\$3 Worth of Hood's
Cured When Others Failed
Salt Rheum or Psoriasis—Severe
Case.

Mr. N. J. McCoun
Kingsley, Iowa.

"In 1879 had an eruption appear on my left
leg and arm. Sometimes it would ulcerate
and on account of it I was unable to work a
great deal of the time. I had several doctors
examine and treat me without success. Some
called it psoriasis, some eczema, some salt
rheum and one knowing one called it psoriasis
f. All the doctors in the country had a trial
but none did me a particle of good. I spent all
my spare money trying to get relief. Finally
I was persuaded to try Hood's Sarsaparilla.
After using one and a half bottles I saw the
benefit. I have now used the third bottle and
am completely cured. I received more

benefit from three dollars' worth of Hood's
Sarsaparilla than from the hundreds of dollars
paid for advice and other medicine. Any one
suffering from skin trouble will surely get relief
in Hood's Sarsaparilla." N. J. McCoun,

We Know This to Be True
"We know Mr. N. J. McCoun; saw his leg
and arm before taking Hood's Sarsaparilla and
know he was terribly afflicted; now he is cured."

SWAMP-ROOT
Makes Another Remarkable Cure!

GIVEN UP TODAY!
Swamp-Root Dissolves a Stone in the
Bladder as Large as a Goose Egg.

Dr. Kilmer & Co., Binghamton, N. Y.

Gentlemen—I don't think there is a person
living who can recommend your Swamp-Root
more highly than myself. I have been a great
sufferer for several years; every organ in my
body seemed to be out of order; was under the
care of different physicians for nearly two years; tried
every doctor in our town and used other medicine,
but continued to suffer and decline until I was a
physically wreck. The most learned physicians made
examinations and pronounced my case one of
Gonorrhea or Stone in the Bladder, and said that
I would never be any better until it was removed
by a surgical operation. Oh! I thought what
next? Every one felt sad; I myself gave up, as
an operation seemed to us certain death.

NO USE FOR THE KNIFE!
I shall never forget how timely the good
news of your Swamp-Root reached me. I send
you by this same mail a sample of the stone or
gravel that was dissolved and expelled by the
use of your Swamp-Root. It must have
been as large as a good size goose egg. I am
now in excellent health, as my photograph will
show. I have done a very hard summer's work
and feel as well to-day as I ever did. I kept
right on using Swamp-Root and it saved my
life. If any one doubts my statement I will
furnish proof. LABORER BOWENBETTER,

THE SENATE REORGANIZED.

The Committee Assignments of the Democratic Caucus.

Eleven Chairmanships Are Given to the Republicans.

The Democratic caucus has finished its labors so far as the reorganization of the committee of the United States Senate is concerned. It will be seen that the committee provided chairmanships for Senators Peffer and Kyle, the Popular members, and permitted Senator Stewart, of Nevada, to retain the chairmanship of the Committee on Mines and Mining, which he held under the Republican organization.

Either upon the standing or select committee places were found as chairmen for all the new Democratic Senators. The Republicans get eleven chairmanships, just as many as they gave the Democrats.

A TIGHT MONEY MARKET.

Dun Reports That Despite Depressing Conditions Confidence in Unabated and Business is Improving.

R. G. Dun & Co.'s Weekly Review of Trade says: Distribution of goods continues very large for the season in spite of extraordinary weather, some failures and a tight money market. Storms and severe cold have retarded trading and collections throughout a large part of the country, and doubtless cause much of the monetary pressure, though a large part is due to the great excess of imports over exports. Europe is not shipping products from the country as usual, nor lending money as much as usual to carry products here until they are needed and accumulated stocks at commercial centers, with slow collections in the country, make the demand for money unusually large. Then, natural results of the great Reading collapse are seen in some failures at Philadelphia and a more cautious spirit among lenders. In spite of all these things confidence is unabated and business is remarkably large with some signs of improvement.

Exports of breadstuffs, cotton, provisions, cattle and oil in February were but \$49,923,351, against \$69,354,712 last year, which, with the increase of nearly \$8,000,000 in imports at New York, indicates a probable excess of imports in that month of about \$1,000,000, against an excess of exports in the same month of last year of \$21,000,000. Exports in March also have been small at New York \$4,940,000, less for two weeks than last year. Specimens in products has been naturally depressed, cotton being at one time a quarter, and now three-sixteenths lower than a week ago, with sales over 1,200,000 bales. Wheat is 2c lower, with sales of 38,000,000 bushels, the Government report of 13,000,000 bushels in farmers' hands, besides 70,000,000 bushels in visible supply, making it clear that a great surplus would have to be carried over next July. Receipts at the West continue heavy, 1,700,000 bushels in four days this week against less than 400,000 exported.

The business barometer. Bank clearings totals for the week ending March 16, as telegraphed to Bradstreet, are as follows:

New York	\$734,868,187
Boston	100,011,285
Baltimore	97,447,738
Philadelphia	66,338,696
St. Louis	25,190,477
San Francisco	14,338,546
Baltimore	14,234,488
Cincinnati	14,091,900
Pittsburg	12,882,394
Cleveland	12,437,158

(Indicates increase, D decrease.)

The clearings of 76 cities aggregate \$1,231,454,622, an increase of 2.1 per cent. Exclusive of New York the clearings amount to \$456,585,442, and show a decrease of 4.3 per cent.

Two People Killed by Falling Walls.

A fire in Chicago, believed to be incendiary in its origin, destroyed a five-story brick picture frame factory on May street, owned and operated by Stephen Carter. A wall of the burning building fell on Carter's residence and wrecked it. The collapse of the residence resulted in the death of S. J. Charter, an uncle of Carter's and Lillie Charter, aged 12. Five other people were buried in the ruins and seriously injured. One fatally, it is believed. Carter is suspected of firing the building.

A Family Struck by Lightning.

Edwin Satterthwaite, a farmer living a mile from Bordentown, N. J., his wife and their son Henry, were struck by lightning Wednesday night. Henry was knocked off a wagon and was found in an insensible condition by a farm hand. About the time the young man was struck his father and mother were eating supper in the house. A bolt of lightning struck a carving knife in Mr. Satterthwaite's hand and both he and his wife were knocked senseless.

Cholera Spreading in Russia.

Owing to the spread of cholera in certain districts of Russia, a congress of sanitary officers has been summoned to meet and arrange for protective measures against the disease. In the province of Podolia the number of cases of cholera in the last fortnight was 303, of which 59 were fatal.

NEWSY GLEANINGS.

It is estimated there are 73,000 people. The Kansas wheat outlook is poor. There are 2,351,123 mules in this country.

The annual appropriations for pensions is now \$196,331,450. WALL STREET "bears" say that 1903 will be a "bear" year.

The Southern strawberry crop is going to be very large this year. MELTING snow and heavy rains are causing a great deal of damage.

Nearly 7000 Russian convicts have been sent to Siberia since April, 1892. It is estimated that there are 60,000 miles of irrigation ditches in Colorado.

The Salvation Army will build a \$75,000 barracks on a 300,000 lot near New York city. SIXTY-ONE naval officers will go on the retired list during President Cleveland's term.

Russia has given notice of a purpose to establish a protective zone around the Bering Sea territory.

ADMIRAL GERRARD has decided to use the cruiser Phaulstich as his flagship during the naval review.

NEW ZEALAND has twenty-two meat freezing works, capable of yearly dealing with 4,000,000 sheep.

The first consignment of frozen Australian meat has just been sold in the Berlin market for about ten cents per pound.

The latest development in the agrarian question in Germany is the Government's proposal to establish a chamber of agriculturists.

VENEZUELA has chartered a banking scheme with features similar to the sub-treasury idea agitated in this country last year.

The forestry exhibit to be sent to the Columbian Exposition from Massachusetts has been completed. It comprises forty-seven varieties of trees.

A STATEMENT of imports and exports for the first seven months of the current fiscal year shows a large balance of trade against the United States.

At a meeting in London nearly 30,000 women of all classes, from all parts of North-West Ireland protested against home rule. Ulster Unionists are in earnest in their threats of civil war because of the home rule agitation. A firm in Ulster recently ordered 100,000 Martini rifles from English manufacturers.

Mrs. J. W. THOMAS and Miss Elith Train, candidates on a woman's ticket, were elected school directors at Fort Dodge, Iowa. The men ran two tickets and both were badly beaten. Mrs. Thomas and Miss Train, accompanied by some friends, made a tour of the polling booths and did considerable electiveness.

SERIOUS FACTS ABOUT BREAD.

Which Housekeepers Should Earnestly Consider.

A serious danger menaces the health of the people of this country in the numerous alum baking powders that are now being urged upon the public. There is no question as to the detrimental effect of these powders upon the system. Every Board of Health, every physician, will tell you of the unwholesome qualities they add to the food. Some countries have absolutely prohibited the sale of bread containing alum.

Even small doses of alum, given to children, have produced fatal results, while cases of heartburn, indigestion, griping, constipation, dyspepsia, and various kindred gastric troubles from irritation of the mucous membrane, caused by the continuous use of food prepared with the alum or alum-phosphate powders, are familiar in the practice of every physician.

It is not possible that any prudent housewife, any loving mother, will knowingly use an article of food that will injure the health of her household, or perhaps cause the death of her children.

How shall the dangerous alum powders be distinguished? And how shall the danger to health from their use be avoided? Generally, alum powders may be known from the price at which they are sold, or from the fact that they are accompanied by a gift, are disposed of under some scheme. The alum powder costs but a few cents a pound to make, and is often sold at 20 or 25 cents a pound. If some present is given with it, the price may be 30, 40 or 50 cents a pound.

It is impossible to name all the alum powders in the market, but any baking powder sold at a low price, or advertised as costing only half as much as cream of tartar powders, accompanied by a present, or disposed of under any scheme, is of this class, detrimental to health, and to be avoided.

But the easy, safe, and certain protection of our bread, biscuit and cake from all danger of unwholesomeness is in the use of the Royal Baking Powder only. This powder is mentioned because of the innumerable reports in its favor by high medical authorities, by the U. S. Government, and by the official chemists and Boards of Health, which leave no doubt as to its entire freedom from alum, lime and ammonia, its absolute purity and wholesomeness. While its use is thus a safeguard against the poisonous alum powders it is satisfactory at the same time to know that it makes the whitest, lightest, sweetest and most delicious food, which will keep moist and fresh longer, and that can be eaten with impunity hot or cold, stale or fresh, and also that owing to its greater strength it is more economical than others.

These facts should incline consumers to turn a deaf ear to all opportunities to buy the inferior powder. If a grocer urges the sale of the cheap, impure alum brands, it should be borne in mind that it is because he can make more profit on them. The wise housekeeper will decline in all cases to take them.

Take no chances through using a doubtful article where so important a matter as the health or life of dear ones is at stake.

Iowa's Wonderful Ice Cave.

One of the greatest curiosities in the Mississippi Valley is a natural ice cave which is located in the bluffs of the Iowa River within less than a mile of Decorah, the county seat of Winneshiek County. This unique curiosity is indeed a natural icehouse—a cavern in which great icicles may be found at any season of the year, being especially fine in summer, particularly when the weather is hot and dry outside. The bluff in which the cave is located is between 200 and 400 feet in height, it being necessary to climb about seventy-five feet up the side of the bluff to reach the mouth of the cave. The entrance is a fissure about ten feet in width and between fifteen and twenty feet in height, from which a constant current of cold air issues. Thirty feet from the mouth of the cave the passage turns to the left and downwards, towards the river bed. The slope is gradual, however, and the walls and roof are within easy reach all the while. After you have reached a spot 100 feet from the opening you entered it is noticed that the walls and roof are covered with frost. Twenty feet further a thin coating of ice is noticed, which increases in thickness as you go into the bluff.—St. Louis Republic.

The most religious man in the world puts nothing like Heaven in the air castles he builds.

The man with icy manners is very numerous just now.

"German Syrup"

Justice of the Peace, George Wilkison, of Lowville, Murray Co., Minn., makes a deposition concerning a severe cold. Listen to it. "In the Spring of 1888, through exposure I contracted a very severe cold that settled on my lungs. This was accompanied by excessive night sweats. One bottle of Bosche's German Syrup broke up the cold, night sweats, and all left me in a good, healthy condition. I can give German Syrup my most earnest commendation."

THE KIND THAT CURES

MRS. FRIDA HAMS, Treadwell, N. Y.

A Victory Over Disease!
"Terrible Pain in Head and Stomach!"
"My Face was one Mass of Eruptions!"
"Walked the Floor Night After Night!"

The following from Mrs. Hams proves the value of DAN'S SARSAPARILLA:
GENTLEMEN—I am 54 years of age. About 10 years ago I had the Measles which left me in a very bad shape. I had had SEVERAL SEASONS of eruptions and I felt the most terrible pain in my head for months. I was unable to get up and I was compelled to walk the floor because of the terrible pain in my head. My face was one mass of eruptions so bad that I could not see my face. I had been told that I would never be cured. I read your papers, and thought I would try one bottle of DAN'S SARSAPARILLA.

Without any help, I had but little faith. Before I had taken one bottle I felt a great deal better. I have now taken two, and do not feel like the same woman. I feel like I have "SLEPT ALL NIGHT." The terrible pain has departed. The terrible feeling I had is entirely gone. My face is well. I think you have cured me entirely. I am, Mrs. FRIDA HAMS, Treadwell, N. Y.

To whom I may concern—I hereby certify to the truth of the above.
