Canon Carr may now be said to be the wealthiest ciergyman in England, he having inherited the vast estates of Sir William Evans, the Derbyshire Baronet who died some weeks since. The Canon was connected with the late Baronet by marriage only.

### Hood's Cures

My Health is Solid

As a Duck's Foot in the Mud

Cured of Gravel and Indigestion by Hood's Sarsaparilla

"I want to say that I have been made a new man by Hood's Sarsaparilla and Hood's Pills. I was in a wretched condition and paid to one physician \$45 for attendance and prescriptions, which gave me no relief. I saffered intensely from gravel, and think I have endured as much misery as any man from that complaint. I gave up hope of ever getting well and was only walking about to

### HOOD'S Sarsaparilla CURES

the mud. I shall keep Hood's Sarsaparilla in the house, as I consider it the cheapest and best medicine in the market. My indigestion is entirely cured, and all symptoms of the gravel have disappeared."

FREDERICK EARNFRED, No. 64 South Carpenter Street, Chicago, Illinois.

N. B. Be sure to get Hood's and only HOOD'S.

Hood's Pills act easily, yet promptly and em-mently, on the liver and bowels. 25 cents.

THE CROP BULLETIN.

Official Statistics by the Department of Agriculture of the Wheat and Corn in the Country.

The estimated proportion of wheat on hand is 28,2 per cent of the last crop, the smallest percentage in ten years. The quantity on hand aggregates 135 000,000 bushels, 36,000,000 less than last March, and 23,000,000 more than the remnant of the very small crop of 1890. A very large proportion is found in States that do not spare a bushel for commercial distribution, and

very small crop of 1890. A very large proportion is found in States that do not spare a bushel for commercial distribution, and only 34,000,000 in the principal spring wheat states, more than half of which is required for seed in the spring. Of the winter wheat states only Kansas and California have any considerable surplus available for commercial distribution.

The corn on hand as estimated aggregates 628,347,375 outshels, or 38.5 per cent of the last product. This proportion has been exceded in Marcia four times in the last ten years and the quantity has been exceeded in Marcia four times in the last ten years and the quantity has been exceeded five times. The consumption of eight months 1,001,616,630 bushels, only exceeds that following the smaller crops of 1887 and 1890. The aggregate sold from farms to go beyond county lines is 277,379,000 bushels, or 17 per cent of the crop. The proportion merchantable is 1,334,445,000, or 82.6 per cent. The value returned for merchantable corn average 42.9 cents, for unnerchantable 27.7 cents making an aggregate of \$655,000,000 which exceeds the December valuation by 13,000,000 averaging 40 cents per bishel.

The annount exported in twelve months is 191,000,000 bushels; required for consumption. 200,000,000 bushels, as compared with previous estimates, showing, if present extimates are correct, which cannot be positively assured, that the crops of 1891 and 1892 were underestimated by 2 or 3 per cent, which would be a very close margin on the safe side. Very little old wheat is reported on hand. The average weigut of the crop per measured bushel, as calculated from the returns of millers, state agents and correspondents, is 57.5 pounds, reducing the estimated product to 491,000,000 of commercial bushels.

The crop report for March of the distribution of corn and wheat and the stocks.

estimated product to 4°1,090,000 of commercial bussles.

The crop report for March of the department of agriculture relates to the distribution of corn and wheat and the stocks remaining on farms. It is not a census of
individual holdings of growers but it is bazed on county estimates of the percentase of
last year's product remaining, made by a
board reporting to the state agent. All
grain, including any surplus of previous
years, is included. These seperate results
are scrutinized, obvious errors and inconsistencies corrected, differences harmonized
and ultimate statements tabulated by states
to show both percentages and aggregate
quantities.

EARTHQUAKE IN RAHWAY.

Buildings Were Swayed and Destroyed in Eastern New Jersey.

The City of Rahway, N. J., was shaken Thursday morning by an earthquake shock a few minutes after 8 o'clock. It did consiberable damage in the city and vicinity. Buildings swayed and the druggists sustained considerable loss by breakage. Several hundred bottles were thrown to the floor. Chemist Richter sustained a loss of \$500 by the breaking of a glass jar that held a valuable preparation. A citizen, relating his experience, said: "It sounded to me like the reverberation of a thousand guns. The earth trembled and rocked. It was like the long undulation of a swell sea." A barn near the city was destroyed; loss \$800.

Sunday Opening of the World's Fair.

Sunday Opening of the World's Fair.
The endeavor to secure the opening of the
Fair, Chicago on Sunday will be transferred
from the State courts to the United States
Supreme Court, which will be asked to issue an injunction against restraining the
opening of the gates. The grounds of complaint will be that the corporation is an Illi.
nois one and that Congress has no power to
make the restriction.

ENGINERS in the freight service of the New York Central Railroad have been rotified that they must reside in Albany.

Over one hundred thousand working women in New York are self-supporting. Three out of every five support whole families.

The Power of Water.

The Power of Water.

"A Southern Engineer" contributes a valuable article on "Geology and the Mississippi Problem to the Engineering Magazine. In it he says:

We find in water the only fireless agent that works in the modification of continents; and instead of being the great renovator of the land, as it is popularly conceived, it is the great destroyer. The destruction of ancient Rome has been attributed to time. But it was due simply to the moisture of the atmosphere working through chemical agencies. It was water, invisible but penetrating even the very stones of the wonderful city, that caused her to crumble to ruins, and gave to modern Rome a grade greatly elevated above her ancient grade. But it works not alone in the cities and towns. There is not a hill on earth that has not been shorn of some of its altitude by this subtle force, and there is not a mountain on earth, if not fiftully renewed by volcanic action, that has not been compelled to lower its peak before this universal leveler of the exalted. It may be a dreadful thought, indeed, but we do not know absolutely that we are not dependent on the earthquake and the volcano for keeping our continental habitat above the level of the ocean; for water not only destroys, but it has the persistency and force to carry off to its burial place in the sea all that it has caused to perish. It may take a long time at its task, but working either in its gaseous, its liquid, or its solid form, it seems to be the most persistent thing on earth, never perishing, and, however divided and invisible at times, always ready to unite its forces for a supreme effort at the degradation of a continent.

Cannot Take the Bit.

The chief of the Kansas City (Mo.) Fire Department has invented a new bridle for horses, the use of which makes it impossible for the horse to take the bit between his teeth. It has no bit to take. It is arranged with a strap over the horse's nose, and a steel curb under his jaw in such a way that a hard pull on the reins make the animal very uncomfortable indeed. The new bridle works to perfection, it is said, on a practical test, keeping the horse perfectly under control, while giving hun the minimum of discomfort. One great advantage of the contrivance is that it enables the animal to eat and drink in comfort without displacing the bridle.—New York News. The chief of the Kansas City (Mo.)

Liverpool has the largest local debt of any own in Eugland.

How to Guess a Woman's Age.

How to Guess a Woman's Age.

A volume of memoirs has just been published giving the experiences of a French President of Assizes. It bears curious testimony to the inascuracy of women on the subject of their own ages. As the writer's information is from the calender, he speaks only of the criminal classes. The only instances in which he finds correct dates given by women are when they are under twenty-five or over eighty five. At these periods of life, he says, they are to be trusted.

A tall other periods the sure controlling tendency is to understate. The magistrate has been able to give a rule for guidance. He finds that female prisoners invariably state their ages as twenty-nine, thirty-nine, forty-nine or fifty-nine and from this remarkable circumstance he deduces his rule. If their ages are in the forties, they bodily set them down in the thirties, but conscience asserting itself, they keep as near the truth as they can and fix them at thirty-nine. Whether male criminals do the same the magistrate does not stote.—London News.

England has revived an old law against

English ignorance of America did not begin with this generation. Goldsmith's description of Niagara Falls includes the statement that "some Indians in their cancer, as it is said, have ventured down it in safety."

The Sultan of Turkey has ordered a competitive trial of Krupp and Cail cannon. The latter are used by the French army; and the Ottoman army has been using the former.

A phenomenal success in penny journalism— The Firtsenuc Purse, Pennsylvania's pioneer in cheap journalism, has attained an average daily and Sunday circulation of over 41,600, as shown by its last sworm statement. The Pares is sent by mail or delivered any und seems per month for the Sunday edition.

Not a person has been killed in a Maine ailroad wreck since 1889.

"Remember that in Garfield Tea you have an untailing remedy for Indirection, Sick Head-sche and every attending ill that an abused stomach can make you suffer. Every druggist sels it. 260, 50c and \$1."

"I have been occasionally troubled with Coughs, and in each case have used BROWN'H BRONOHLAL TROCHES, which have never failed and I must say they are second to none in the world." Felix A. 189, Usasher, St. Paul, Minn.

United States has 73,000 paupers. 11

## The New Bread.

ROYAL unfermented bread, made without yeast, avoiding the decomposition produced in the flour by yeast or other baking powder; peptic, palatable and most healthful; may be eaten warm and fresh without discomfort, which is not true of bread made in any other way.

Can be made only with Royal Baking Powder.

Receipt for Making One Loaf.

boiled potato, and water. Sift togreased pan, 4½x8 inches, an greased pan, 4½x8 inches, an inches deep, filling about half and baking powder; rub in the potato; add sufficient water to mix smoothly and rapidly into a stiff batter, about as soft as for pound-cake; about a pint of water to a quart of flour will be required—

at once. Don't mix with milk.

ONE quart flour, I teaspoonful sait, half a teaspoonful sugar, heaping teaspoonfuls Royal Baking Powder, half medium-sized cold bread. Pour the batter into a and quality of the flour used. Do not make a stiff dough, like yeast bread. Pour the batter into a greased pan, 4½x8 inches, and 4 inches deep, filling about half full. The loaf will rise to fill the pan when baked. Bake in very hot oven 45 minutes, placing paper over first 15 minutes baking, to prevent crusting to scope on to a. Bake

# "August Flower"

"I am ready to testify under oath "I am ready to testify under oath that if it had not been for August Flower I should have died before this. Eight years ago I was taken sick, and suffered as no one but a dyspeptic can. I employed three of our best doctors and received no benefit. They told me that I had heart, kidney, and liver trouble. Everything I ate distressed me so that I had to throw it up. August Flower cured me. There is no medicine equal to it." LORENZO F. SLEEPER, Appleton, Maine.

### "A SUCCESS."

F. J. Cheney & Co., Toledo, O., Gentlemen:--I have suffered from catarrh for about five years and have tried several remedies without relief until I commenced to use Hall's Catarrh Cure last February. I must say that it is a A SUCCESS, the dropping in my throat disappeared entirely after the first bottle. It increased my appetite, so that I now weigh eight pounds more than my cus tomary weight. I have recommended it to others and all who used it have been greatly relieved and speak highly of it. One of them was in my store yesterday and expressed his wish to peddle it this winter. Will you please let me know the lowest terms you could furnish it for, as I would like to keep it in stock. Hoping to hear from you soon, I remain, Yours respectfully,

R. C. HAUSWEDELL,

Lake City, Minn EOLD BY DRUGGISTS, 75c.
