The Democrat.

FRIDAY, NOVEMBER 15,1889.

-OUR QUESTION DRAWER.

Our inquisitive friends are asking many questions, some of which are pretty hard o answer. Below will be found a few of hem :

The ubiquitous " Inquirer " asks Why do such men as the lamented Hon. S. S. Cox, of New York, die, and such as pugilistic bruisers live? Anwer: We give it up. The inveterate "Constant Reader' swer :

wants to know why we refuse to pitch into what he calls our utterly incompetent local officers? We answer by asking, why don't he do it over his own proper signature ?

That ever on the wing "Rara Avis," sks: Why do reporters run every new asks : word and phrase, such as "concensus" and "in the near future," into the ground by painful reiterations ? Answer : Pre sumably for the same reason that he use " rara avis " instead of rare bird. See ?

The correspondent who always writes " star " asks : Please give the over a name of the author of " Step Down and Answer : As it was not Shake Out ? " speare, as he guesses, it was Henry Ward Beecher.

"A Democrat" is anxious to know why Gov. Hill, in one of his late speeches. "I didn't bring my encyclopedia with me ? " Was it," he asks, " intend. as a mere joke, or as a slur ed on ex-President Cleveland ?" Answer: If intended as a joke, it is one of those ugly kind called joking on facts ; but if used as a slur, it is generally thought it was "a hit, a very palpable hit."

Our tried and trusty friend (so well known to all editors) "Consistency," asks: Is there any justice to donors and sufferers in spending a large per cent of money contributed for our flood sufferers in distributing it? Answer: As the percentage of the amount that will be appropriated thus will not be known until the accounts are audited, an answer cannot be given.

The irrepressible "Citizen" who is always on the alert, comes at us with the query: Who called the meeting and how many of our citizens were present when the so-called local Finance Commitee was appointed, and to which Governor Beaver frequently refers? Answer: Not knowing we cannot tell.

"A Republican" asks: Why is it when our party puts a full county ticket before people that all efforts to elect center the only upon one of the nominees? Answer Republicans are in a hopeless As the minority in the county, their only hope is to elect one of their candidates, which can only be done by barter and sale-in other words by the use of money and trading votes.

The not-often-heard-of "Paul Pry," wants an opinion as to the most successful way of prying into the doings of the secret meetings held by Governor Beaver's State Relief Committee. Answer : Interview a Washington correspondent who gets at all the secrets of the Presi dent's Cabinet.

"A young lady," pretty as she is modest, asks: Is it proper for a young lady to permit a young man to kiss her prior to a marriage engagement? Answer: That depends---well, say, on circumstances, as circumstances govern cases. If the act involves publicity, we should say, no; but if it is done "decently and in order," that is, not boisterously, and on the sly, our answer is, yes.

"A no rice" pops the following interro-gation: Do the rules of table etiquette ever justify the act of eating peas with anything but a fork? Answer: Oh, yes; both nature and propriety largely teach that the better way, indeed, the proper way, is to cat them with your teeth ; as weth are for that purpose, while a fork would be a stupendous failure. "A young man" asks: In walking

with a lady in a public place, such as in nd, on which side of her should a fair grou he walk? Answer: On the outside, of course The time honored "Subscriber"

he saying that "The child is father to

over 43,000 voted for Bigler; 50,000 Democrats are missing, far more than half the total Democaatic vote. What a severe indictment is this of the present D mocratic Leadership and recent tactics t the organization ?

It will be said that Republicans also are very short. That is true ; but they poll nearly 85,000 out of 110,000 cast for Harrison last year. The Republicans lose 25,000 out of 110,000, while the Demo-crats lost 50,000 out of 93,000.

The reported Governor-elect of Ohio is a Randall Democrat, and naturally there are those who will make note of the fact that it is worth while at times to have, in a closely contested State, a Randall Dem ocratic candidate on the ticket to give it strength and safety. And there will be other observing voters also who will con trast the wise policy of the Ohio Demo cratic organization with the unwisdom of that new regime in Philadelphia and Pennsylvania, supported and encouraged

and nominated by those who tolerate the " hissing " of Randall's name. Another marked surprise is the miscal

culation made by the astute Jersey Republican leaders who expected to run Abbett to the girth, and possibly unhorse him by the fierce onset made by the bat talions of Cavalryman Grubb. It is not often that those leaders are the victims of surprise, and it may be worth their while to go deeply into an inquiry to as-certain "what's the matter," for the chances were wide open for Democratic defeat, because of the bad behavior of the Democratic Legislature --- if for no other reason.

Mahone's mortifying collapse is another astonishing phenomenon in Virginia poli-tics. Beyond all question the streneth of parties is very evenly balanced in the Old Do ninion when divided sharply and exclusively on party lines --- yet here is the Republican organization, under the marshalship of its shrewdest, ablest, most adroit organizer, and most daring and resolute leader, routed horse and foot --overwhelmed by numbers that no one dared to hazard in an estimate before the election. The one only issue was Mahone and anti-Mahone, for politics are purely personal matters with him. The decision is Virginia's protest against any more Mahone

politics, and all men may rejoice in the verdict-for Mahone politics are bad politics all the time. It was anticipated by all but himself and those inoculated with his virus, that he would be defeated, but it was not expected that his horsemen and chariots would be so totally sub

merged in another Egyptian sea. And Iowa claimed as having gone Democratic! Can that be? Every ene who knows well the politics of the Northwest will naturally suggest a suspension of public opinion on that. But the bare thought that there is even room for such a claim is calculated to take the breath of a loyal Republican who remembers Iowa's forty-thousand majorities of g few years ago.

THE REASON NOT PLAIN AS A PIKESTAFF. om Quay's Philadelphia Inquirer

Fuller returns of Tuesday's elections show curious results in some of the States. Ohio and Iowa have elected Democratic Governors, while Massachu-setts has had a narrow escape. In New York the Democratic majority is larger than for some years, and there has been an increase in both New Jersey and Virginia. and enormous one in the latter State

These facts serve only to give emphasis to the great victory achieved by the Republicans of Pennsylvania. This is almost the one State voting on Tuesday where the Republicans did not lose at least in some degree. There was not only no loss of party prestige in this State, but there a decisive gain in the Republican majority, which gives us more than was ever before returned in a year when no candidate more important than State Treasurer was to be elected.

Some of the reverses in the other States will be charged to local causes, and in some instances they have had their influence, but local causes do not lead to such general disasters when the party is full of vitality and enthusiasm. Iowa and Ohio writes : Please settle a dis-puted point as to the author of licans have any encouragement to see that they go R

NEW YORK Sun : The party of the Em pire State is victorious and solid in its own strength. It is democratic from the foundation way up to David B. Hill at the top.

Some years ago Virginia repudiated her debt. Her repudiation of Mahone or Tuesday was much more to her credit however.

ALLEGHENY county elected a Demo cratic District Attorney, and Huntingdon county a Democratic Sheriff.

THE Prohibitionists, it is evident from Tuesday's vote will have to take a fresh

start.

McKINNEY's majority over Mahone in Virginia, has already reached over 41,000.

BOTH LEGS TAKEN OFF. Mr. Anthony Glosser Meets With a Ter

rible Accident. Mr. "Andy" Glosser has long been well

known to many people of Johnstown. His home is near the village of St. Bonifacius not far from Hastings. He was employed for some time by the firm of Geis, Joster & Quinn, and later by Mr. John I. Hornick as bartender. Since last spring he was employed by L. M. Woolf & Son as a salesman.

On Wednesday evening Mr. Glosser left his employer's store-room about 10 o'clock. About midnight he was seen by ome parties.

Saturday morning, between the hours of 1 and 2 o'clock, as Engineer William Sweeney, with the engine "Indiana, was returning from having taken a train out the Baltimore & Ohio to the ward, he saw a man lying on the track at the upper end of the Clinton street crossing. It was impossible to get stopped before the engine had passed where the man was lying. It was then found that both legs had been ground off the man. Joseph Beiter, who keeps a saloon near Ly, was aroused and the injured man was taken to his place. It was there learned that the man was Andy Glosser. He was laid on a board and taken on the engine to the Pennsylvania Railroad sta tion, and from there carried to the Cam bria Hospital. Drs. W. B. Lowman and J. C. Sheridan were summoned. They saw at once that both legs would have to be amputated. Glosser moaned some all the while, but was unconscious. Father Alto was summoned, and fearing that he would not survive the severe operation of two amputations, annointed him. The doctors then proceeded and amputated both legs below the knee. Glosser still remained unconscious and apparently insensible of what was taking place till about 8 o'clock yesterday morning. He was visited by Mr. L. M. Woolf early in the forenoon, and talked to him. He seemed very much distressed at his condition, and burst into tears when Mr. Woolf came to where he was His relatives have been notified and are expected to-day. The chances are that he will recover, being a man of strong physical vigor, but the idea of having to pass through the world without feet disourages him very much. Last night at a late hour he was reported as doing well. How he came to be lying on the track seems to be clouded in mystery, being unable to account for it himself. However, there are opinions in regard to it. CONEMAUGH VALLEY SCHOOLS.

Funds Raised by Westmoreland Pupils For the Floo nsburg Democrat. oded District

At the recent Westmoreland County Teachers' Institute, held at Greensburg, it was agreed to raise funds in each school for relief of the schools of the flooded Conemaugh Valley. The subscriptions are now coming in, and County Superin-tendent George H. Hugus presents the following report, to-wit :

the man." Was it Shakespeare or Bacon? Answer: It was neither of them. It was one of the famous aphorisms of Words worth.

"One of the Curious" asks: Where can I find the origin of the expression "That it is a wise child that knows its own father?" Answer: It would be impossible to tell who first used it-probably some careless reader of Shakespeare, who got the cart before the horse. What the great poet wrote is, "It is a wise father that knows his own child." "Merchant of Venice," Act 2, Scene 2.

One who signs himself "A Learner," writes thus: Do you know which one of our modern humorists originated the slang phrase, "Too thin?" Answer: It is not of modern origin; neither is it slaug. In Shakespeare's "King Henry VHL," Act 5, Scene 1, King Henry replies to the Bishop of Winchester by saying hide offenses." And Addison, in the classical 'Spectator," in criticising a cer-

OPINIONS OF THE PRESS

to the ability of the Republicans of this State to create their own enthusiasm and see that Pennsylvania is kept at the head of the column of Republican States. There will be many efforts to explain the difference between the result in Pennsylvania and the other States, but few will give the real reason. Pennsylvania Republicans follow their own leaders and they lead to victory,

WHEN WE begin operations as a city, it would be well to look after the widening of some of our thoroughfares. This matter should receive attention before buildings are erected. Locust street should be opened from Market to Park Place. Iron street, from the Pennsylvania railroad to that his reasons "are too thin and base to hide offenses." And Addison, in the matter should not be delayed till too late. There is also other streets, the widening tain Thanksgiving sermon by a distan- of which would be a great benefit. Are Girls Conscientions

A well-known writer says : " Would a well-bred girl, possessed of the slightest sensibility or sense, divulge the fact that she had been proposed to by a man, and that she had refused him? I have asked this question of several girls, and also of several married women, and while their answers were varying, I am confi dent from what I know of their charac ters, that the well-bred girl of honor and sensibility would never, upon the weight iest pretext, disclose what had passed between herself and a man upon cate a subject.

pathy, and usually there is none more was the mother of Mrs. Col. John E Linton, of this city.

dict, the jury standing eleven to one, and the one would not give in. Judge White

had the jury brought into court, and in kind but firm words informed them that 4 70 he was surprised that they could not 37 2 agree. The case was a trifling one, and

5 00 involved hardly anything more than the question of costs, as he had intimated in

his charge. His Honor stated that the probability was that the one juror was wrong, as there were eleven chances that 3 3 The juror should feel that the way. 5 00 eleven were as honest and intelligent as he was. It was not a question of con-

science with jurors; that is a mistaken dea ; it is simply a question of judgment, and a minority could agree without in-jury to the conscience. His Honor stated that he could not think of discharging the jury, and hoped they would reach a ver-dict in a few minutes. The obstinate juror was evidently impressed with the Judge's remarks, as he immediately gave in to the other eleven, and without leaving the box a verdict of not guilty was handed down.

MARRIAGE LICENSES.

The Following Have Been Granted Since Our Last Report.

Berringer.....Portage Gallagher.....Garman's Mills Wm. C. Walker... ... Hasting {Charles Adams...... {Julia _ rexierAshville

Ex-Mayor Henry J. Pointer, of New-ark, N. J., and Miss Annie E. Force, once a teacher in the Washington street public school in Newark, were quietly married in New York a day or two ago. He is 90 years of age, she 26.

torrent that swept down its valley a little over five months ago. The temporary foot-bridge between

East Conemaugh and Franklin was damaged to the extent of having about one third of it taken away on the Franklin side. The low temporary railroad bridge a short distance above was weighted with cars laden with stones and coal.

The temporary Cambria City bridge was early seen to be in danger. Floating objects lodged against the supports, but they were speedily dislodged. Shortly before 2 o'clock on Saturday afternoon Policeman Peter Culliton, with a force of men, was at work removing some drift that had lodged against the bridge. deniy, as if the water had undermined its supports, several sections gave way, mak ing a gap of about forty or fifty feet. This, of course, cut off Cambria City and Morrellville by wagon communication

At the stone bridge the water filled the channel of the river almost to overflow ing. At 2 o'clock on Saturday afternoon the gauge there indicated a rise of nine feet of water. If there had been two inches more of water it would have overflowed Eron street at that point.

Just above the Lincoln bridge the water was within a few inches of the top of the stone wall. The gas pipe to the Cambria Iron Company's office, which suspended across the river by a wire rope, was torn down by the water. damage was also done to the bridge back of the Company store.
