COLORED MEN APPEAL.

COLORED MEN APPEAL. A National Convention for the Benefit of the Race. CINCINNAT, JUJ 6.-The national con-rention of colored men of the United States to consider the interests of the race was held here. Mr. Daniel A. Rodd of this city, who has been the leader, in the matter, announc-ed that it was changed from a delegate con-vention to a mass-meeting and that no cre-dentials were required. There were a hund-reds or more men in the church and a few women. Speeches were made by various persons present, the most notable being one by Merryweather of Arkanasa, who predict-de that the negroes in the South would turn on the whites and revenge their wrongs. Resolutions were passed appealing to the American people for the privilege of eating their bread and abling in their homes in peace; cautioning the negroes to live lives which would command the respect of the whites and asking that a military academy be atablished in Washington where colored pouts might obtain a thorough tactical and anginering education. Forhall Keene a Planist. The man of fashion without a fad is few and far between. As a rule he does not make the public a confi-dant, but nevertheless he pursues his studies with that quiet bearing and decorrow toos which are store the disstudies with that quiet bearing and decorous tone which are ever the dis-tinguishing traits of the true gentle-man. He never blazons his accom-plishments before the world, because he needs no notoriety. How few there are in general society who are aware that Foxhall Keene, the best cross-country rider and the most daring horseman in society, is a plan-ist of real ability. There are times when, in the cozy home of an inti-mate friend, he lets loose the shack-les of conventionality and plays with the inspiration which freedom in-spires, and with the absolute touch of a master. It is seldom that he can be induced to play in the larger gatherings of his society friends. But Keene is not the only planist of note in the ranks of fashionable society. decorous tone which are ever the dis-

But Keene is not the only planist of note in the ranks of fashionable society. "I had occasion not long ago to at-tend a reception," said a society gen-tleman to a New Orleans Times-Democrat man the other day, "at which there was a lack of that usual quota of paid entertainers so cus-tomary and so necessary to the suc-cess of a large 'affair.' But the host-ess, who had invited only her imme-diate circle, had arranged a surprise with that tact which is a part of all real fashionable women. It con-sisted of a trio, with Fred Bulkely as planist, Hermann Oelrichs as violin-ist, and Tom Howard as an expert player on the flute. They gave a Beethoven symphony, and it was played with all the skill that long practice and real interest give to the musician. The flute accompaniment was particularly sweet."

Giant Tortolses. There used to be a giant species of tortoise in Mauritius. Van Neck, the discoverer of the dodo, found some there which were so large that six men could be seated in a single shell. Another authority states that 2,000 or 3,000 of them were sometimes seen in one drove. STAND back a little and give Ferd
