

A Little Kansas Heroine.
The greatest heroine in Atchison is a 16-year-old girl. Four years ago her father died, leaving six other children, who were all small. There was a mortgage of \$250 on the house, and the family was in a dilemma, as they were foreigners and could only speak a few words of English. The girl got work in an Atchison establishment, and inside of six months was making enough money to support the family. For the last two years she has been sending the children to school, and since her father died has paid off \$150 of the mortgage, besides paying every dollar of the funeral expenses. At odd times she studies, and has learned to speak the English language perfectly. Her employer has also promoted her to the position of overseer of the works. She walks two miles to her work every day, as she lives in the suburbs.—Atchison Globe.

A Man with Three Wives.
In Richfield township, in Ohio, lives a man named Adams Roundy, who recently moved there with his wife and two other women, who, he said, were his daughters. It finally became known to the neighbors that all three were Roundy's wives. Finally one explained matters and said they were all much in love with him, and being unable to agree which should marry him, determined to all three elope with him. They were contented with their lot.

Our Baby
Was a healthy, fat, plump and healthy. But when two years old Scrofula, humor spread over her head, neck and forehead. Her eyes became inflamed, and she was burning. Her mother tried to burn her with a red-hot iron, but the burning ceased, and the sores entirely healed up. She is now perfectly well. I. W. FREDERICK, Danforth St., near Crescent Ave., Cypress Hills, Brooklyn.

Scrofula's Pills cure all Liver Ills, biliousness, nausea, sick headache, indigestion.
P. N. U. 40

"August Flower"
"I am happy to state to you and to suffering humanity, that my wife has used your wonderful remedy, August Flower, for sick headache and palpitation of the heart, with satisfactory results. For several years she has been a great sufferer, has been under the treatment of eminent physicians in this city and Boston, and found little relief. She was induced to try August Flower, which gave immediate relief. We cannot say too much for it." L. C. Frost, Springfield, Mass.

CURES RISING BREAST
"MOTHER'S FRIEND" is the greatest blessing ever offered child-bearing women. I have been a mid-wife for many years, and in each case where "Mother's Friend" had been used it has accomplished wonders and relieved much suffering. It is the best remedy for rising of the breast known, and worth the price for that alone.

THE CHOLERA DIMINISHING.

NEW YORK FREE OF THE PEST.
The Scandia Released From Quarantine. Secretary Foster Says the Danger is Past.

THE SCANDIA RELEASED.
The banner pest ship of the Hamburg fleet, the Scandia, which arrived at New York from Hamburg September 9, with a record of 82 deaths during the voyage, hoisted anchor Thursday and sailed for Baltimore, the port for which she was originally destined. All her passengers who have been on Hoffman Island for the past ten days or more, were landed at Ellis Island.

Secretary of the Treasury Charles Foster said Friday: "I consider the danger passed. Nevertheless, the Government will not relax its vigilance."
All reports from the detained steamships at the Upper and Lower Quarantine stations, New York harbor, are favorable, and with Fire Island and Camp Low denuded, and the last of the Scandia's passengers released from Hoffman Island, the cholera may be said to be stamped out. The only infected ship left in the lower bay is the Bohemia, the last vessel to arrive with cholera. Her stevedores' passengers were transferred to Hoffman Island, and the ship was disinfected more thoroughly than was possible while the people were on board.

In the upper bay a number of ships are detained, most of them being held because they are from Hamburg, but on none of them have any signs of cholera been discovered.
The N. Y. state board of health in its current report says: "Of Cholera to September 24 there were within the city limits of New York 8 sporadic cases and 6 deaths. The first occurred September 6. No new cases existing at date mentioned. Twenty-two deaths occurred in the port, which is free from the disease at this date."
The five new cases on board the Bohemia at Quarantine, S. I., reported September 27 seem to have been the last flicker in the expiring flame of cholera. Dr. Byron's report for Thursday night was as follows:
"Patients under treatment for cholera: 31; for measles, 3; convalescents, 34; no new cases or suspects since September 27."

THE NUMBER OF FRESH CASES OF CHOLERA AT HAMBURG ON THURSDAY WAS 130, 9 MORE THAN WEDNESDAY; DEATHS 340, 19 LESS THAN DAY BEFORE; BURIALS 149, 17 FEWER THAN WEDNESDAY.
The return of the fugitives has now fairly begun, and all trade, outside of the harbor district, shows a daily increase.
The work of cleaning, disinfecting and improving the lower quarters of Hamburg is continued with unabated energy, and will be prosecuted throughout the winter, in anticipation of a slight outbreak next summer.
At Berlin two new and 10 suspected cholera cases appeared; at Cracow and Podgorze one death each occurred; at Buda Pesth four deaths and five new cases are reported.

A VILLAGE STRICKEN WITH CHOLERA.
The cholera epidemic is assuming serious proportions at the Port of a village near Boulogne, France. Work is entirely suspended, and the situation becomes more critical every day. There have been over 100 cases in the last ten days and 21 deaths.

TEN MEN BURIED ALIVE.
Caught by a Cave in a Mine. The Voices of the Entombed Men Heard by the Rescuers.
A cave-in occurred at the East Norrie mine, at Ironwood, Mich. Ten men are entombed. The mine was surrounded all day by weeping and frantic women and children, and the scenes were pitiful.
Hundreds of men are working to rescue their companions. The company is driving pipes to get air to the men if the water in the mine does not rise and drown them they may be rescued. Voices can be heard at intervals.
The names of the entombed men are John Johnson, Abraham Thompson, Frank Damason, and Samuel Damason, miners; four timber-men names unknown, two trammers names unknown.
The skip tender is also missing and it is feared that he was caught in the cave-in.

A HARD LUCK STORY.
The Sarvivors, However, Will Have Lots of Cash to Spend.
The whaling steamer Mary G. Hume, Captain Tilton, arrived in port at San Francisco. 14 days from Unalaska. The steamer has been gone over two years and a half, and for two winters was housed in the ice. She came back with only two men forward. Two of her crew were drowned at Unalaska, one died in the North, and a number died before the Arctic ocean was reached. Her catch for the cruise has been 38 whales. The bone and oil of which are worth \$400,000.
The Hume was out about 100 days when the first accident occurred, resulting in the loss of two of the crew. A small boat was capsized and a sailor named Briscool and a German named Paul were drowned. Several other men were killed by the ice. The steamer was quartered at Herschel island, and in the spring went to Cape Bathurst and McKenzie river.
In the second winter scurvy broke out and there were seven men down at one time. A lad named Raymond Lanier was taken to Marine hospital in this city almost a wreck.

KILLED WITH AN AXE.
Two Men Arrested for the Brutal Murder of an Inoffensive Man.
At New York, Frank Paulsen, aged 55 years, and a veteran of the war, was found dead in his room, the victim of a most brutal and revolting murder.
Charles Knoch, a former associate of the murdered man, who frequently visited him at his boarding house, No. 138 Hester street, was arrested on suspicion. He is a tall and powerful man, whose dress coincides with the description given by the murdered man's landlady of a man whom she saw running from the house a few moments before the discovery of the crime.
No motive can be ascribed for the act, as none of the murdered man's effects had been disturbed. The crime was apparently committed with an axe or an adze.
Frank W. Rohle, a Swede, was also arrested on suspicion. He has an axe under his coat and with it tried to kill the officer who arrested him.

Four Lives Lost in a Wreck.
The west bound fast express on the Opelika, Ala. The engineer, Lewis Willis, and fireman, Thomas Willis, brothers, were instantly killed. Postal Clerk Landom and Carter were fatally hurt, and six passengers seriously injured.

TRADE BETTER THAN EVER.

Business Continues to Increase Steadily for This Season.
R. G. Don & Co.'s Weekly Review of Trade.

Business continues larger than ever at this time of the year, and the commercial sky is without a cloud. While the season brings the usual shrinkage in distribution of textile goods, the mills are nevertheless crowded with orders and the demand for the products of iron, steel and leather has improved. Money is everywhere in ample supply and collections have very rarely been more generally satisfactory, so that the demand for commercial loans is unusually light for the season.
The outgo of money from Western centers, for purchases in the country, is larger than usual, and yet there is no embarrassment. Crop reports are uniformly favorable, and the promise is distinctly better than it was a few weeks ago. At the South trade is much encouraged by some advance in the price of cotton, and it is therefore more active. In general business is not only large and remarkably healthy, but the outlook for coming months is everywhere regarded with the utmost confidence.

At Boston dry goods are active and the mills very busy, with the demand such in some lines that they cannot produce goods fast enough. Collections are excellent. The boot and shoe trade is very satisfactory, and sales of goods are much larger than last year. At Philadelphia iron improves with large sales, and hardware, recently quiet, is now more active. The liquor and tobacco trades are busy, the manufacture of cigars and the waxy trade improved, with good trade in oil and naval stores; dry goods are moving steadily and trade in glassware is very busy. At Cleveland trade is improving and larger than last year, and at Cincinnati the clothing trade is better than previous years. Although a slight decline is seen at the South, the Western trade largely exceeds previous records.

Chicago reports merchandise sales greater than last year, the harvest progressing well, money active, and all conditions good. Receipts of products show an increase in every thing except rye, moderate in flour, pork, cheese, wool and hides, a quarter of barley, two-fold in dressed beef, cured meats and broom corn and three-fold in wheat, corn and oats. At St. Louis trade is distinctly better in dry goods, shoes, hats and railway supplies, and collections are prompt. At St. Paul business is larger than a year ago; it is much very active, and all conditions good. At Kansas City good, with heavy receipts of cattle and grain and elevators about full. Business at Denver is moderate.

Wheat and oats are nearly a cent and corn 1/2 cent lower, and receipts of wheat at Western points have been 6,326,685 bushels in four days, against 5,000,000 in the same period last year. An increase over last year's receipts in cotton has been enormous, sales reaching 1,960,000 bales, with an advance of a quarter during the week in spite of better receipts and more better in four days, against 1,500,000 in the same period last year. Cotton is higher, pork 75 cents per barrel, lard 55 and hogs 25 cents per 100 lb. Coffee is an eighth stronger, but oil about 2 cents lower. Western receipts of cattle are 175,000 head, against 145,000 the same week last year. Coal is more active but at cut rates, deliveries having been made this month at a nominal advance.
The Treasury has paid out \$800,000 more notes against much more silver added, and has taken in \$2,000,000 more gold during the week, but the demand for gold at the West and South continues smaller than usual.

The business failures during the last seven days number for the United States 277. Canada 31, total 208; as compared with 211 last week, 182 the week previous to that, and 230 for the corresponding week of last year.

Two Ugly Fires.
At Chicago a disastrous fire occurred in the Nickel Plate freight yard. Forty cars of merchandise were consumed. The loss is estimated at \$100,000.
At Denver, Col., the Buena Vista hotel, a two-story frame dwelling at the corner of Sixth and Lawrence Streets, was destroyed by fire. Gustave Kearsse perished in the flames and Annie Anderson, A. McDougall and Tom Arnold were severely burned.

A Missouri Tragedy.
Harvey Plattenburg, a brother-in-law of the late Maj. John N. Edwards, the well known newspaper writer and author, shot and instantly killed James McDowell at Lexington, Mo. Policeman David M. Gray attempted to arrest Plattenburg, and was shot and fatally wounded. Plattenburg was afterward lodged in jail. It is said there was a long standing grudge between the two men. Plattenburg comes of one of the oldest and best families in the State.

A FATAL BOILER EXPLOSION.
Three Men Killed By an Exploding Locomotive.
At Birmingham, Alabama the boiler of a locomotive of the Tennessee Coal, Iron and Railroad Company's road, blew up instantly killing Engineer John Elmore and fatally wounding Fireman Benjamin Garner Samuel Estes, standing a hundred yards away, was struck and fatally hurt. Nothing was found of Engineer Elmore's body, except one foot, 360 yards away.

Struck Twice in the Same Place.
At Schenectady, N. Y., John Shavor, aged 75, while sitting at a window was struck by lightning a few weeks ago, partially paralyzed and marked with a scarlet circle on his right cheek, below the eye. The other night there was a terrific crash of thunder, and Shavor's daughter ran into his room, where she found him dead on almost the same spot where he was struck before.

Harris Orders Another Ballot.
At Harrisburg, Pa., Secretary of State Harris ordered the printing of another sample ballot containing the presidential ticket of the People's party and Socialist-Labor party, whose nomination papers have been filed since the printing of the specimen ballot recently mailed to County Commissioners and other officials.

A Small Boy Roasts His Sister.
Tommy Crutch, 6 years old, the son of the Rev. Thomas Crutch, of Magnolia, Ark., while playing with his 4-year-old sister, lit a match and placed it under her clothes. The child was burned to a crisp.

Justice Is Slow in Rome.
They manage their criminal business very carefully in Rome. It has taken the authorities three years to complete the arrangements of the trial of seven persons for forgery. Meanwhile the suspects have been in jail.

Misdeeds in England.
Nearly 900,000 grown English people can neither read nor write.

Judge Waxen's Political Provocals.

The Congressman that thinks this Government kin to be run on \$3.75 a week most gently eats with his knife.

That is Congressman that thinks it is treason to taxpayers for Uncle Sam to use a bath tub instead of washin' in the creek.
The Congressman that wears a paper collar and fashens his gallus with a single nail thinks \$5,000 a year is too much wages for him.
It takes some Congressmen a long time to find out the difference between a paved street and a country lane.
It's a sign of progress when a Congressman ain't afeared to walk on a velvet carpet with his boots on.
That's a good deal besides legislation for a Congressman to learn in Washington.

Some Congressmen never learn how to drink champagne without gaggin' at the price.
A Congressman that will wear a powder coat cravat with a dress suit is always hollerin' for retrenchment and reform.
A Congressman that won't pay his just debts ain't fit to make laws.
Some Congressmen ain't the fools they look, and then again some are.—Free Press.

Keep Away Moles.
A simple and cheap way to keep moles out of a yard is to plant a few castor beans, says a St. Louis paper. These are quite ornamental in appearance and seem to have the power of keeping moles at a distance. This naturally sounds like a superstition, but hundreds of suburban owners and renters will confirm the statement that the remedy, or rather the preventive, is most effective. It often happens in a new subdivision that yards are cut all to pieces by moles, with the exception of those in which castor beans are growing, these escaping every time, the only inference being that there is something in the smell of the plant or the root which keeps away the burrowing pests.

Four Railroads Overlooked.

"Strange that four railroads, one a belt line, and two first-class lines, since the Chicago Exposition, should have been overlooked," said Jay A. DeLongis & Co., when they laid out the town of Griffin. Four factories located, houses and stores sprung up at once.—Chicago News.

A SHAKENARE for children, edited by a Philadelphia man, threatens such innovations as "I am thy papa's ghost."

Just What is Wanted.
Business is alive to a great coming event, and in the hurry-burry of its preparations for the Columbian Exposition in 1893, too much is already seen on the streets of a fanciful or amusing nature, both superficial and catch-penny. There has been observed a void in the line of the strictly useful, combining therewith instructive object lessons and the beautiful in art. Books there may be by the score, but the convenience of the Centennial Exposition at Philadelphia shows that the mass of these were more trifling and unworkable. The boards of visitors were ever at loss for a handy pocket guide of official stamp, not only reliable, but pleasing always to keep, with what is wanted of this unique kind has happily already made its appearance, and we have before us "The Official Portfolio of the World's Columbian Exposition," illustrated from Water Color Drawings.

This Portfolio is a rare and beautiful exponent of the main architectural features of the Great Exposition at Chicago in 1893. The fourteen magnificent structures are faithfully exhibited, while the Bird's-eye View gives a realistic glance at the lay of the grounds, with their principal buildings, lagoons, etc. The illustrations are exact reproductions, in water color, of the original drawings, made especially for this purpose from the official plans by America's best known water color artist, Charles Graham. The pictures, therefore, are not only official, but they are genuine, and competent critics pronounce them to be equal to the finest productions of a similar kind of the famous art centres of Europe.

A copy of this exceptionally fine production will be sent to any address upon receipt of 10 cents in postage stamps by The Charles A. Vogeler Co., Baltimore, Md.

Aids to forgetfulness would be as popular as aids to memory are.—Texas Sittings.

When Nature
Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedies only when needed. The best and most simple and gentle remedy is the Syrup of Figs manufactured by the California Fig Syrup Co.

It is a wise child that goes out of the room when the old man smashes his thumb.—Texas Sittings.

Why Mothers Delight in It.
Because it is the only remedy known that will cure a severe case of croup in half an hour. It does not cause vomiting, nor does it stop the breath, as many of the so-called croup cures do. Oh, yes! Dr. Hozele's Certain Croup Cure is a blessing to every household. Sold by prominent druggists. See Address A. P. Hozele, Buffalo, N. Y.

When a girl is bent on getting married she stands up straighter than ever.—Texas Sittings.

E. B. Walthall & Co., Druggists, Horse Cave, Ky., say: "Hall's Catarrh Cure cures every one that takes it." Sold by Druggists, etc.

It is better to give than to receive—especially in a personal encounter.—Texas Sittings.

"Lays is a battle field on which we fight 'em." To preserve health in this fight use Becham's Pills, 25 cents a box.

The Germans are a mathematical race; even the student songs are larger rhythms.—Texas Sittings.

If afflicted with sore eyes use Dr. Isaac Thompson's Eye-water. Druggists sell 25c per bottle.

RISEING SUN STOVE POLISH
DO NOT BE DECEIVED
With Patent, Bismuth, and Paints which stain the hands, and burn the face and hair. The Rising Sun Stove Polish is Brilliant, Odorless, Durable, and the commonest use for no tin or glass package was ever purchased.

The hypophosphites of lime and soda combined with cod-liver oil in Scott's Emulsion improve the appetite, promote digestion, and increase the weight.

They are thought by some to be food; but this is not proved. They are tonics; this is admitted by all.

Cod-liver oil is mainly a food, but also a tonic.

In Scott's Emulsion the cod-liver oil and hypophosphites are so combined as to get the full advantage of both.
