Universally conceded to be the best and only digger that works to perfection in the softest of sand and the toughest of clay, and unequalled by all others to work in any kind of soil, as the blades are so arranged and made of spring steel, thus allowing them to expand and contract when filling and emptying same.

The handle is so arranged that it can be lengthened to any desired length by adding pipe to it in sections, so that any desired depth can be reached with these Diggers.
