head? Yes, this half hour of my text is a "There was silence in heaven for half an hour." You will find the inhabitants all only a glimpse, for we have only thirity min-utes for all heaven. "Is that Jeace and take only a glimpse, for we have only thirity min-utes for all heaven. "Is that Jeace and take only a glimpse, for we have only thirity min-utes for all heaven. "Is that Jeace and take only a glimpse, for we have only thirity min-utes for all heaven. "Is that Jeace and take only a glimpse, for we have only thirity min-ota wound made by a spike, and a scar on the pain of the left hand. But what a countemance! What a smile! What a grandeur! What a loveliness! What an overwhelming look of kindness and grace! Why He looks as if He had redeemed a world! But come on places? That is the Apostolic row. Do places? That is the wall of heaven, lapper at the bottom and amethyst at the tobig-get house in heaven; that is the big-get house in heaven; that is the tobig-get house in heaven; that is the tobig-get house in heaven. That is the tob-big triver of heaven heaven is apper at the bottom and amethyst at the top the great metropolis? That is the origin the banks of the Hidson, or the Ala-bam, or the Khine, or the Ala-sing trive of heaven. So brights are all apple." "When eaver saw the like of this for diarity and kaben." "They are all apple." "When are the like of this for diarity and kaben." "They are all apple." "Where are the like of the band and deaff." They all see and hear." "Where are the lamitarial boards." "They are are the labbitate stylums?" "Where are the heapitate for the lamitaries for the bind and deaff." They all see and hear." "Where are the simeline which horry were the this instead of the sime size for the bind and deaff." They all see and hear." "Where are the simeline which horry were the the hard hour of sime size from the heapitate for the labor is the torry where they c

## POPULAR SCIENCE.

A bee does not weigh the one-hun dredth part of an ounce. It is said that the grip this year par takes of the nature of neuralgia. Electric motors have been so greatly improved of late that they will now pub nearly 30,000 pounds.

Naturalists have enumerated 657 different species of reptiles. Of this num-ber 490 are as harmless as rabbits.

ber 490 are as harmless as rabbits. By a new system, compound sheets ot platinum and gold are used to make cru-cibles for use in industrial chemistry. The Maine Cattle Commission has dis-tovered tuberculosis in cattle from Mass-schusetts, and has ordered that importa-tion be stopped. Steel smokestacks are being placed up-in the locomotives of the elevated rail-roads in New York City, thus reducing the weight from 800 to about 100 pounds. An apparatus for purifying lubricature

An apparatus for purifying lubricating oils coming from machinery has been patented in Norway whereby the same sil can be used many times at a triffing expense.

si can be used many times at a triffing spense. In order to photograph the flying in-sect, the exposure must last only 1-25,-900th part of a second. This the French photographer, M. Marey, claims to have accomplished by the aid of a new instru-ment invented by himself. He has also photographed the blood globules circu-lating in a vein. Wring to the lack of penetrating power possessed by the electric aro light in thick weather, its use in lighthouses is not recommended. Inventive talent is now being brought to bear in England to ascertain a better composition of the carbons, with a view to supplying the re-quired rays for penetrating effect. The effect of a recent explosion at Rome in which 265 tons of gunpowder blew up, has been observed on the bar-ometer at the Roman College, which is four kilometres from the magazine. The increase of atmospheric pressure caused by the sudden evolution of gases made the mercury jump up 11.4 millimetres.

the mercury jump up 11.4 millimetres. The recent rise in the price of cannel coal has led the English gas companies to look about for some other means of increasing the illuminating power of the gas. This has been found in Russian petroleum, from a light product of which according to Mr. Weaver, a rich gas is now being supplied in Kensington by the local company.

now being supplied in Kensington by the local company. An extraordinary result has been ob tained by some experiments made in Eng-land in signalling with electric lights turned vertically to the sky. The light of the Eddystone lighthouse cas be seen only 174 miles, and then on a clear night; but a vertical beam of light of far less power is visible just twice as far, with a strong chance of its surmounting an or-dinary fog. Professor Krail, of Vienna, Austria, in examining the bands of a mummy, pro-hably of the age of the Ptolemies, which for the last forty pears has been pre-served in a museum, has found a strip of limen with several hundred lines of Etrus-can writing. In this text, which is the longest we possess in that language, some

# EGYPT'S NEW KHEDIVE.

The Career and Attainments of the Young Prince Abbas. A Few Condensations of Events Cour-ring Throughout the State-

Young Prince Abbas. The late Khedive of Egpyt, Tewfik Pacha, who died in Cairo on January 7, left four children, two boys and two girls, borne him by his only wife, Princess Eminsh, whom he married in 1878. His eldest son, Abbas Bey, the present Khediva, was born on July 14, 1874, and therefore will attain his majority in six monthe. — Abbas Bey was educated by A. T. Butler, who acted for several years as his tutor. and who has been for a long while in the : ice

PETROE ABBAS. PERIOR ABBAS. Of the late Khedive. It is this circumstance which has given rise to the too general be-lief that the young Prince, having been at first under Britiss tution, would prove to be an Anglophite to a still greater estent than was his father. Tewilk. But it is diffi-outs to decide that question, for Abbas Bey has not yet had an opportunity to show his sentiments and his opinion about the politi-cal affairs of his contrast. Academy of Vienna; and he speaks Garman and French us well as he speaks English. MENDO-SHERLP BRENDERS. MERINO-SHEEP BREEDERS.

The Annual Meeting of the Association Held at Steubenville,

Held at Steubenville, Steubenville, Jan. 30—The seventeenth annual meeting of the United States Merino-Sheep Breeders' association was held here this week, with representative spresent from the work of the around the sevent

annual meeting of the United States Merino-Sheep Breeders' association vas held here this week, with representativ s present from half a dozen States. The work of the execu-tive committee was approved, and J. B. Hewey selected as president protem. W. B. Follock, of Canonsburg, Pa., who was a delegate of the National Delaine asso-ciation to a joint meeting of sheep-breeders with the World's Fair directors, presented a report, claiming that American breeders were discriminated against, as there would be considerable red tape connected with ark to be done as individuals as against faglish, dustralian and Canadian sheep-breeders who could exhibit by States or counties. A Pennsylvanian here arose and said that in the committee of thirty appointed to look after Pennsylvania's interests at the first the farmer was not given half a show, as the only granger on the committee came from the East and that he hired his farm workers. They, as an association, had asked that, a practical sheep breeder be appointed, but their request was ignored. He also thats a good showing could be and the diar be closed on the sabbath and that no fluoro besold on the sabbath. An association, so that's good showing could be made A committee of five was then appointed to look after their interests at the first the fair be closed on the sabbath and that no fluoro besold on the sabbath. An association, with a sheep to be registered must be presented by July 1, 1822, and 1832. Imme by October 1, 1892. The flowing officers, W. L. Arcuer, of Bruteststown, P., and Kobert Perrine, of Statestown, P., and Kobert Perrine, of Statestown, P. and Stoher Statestown, W. He Buchanan, of Smithfield, Ohio, and owakins, of Maynard, Ohic, examining association district center around western for whish, a radius of 100 miles, and many or ment sheep raisers of the district weat rememory lassociation district center around western for whish a radius o

## PENNSYLVANIA NOTES.

Jacob Reikal, sged 65, while working in a sawmill at Kremis, a small village near Meroer, was caught in a belt and drawn between a fiy-wheel and boiler, where he was crushed into a shapeless make. He leaves a wife and four children.

was crushed into a shapeless make. He leaves a wife and four children. Miles Bradshaw, of near Beaver Falls, on Monday night had 70 sheep, valued at 6400, killed by dogs. Beforeleaving for work Friday inorning an oil driller named Stoner, living at Callery Junction, turned on the gais in the stove, leaving his wife and child sleeping in bed. Shortly after fire broke out, and before the neighbors could subdue the flames, both mother and babe were burned to death. They were found lying in bed, with the child clasped in its mother's arms. The Pain ertown eil field, sbout nine miles southwest of Greenburg, is being de-veloped succe-sfully. It is known now that an exceptionally fine grade of labricating oil has been found on the Fu ton farm. Indications point to a good flow when the well is completed. Great secracy is main-tained by those in charge of the premises. The oil, in its crude condition, is valued at 86 a barrel.

56 a barrel. A lad named Michael McCloskey, aged 5 years, residing in Philadelphia, secured a bottle containing about a quarter of a plat of whiskey and drank the contents. Its had been a sufferer from valuar disease of the heard, and the whiskey so stimulated the action of that organ as to cause death. Alfred James, a missing Washington boy, is supposed to have perished by freezing in the woods.

Is supposed to nave personed by freezing in the woods. License court convened af Clarion. Judge Clark granted license to 38 out of 44 appli-cants, with an order that bars should be closed by 10:30 p.m. A wire nail over an inch in length was found imbedded in the liver of a chicken killel at Rochester. Bert Rush, a young man living at Farm-ington, Fayette county, was thrown from a pony Sunday and fataly injured. John Wentzell, of Greensburg, was attacked and fatally injured by a ferocious dog.

John Watkins, of Kamerer. Washington county, accidentally shot himself through the heart.

the heart. TI e 3-year-old son of James Montgomery of Washington fell into the fire and was burned to death. Oliver Mackin was killed while felling a tree within a mile of Johnstown, the tree crushing his body.

Senator Cameron has introduced petitions in the U. S. Senate from over 200 towns in Pennsylvania favoring the passage of a bill subjecting of comargarine to the laws of the several States.

subjecting o comargarine to 'the Laws of the several States.
Daniel Weller died on his farm, where he was born, near Canonsburg, aged 91. He leaves it children, 27 grandchildren and one great grandchild.
John McClymods and his daughter, of Darlington, were perhaps fatally injured in a runaway accident at Beaver Falls.
Last week two children of the family of John Cetz, a hotelkeeper at Landis Valley, died of diphtheria within half an hour of each other. Friday two more of his children who died Friday also will be buried at one time.
George R. Senter, employed at the coal chut standy hur.
Mrs Dayis, of Philadelphia laid here

California produced the first bars of American tin from American mines, worked by American machinery and dug out by American miners at Temescal, San Bernardino County.

A New Haven (Conn.) physician has come to the conclusion that clams propa gate typhoid fever.

the while that the wife had discovered a new and more palatable way of prepar-ing mutton. This women is Mrs. Louise Schwartz, of East Ninth street. Thus was thirty-four years ago, and the hus-band died without learning of the de-ception his wife had practised on him, but he lived many years, and was finally carried away by a trouble that did not affect the lungs at all. But a Brooklyn German has gone a step further, he selis essence of dog, or penhaps it would be more proper to say extract of dog, at \$1 a bottle, having rendered it from the carcass.—St. Louis Republic.

On the Eastern frontier of the Dark Continent coal is so plentiful that by lifting a shovelful of clay off any par-ticular spot it may be reached. But there is no means of transporting it to

At Pine Bluffs, Ark:, a half block of busis ness houses were burned. Loss, \$150,000; At Chicago, a five story building, occupied by the Chicago Crutch & Machine company, the Illicois Broom company, and the Smith & Bayne's Piano company, was guited by fire. Loss, \$55,000. A Wite Driven Insane. Bethlehem, Pa, Jan. 30-Mrs. Gatharine Johnson is a raving maniac by brooding over the mysterious disappearance of her husband two weeks ago. The couple are wealthly and recently moved here from Brooklyn. Nothing has been heard of John son since his disappearance.
