THE VICTORY SWEEPING. MR. DANA'S JOURNAL SUMMARIZES THE LANDSLIDE OF TUESDAY.

The New York Sun says: The elections throughout the Union Tuesday resulted Jin sweeping Democratic victories. Mr. Cleveland was elected President, and a Democratic House of Representatives was chosen. Some of the States which heretofore have been solidly in the Republican column gave substantial Democratic victories. Some of the features of the election were the very great majorities rolled up by New York and Brooklyn, the cutting down of majorities in the strong Republican counties of the in-terior, and the great change in the voting generally throughout the Western States.

In the South the Third party cut a sorry figure, their most crushing defeat, perhaps, being in Georgia, where Tom Watson was beaten by 4,000 by his Democratic opponent. Not a third party Congressman was selected in Coordia. nent. Not a third party Congressman was elected in Georgia. In South Carolina only one district is in doubt and there the chances favor the Democrats. In Florida famous for its Ocala platform and agitation, the Third parry was in the hopeless minority. In Arkansas, the Third party fusion with the Republicana had no effect whatever on Democratic success. In Mississippi. with the Republicana had no effect what-ever on Democratic success. In Mississippi, also a farmer Alliance hot-bed, the entire Democratic Congress delegation was elected, as was the case in Virginia, where Weaver received fewer votes than Bidweil. In Tennessee Governor Buchanan, the Third party candidate is left far in the rear.

COMPARATIVE FIGURES.

The subjoined table gives some interesting figures concerning the presidential election. The first column of figures shows the number of votes in the electoral college of 1892, which on account of the admission of six territories to statehood and the increased apportionment makes the new total 444, while the old college only had 401. The new states bring with them twenty votes in the electoral college.

He returned home just after dark and drove to the barn, where he unhittned his team, but did not return to the house. Shortly after a large straw pile near the barn was found to be on fire. The lamily swaved the adjoining property. A search made in the asises revealed the body of the missing man almost consumed, a little unburned custning property is identity. There were marks of a struggle and a trail of blood to the straw pile, which proves that he was robbed and the murdered. VOTE OF PENNSYLVANIA

The Republican M. jority of 1388 Out Down About 20.00.

Official and semi-official returns from all of the 67 counties of the State show a plurality for Harrison of 59,424, a decrease as compared with 1888 of 20.034. In some counties the process of counting the ballots has been very slow, and the official figures when obtained . re likely to show slight changes in the vote as given in the table below. The Prohibition vote is given in only 20 counties. The Weaver vote is very light, and the Socialist-Labor vote seems to have been polled in only a few localities, and will amount to only a few hundred throughout the State. The new ballot law seems to have had the effect of keeping many people away from the spolls, since the weather conditions were favorable to a large vote. The total number of ballots cast in 1888 for the Republican and Democratic candidates was 972.724, whereas on last efection day only 964,514 were put into the boxes for the electors of these parties, a decrease of over 8,000. Following is a table of the vote cast for the Presidental electors of the Republican, Democratic, Prohibition and People's parties: The Republican M.jority of 1388 Cu: Down About 20.000.

HARRISON RECEIVES 65,000 MAJORITY. THE REPUBLICANS ELECT 2D CONGRESSMEN, AND THE LEGISLATURE IS RE-PUBLICAN, AS USUAL. Returns come in slowly from all parts of the State, and epecially from the city districts. Enough are in, however, to city districts. Enough are in, nowers, to show that the State has given 65,000 majority for Harrison, and that both branches of the Legislature are Republican. While the reports from those Congressional districts where the contest was closest are not sufficiently full to base an accurate estimate on, it seems safe to say that the Republicans have elected at least 20 of the 50 Congressmen. Complete returns may increase or decrease
