"No two children wear out clothes just alike," a father said. "Take, for example, my seven boys. I have to get knee pads for Cyrus, copper foed shoes for Lucius and Darius, albow protectors for Jonas, re-entorced trousers for Rufus, and stockings with double toes, heels, and knees for Cephas and Alpheus. Some af the inventions for protecting children's cloths against wear are decidedly useful, and they have been very profitable to the invention, but a far larger fortune awaits the man who shall discover how to make children's clothing indestructible throughout. This would do away with the necessity of providing a special equipment for each child, and it would also meet the requirements of that wast army of children who wear out their clothes, not in spots, but all over."

For Couchs and Throat from less as Bhown's Bhownell Thooms.—"They stop an attack of my asthma cough very promptly."—C. Miamiville, Onto.

Is your blood poor? Take Beecham's Pills. Is your liver out of order? Use Beecham's Pills. 25 cents a box.

A Veteran of the Mexican War.

Samuel L. McFadin, whose portrait appears above, is a prominert citizen of Logansport, Ind., and one of but seventeen surviving veterans of a company of ninety-two young men who left that city forty-five years ago for the seat of War in Mexico. He now holds the position of Marshal of National Association, and although well advanced in years is still hearty and hale. In writing of his health he says: I had been troubled for a long time with Rheumatism, Kidney and Liver Complaint and could hardly get around. Suffered great pain night and day. After trying many different kinds of medicines and fliding no relief, at last through the advice of a friend I purchased Dr. Kimer's Swamp Root from one of our leading Druggists, B. F. Kesling, and must say it has helped me wonderfully, as I now walk without pain.

wonderfully, as I now walk without pain.

It is the only medicine that has done me any good, and has been a great benefit in invigorating and building up my system, greatly assisting the liver, kidneys and digestive organs. This is the first recommendation I have ever given a medicine and it affords me pleasure to call the attention of the public to the merits of this wonderful specific. Those who try Swamp-Root have generally first employed the family physician, or used all the prescriptions within their reach without benefit. As a last resort, when their case has become chronic, the symptoms complicated and their constitution run down, then they take this gemedy, and it is just such cases and cures that have made Swamp-Root famous and given it a world-wide reputation.

THE CONDITION OF BUSINESS.

Trade in General is Good. Failures of the Week. The Business Barometer.

New York—R. G. Dun & Co's Weekly Review of Trade will say; The great combination of coal carriers, and the will excitement and unprecedented transactions in the stock market have monopolized attention in Wall street. Outside of speculative circles there is some doubts whether the effects will be beneficial. Many apprehend that the price of soil may be advanced to manufacturing establishments and other consumers. On the other hand, the convenients, on the other hand, the convenients of the price of coal than they have held through the price of coal than they have held through the price of coal than they have held through their combination, and the market continues will have no more experienced to the price of coal than they have held through the price of coal than they have held through the price of coal than they have held through the price of coal than they have held through the price of coal than they have held through the manufacturing the subject of the continuents of the stock of charge and the subject of the coal than the shipments from other ports continue trey large.

The product on of pig iron is, about stationary. The stocks of charge and the story. The stock of charge and the subject of the considerable price, the stocks of coke from are considerable price, the charge and the demand for plates is similar than was expected. Larger sales of copper are reported at 10.75 cents and a fair disturbation of tin while lead is a tride lower.

Reports from other cities indicate a general improvement in trade, through sales of wool are 8,000,000 pounds also stan larger is a slight improvement in cotton, and has been quoted on call this week at 21.2 and 1 per cent.

The business failures occurring throughout the country during the past seven days

cent.

The business failures occurring throughou the country during the past severs day number for the United States 235 and for Canada 41, or a total of 276 as compared with totals of 319 last: week and 297 the week previous to the last. For the corresponding week of last year the figures were 297, representing 272 failures in the United States and 35 in Canada.

THE RUSSIAN FAMINE.

In one Village a Corps Was Found in Every House. Fassants Praying for Death.

London, February 15.—Letters from St. Petersburg show that the telegrams which pass the censorship do not depict half the horrors of the situation.

In the province of Samara a government official who went to carry relief to a village found it deserted. But nearly every house contained a corpse, and some of them contained several corpses, In Penza the people may be seen praying for death. Suicide, however, is infrequent, no matter how terrible the rituation. The Russian peasant, when his last resort is gone, waits for death to come. The government, is already finit difficult, on account of the enormous drain of the famine, to meet other expenses, and some official salaries are already in arrears. Work, however, is being pushed in the navy yards and on the military roads, the starving peasanty being largely employed for the latter purpose.

PABLIAMENT IS OPENED.

By the Usual Speech From the Throne.
London, Feb. 12—Parliament reassembled today and listened to reading of the Queen's speech. The speech briefly men'ions the agreement reached with the United States on the Bering Sea question. In the House of Lords, Lord Salisbury said that the absence of the special reference in the Queen's speech to the order and prosperity prevailing in Ireland showed the confidence of the Government in the country's fitness for local self government in the country's fitness for local self government is Billow the Confidence of the Government in Sir William Vermon Harcourt (Liberal) said it was a matter he wished carried out. If a genuine, honest measure was promoted the opposition would support it, but they could not regard it, as iccal government if only some application of the County Council system was to be taken as settling the question of self-government. Sir William added that Lord Schollc regiene in Ireland in the event of home rule being granted did not promise well for the liberality of the coming bill.

In reply Mr. Bal'our said the proposals of the Ministers, granding an extension of local government as well as an education measure to Ireland, would show that the Government had confidence in a Catholic malority.

member is akowed \$1000 a year for traveling expenses.

True watchmakers of Switzerland, at a recent convention in Berge, decided to make an exhibit at Chiego, of their fixest and coefficient watches, but not to attempt any competition with American manufacturers in cheaper grades.

In response to an invitation the Illinois Society Sons of the American Revolution has decided to furnish a company to participate in the parade incidental to the deciration exercises in October, 1893. The men will wear confinential uniforms.

In Colorado's exhibit will appear a very complete showing of the flora of the State. Miss Alida P. Lansing, who has been in charge of the matter, gathered more than 1000 varieties last summer, including fifteen or more which had never been classified.

It is reported that it is the intention of the Government to establish at the Exposition grounds a complete postoffice, equal in capacity to that required by a city of 200,000 or more inhabitants, and to operate it, not only during the Fair but for several months previous to the opening and after the closing.

The women of Nebraska have undertaken

previous to the opening amounts of the ing.

The women of Nebresi's have undertaken to furnish the hammer with which Mrs. Potter will drive the last nail in the Woman's Building when it is dedicated October. In earl, The nail, it will be remembered, will be furnished by the woman of Montans, and will be an elaborate production, composed of gold, silver and copper. It is proposed that the hammer be made of the native woods of Nebraska and inlaid with gold, silver and part.

Wheat in the Northwest.

Minneapolis, Feb. 10—The stock of wheat in private elevators at Minneapolis is given at 1,653,000 bushels, an increase of 179,000 bushels, an increase of 179,000 bushels since Monday of last week. The total stock at Minneapolis and Duluth is 18,029,334 bushels, a gain of 480,230 bushels for the week. The Market Record gives the stock in country elevators of Minnesota and the two Dakotas as 11,834,900 bushels, a decrease of 482,300 bushels a decrease of 482,300 bushels for the week, against 7,954,000 bushels for the corresponding time in 1881. This makes the aggregate stock of wheat in the Northwest 29,864,224 bushels, or only 54,020 bushels more than last week. One year ago the total stock was only 22,397,887 bushels.

Four Anarchists Garroted.

22,397,887 bushels.

Four Anarchists Garroted.

Madrid Feb. 12. The four condemned Anarchists were garroted at Feres, in the plaza in front of the prison. A formidable force of troops was massed in the plaza, and kept the crowd at a distance from the spot at which the execution took place. The condemned accepted the ministrations of the clergy. The spectacle was a horrible one. As the screw of the garrote entered the spine their heads fell forward, the faces turning purple, and tongues protruding. A cry of horror went up from many in the crowd. The condemned men were leaders in the attack upon and plundering of Xeres, on January 5, by a band of raiders, said to be Ancharists, and belonging to an organization for arousing rebellion in Spain.
