that river travel was impossible, because the pilots were unable to see a boat's light. Atmoss, P.A.—The city was stormbound Sunday night, the streets deserted and re-ports from mountain towns tell of a terrible storm of the afternoon and evening. There is more snow in the Allephanies than for many years past. Many accidents are reported from along the railroad. MonsArrows, W. V.A.—The storm here assumed a frightful character and caused the greatest obstructions to travel of any kind that have developed this winter. The snowfall has been very heavy, there being 20 inches of it reported from many sections hereabout, and the smaller mountain towns are fairly shut in by it. There are many roads that accommodate considerable travel ordinarily that will be impassable for at least a week to come. With the enormous snowfall about the headquarters of the Mo-nongabela and its watersheds towards the Ohio a thay will inevitably bring the big-gest iver of the winter. MET DEATH IN ABLIZARD. JEREFY CITY, N.J.—MATY A. Whilely, a widow 60 years old, was frozen to death in a blizzard the other night. # BUSINESS PRETTY FAIR. The Various Industries Retain Their Activity, Especially in the West. R. G. Dun & Co's Weekly Review of Trade

Anxious efforts by the banks for an issue of bonds by the Treasury, and the refusal of the President to authorize it, caused apprehension and depression during most of the week. Exports of gold to-day will probably be no more than \$2,000,000. More-over, quite large purchases of securities on foreign account are reported, which would cancel heavy adverse merchandles balances and to that extent prevent gold shipments. Outside financial influences, the course of business is undisturbed; its volume is still arge, though somewhat affected by recent storms, and there are fewer signs than usual of unsound or unhealthy conditions, though at many points collections are some-what is half a cent lower, with receipts of 1,6 0,000 bushels at the West in four days. Corn is 13 cents lower, and cotton an eighth lower, though the receipts continue small. Oats and coffee are each a quarter lower. The woolen works are as busy as ever. The woolen works are as busy as ever, and sales of wool at three chier markets this year have been 43,000,000 pounds gainst 35,000,000 last year. again of 24 per cent. The coal market is called as sloppy. In the iron trade no distinct improvement is seen, for while business is large, prices are entirely demoralized by intense compe-tition. Rails are an exception, for 76,600 tons have been sold without reported change in prices, and structural works are well em-ployed, though at low prices, but the de-mand for plates is now up to the capacity of the works, and bar iron is quite weak. The financial outlook depends largely upon the fact that exports of the principal pro-ducts in January were \$25,000,000 smaller than last year, while imports at New York alone were \$17,000,000 larger than last year, which indicates a considerable excess of imports for the last seven days number for a total of 233, as compared with totals of 266 last week and 300 the week previous to the last.
