"German Syrup"
Mr. Albert Hartley of Hudson, N. C., was taken with Pneumonia. His brother had just died from it. When he found his doctor could not rally him he took one bottle of German Syrup and came out sound and well. Mr. S. B. Gardner, Clerk with Druggist J. E. Barr, Aurora, Texas, prevented a bad attack of pneumonia by taking German Syrup in time. He was in the business and knew the doctor. He used the great remedy—Dosee's German Syrup—for lung diseases.

HELP WAS REFUSED.

THE SWITCHMEN'S STRIKE IS OFF.
The Troops Not to be Withdrawn Till All Danger of Interference With Non-Unionists is Ended.

A four-hour conference was held at Buffalo, N. Y., Wednesday between Grand Master Sweeney, Grand Master Wilkinson Grand Master Sargent and Grand Chief Clerk. After leaving the conference Grand Master Sweeney and Local Master Moriarity, of the switchmen, called together the members of the committee that had been conducting the strike.

Shortly before 11 o'clock the door was opened and the waiting long entered, the statement of the end of the strike, made verbally by the Grand Master, was in substance as follows:

"The duly authorized committee have declared the strike off at midnight, and I have sanctioned their decision. Five hundred and fifteen switchmen cannot cope with 12 big railway corporations and 8,000 militia, and succeed. We have made a strong fight and have lost."

"When asked if he had anything to say in regard to the failure of the other organization to come to the aid of the switchmen, Sweeney replied: 'Let them speak for themselves. I have nothing further to say.'"

As other questions were about to be asked Mr. Sweeney, a member of the committee with whom the Grand Master had been consulting, created a small sized sensation by saying: "I want to say right here that the brakemen, trainmen and firemen refused to give us any help. My name is Barrett, and you can say so."

As soon as the news began to spread over the city, which it did very rapidly, there was a general rejoicing. The immediate withdrawal of the troops is expected to take more or less time for a complete restoration of quiet and cessation of the guerrilla-like attacks to which non-union men and soldiers have been subjected.

THE ARBITRATION BOARD MEETS.
The State Board of Arbitration met for the purpose of making an investigation of the causes leading to the strike of the John McManon was the first witness for the strikers. He showed the board a copy of the demands made on the Erie and other roads before the recent strike. The Grievance Committee's demands upon Superintendent Brun and General Manager Walters, of the Erie, and the final refusal of the latter to accede to the demands.

On a poll of the 110 switchmen in the Erie yards, 85 voted to strike. The witness said that he had worked more than 10 hours a day, without extra pay, since the passage of the 10-hour law. The Erie officers had not said that they refused to obey the 10-hour law. Grievance Chairman Bass, of the Lehigh, and others were sworn, and recited the details of their demands on other companies and the steps leading up to the strike.

RIOTERS BOUND OVER.
The four rioters captured the other night were arraigned before Judge Green on the charge of riot and using violence and inflicting injury upon another person by compelling him to abstain from doing an act he had a legal right to do. Judge Green, upon request of the Lehigh Valley attorneys, postponed the examination until September 2, and fixed bail at \$1,500 each.

George Halfter, a sergeant in the Fifth separate company, was taken at Newburgh to his home. Halfter's mind has given way under the hardships and privations experienced at Buffalo during the first few days.

GOVERNOR FLOWER OFFER REWARDS.
The Governor issued a proclamation warning all persons engaged in the violation of the law affecting the safety of property and interference with the same. A reward of \$100 will be paid upon the arrest and conviction of each person who shall during the next 60 days violate any of the provisions of the said sections of the penal code relating to steam railroads. Omission by the authorities to enforce said provisions will be considered cause for removal.

GRAND MASTER SWEENEY ASSAULTED.
At Buffalo, N. Y., Friday morning, Grand Master Sweeney, of the Switchmen's Union, was set upon by Arthur Quinn, a striking Nickelplate switchman, and brutally assaulted. Mr. Sweeney and about 75 switchmen were standing at the corner of Swann and Main streets. Quinn approached and told Sweeney he was responsible for the loss of his job. Before Sweeney had time to answer Quinn dealt him a fearful blow on the head and followed it up with several sledge-hammer punches in the face. Sweeney fell to the sidewalk, and then Quinn kicked him several times. Bystanders interfered and pulled Quinn off Sweeney. Quinn ran away, followed by an angry mob of strikers. Quinn threatened to kill them if they followed him, and they stopped the chase. Quinn has not yet been arrested. Sweeney's nose was broken.

An intensely bitter feeling against Grand Master Sweeney has developed among the late strikers, who consider that they have been duped and betrayed by him.

TROOPS COME HOME.
At the request of Sheriff Beck, Adjutant General Porter decided to reduce the number of troops here. Some 1,500 were ordered home, leaving over 5,000 still in the field. General Porter said no more troops would be sent away until those in command are sure they will not be needed. "We are going to stay here until the rioting is stopped if it takes all summer."

STRIKERS RUSH FOR PLACES.
Superintendent Brun, of the Erie road, stated that there are probably 25 good switchmen who went out from the Erie because they feared for their lives if they did not. These men will be taken back, but beyond that the most careful scrutiny will be exercised. The Lehigh people are only receiving the names of applicants. They have restored no strikers as yet. Superintendent Johnson, of the Nickel Plate, says the road will not hire any of the strikers. They have 35 men now, and that is all he needs.

General Superintendent Cannon, of the Lake Shore, says that he has no vacancies to fill, and the Erie people make practically the same statements. It is quite probable that all the Lackawanna switchmen can find employment if they care to go back. The Lackawanna people set back to their places the monthly men they had brought up from the East to man their Buffalo yards and all the old men save five have returned to work.

COUNTING THE COST.
Erie county's Sheriff has been making close computations as to the final cost of the strike. He figures the cost at \$114,750, while others say it will reach \$150,000.

NEW YORK MUST PAY \$275,000.
COST OF MAINTAINING 7,000 SOLDIERS DURING THE BUFFALO STRIKE.

Comptroller Wemple and State Treasurer Danforth estimate that the Buffalo strike will cost New York state about \$275,000 for the pay, subsistence and transportation of the 7,000 National guardsmen sent to Buffalo. Erie county will probably have to pay the balance in the end, but at first the money will have to be drawn from the general fund of the state.

Lizzie Borden was in the House.
In the Borden murder trial Saturday, at Fall River, Mass., the only new fact developed was that the accused, Lizzie Borden, was in the upper part of the house, near her mother, room, when Mr. Borden returned home, about half an hour before the double murder occurred.

Europe's Hot Spell.

The thermometer registered 89° in the shade at Berlin, Thursday. Many deaths from sunstroke were reported. The heat in East Prussia is more intense. The mercury rose to 95° in Thorn and five deaths were reported there as due to the heat. The fruit and vegetable crops have been ruined. Fifty soldiers were prostrated by the heat in Danzig. The thermometer indicated 100° at Homburg, and three persons died there from the effects of the heat.

IN THE CHINESE LANGUAGE.

In the Chinese language the same word may be given several different meanings by the modulation of the voice. The same thing may happen to the English 'yes,' which may be pronounced so as to mean 'I assent to that,' or 'I am doubtful,' or 'Indeed!' Professor Max Muller, in his 'Lectures on the Science of Language,' gives an amusing illustration of these modulations in the Annamitic language, a monosyllabic tongue spoken by the people of Tonquin and Cochinchina.

In this language the syllable 'ba,' pronounced with a grave accent, means a lady, an ancestor. Pronounced with the sharp accent, it means the favorite of a prince. Pronounced with the semi-grave accent, it means what has been thrown away. Pronounced with the grave circumflex, it means what is left of a fruit after the juice has been squeezed out. Pronounced with no accent, it means three. Pronounced with the ascending or interrogation accent, it means a box on the ear.

Thus 'Ba ba ba' is said to mean, 'If properly pronounced, 'Three ladies gave a box on the ear to the favorite of the prince.'"

DISCOVERED.

M. de Sartines, at one time chief of the police of the city of Paris, was a master of his profession. The criminal to whom he gave his attention was almost sure, sooner or later, to be brought to justice.

An incident which illustrates the thoroughness of his work is recorded, reluctantly one may imagine, in the Vienna police reports.

The chief of the Vienna police wrote to him describing a criminal who had fled from Vienna and taken refuge in Paris, and requesting Sartines to discover and seize the fugitive.

Sartines gave his orders for a search for the man. Two months passed. Then he wrote the Vienna officer: 'I have sought the criminal you described on all sides, and for a long time in vain. But at last the efforts of my agents are rewarded. We have found the man.'

'He is in Vienna, which city he has not left at all. You will find him at Faubourg X, Number 56. There is a flower pot in his window.'

Excuses of Would-be suicides.

People who want to commit suicide make curious excuses in order to obtain poison without the necessary formula of obtaining a physician's prescription. A case occurred in Chicago some time ago of a lady who contemplated killing herself, but found it difficult to procure the necessary drug. She tried to get morphine, but could not obtain it; then she went into a drug store and invented a story about wishing to buy sufficient chloroform to kill a favorite dog that had been run over in the street and was suffering untold agonies. She wanted to put the dog out of its pain, and begged the clerk to sell her enough chloroform to do it. He declined to sell her the chloroform, but told her to bring in the dog, and she went away in great disgust.

For Moulting Hens.

Many people have learned by experience that Sheridan's Condition Powder given once daily in food will supply the needed material to strengthen and invigorate sick chickens or moulting hens and get the young pullets to laying earlier than anything else on earth.

Mrs. Edwin Brown, East Greenwich, R. I., says: "I could not do without Sheridan's Powder when hens are moulting. I use it when chickens are small, as they often droop and die when young. To a pint of clabbered milk I add a teaspoonful of the Powder, mix well and let the chicks eat all they will once a day; it does seem to be just what they need; they soon become vigorous."
