by Pauls & Co., Pharmacy.
