A DRUNKEN RACE RIOT.

KEYSTONE STATE CULLINGS, SOLDIERS' COLUMN

HUNS AND POLES BATTLE AT PRICEBURG. THREE FATALLY AND MANY OTHERS BADLY

INJURED. SCRANTON-Saturday was pay day at the

SCRANTON-Saturday was pay day at the mines at Priceburg, a prosperous borough of this county, and the several hundred Huns and Polish employees began to drink heavily. At night a Hun and a Pols engag-ed in a fight in Bryan Failon s saloon and their countrymen took sides with them, a free fight resulting. The borough police arrested four Hun-garians and lodged them in jail. At 9 o'-clock the Hungarians held an indignation meeting, and then proceeded in a body to the jail, where they overpowered the keeper and liberated the prisouers. This caused the largest riot that has occurred in this region in 16 years. The Poles took excep-tion and a race war commenced, lasting region in to years. The roles took excep-tion and a race war commenced, lassing three hours, during which there was a reign of terror, all the saloons in the town being taken possession of and the officers driven off. Over 30 men were injured, three fatally and one Pole had his ears cut off. Many windows were broken in with stones and clubs and clubs.

Shortly before midnight Deputy Sheriff Craig arrested several of the rioters and re-stored peace. Many arrests will follow.

THE CROP BULLETIN.

REPORTS INDICATE THAT HAIN IS NEEDED BADLY IN SOME FARTS OF THE STATE. In the weekly report of the State Weather Service, it is said that rain is badly needed for crops in the Southern section. Tobacco, potatoes and pastures are suffering. The corn crop looks well. Wheat and hay are about housed and oats are being harvested. Fruit properts are not improving. Rain is about housed and oats are being harvested. Fruit prospects are not improving. Rain is needed badly in Southwestern section and corn and potatoes will be short unless it comes soon. The fruit crop will be light. In the Northwest crops do not appear to need rain. In the Northeast drought con-tinues. In dry sections the hay crop is said to be from one-half to two-thirds of a crop. Corn, potatoes and tobacco are in a period when moisture is most needed. In many places the rainfall has been barely sufficient to prevent disaster.

TO CATCH LIARS. Among the laws passed by the recent leg-islature is one for the protection of news-papers against malciously inclined people who have in the past been free to get any kind of malcious report they could into the papers to serve their own purpose, and then let the newspaper bear the brunt of it. Following is the act: "Any person who wilfully states, delivers

"Any person who wilfully states, delivers or transmits by any means whatever to the editor, publication, reporter of any news-particle for publication therein, any libelous station of the same, is hereby declared guilty of a misdemean or and upon eonviction high the hundred dollars and undergo im-pisonment for a period not exceeding two the Court."

the Court." Ar Beaver Falls, the other evening Mrs. Jane Smith was sitting on her front porch in her bare feet. A pet chicken saw one of Mrs. Smith's bare feet and gave it a fierce peck. The chicken's bill penetrated an artery and Mrs. Smith almost bled to death before the flow of blood was staunched.

Max. PortLY Ross, of Butler county, who died last Saturday after celebrating her hundredth anniversary, came of a long lived family. Her father served in the rev-olutionary war and lived to be 86 years old, while her mother was a few months over 100 when she died.

100 when she died. WHILE Mrs. W. H. Brick, of Buffalo, Somerset county, was sitting in front of her house hol ling her baby an eagle swooped down as if to carry off or attack the child. The mother screamed and ran into the house and the eagle flew away. It has been seen before. LAST year the Raney farm, near Mahon-ngtown, Lawrence county, was stocked with imported bug-snapping loads. It was feared the cold weather had killed them but last week they came to the surface in great number, and are now playing hob with the bugs. Last Saturday side

Last Saturday night a valuable horse be-longing to J. W. Gonaware, a Greensburg merchant, got twisted up in the halter in some way and hanged itself, being tound dead in the morning.

the formation of the proof of the measures you take under these instructions.
 E. Downserre, A. S. Adj. Gen.
 Edwin M. Stanton, the Secretary of War, sent this telegram to Maj. Gen. E. K.S. Canby, at New Orleans, as soon as Gen. Baker's telegram was received:
 "This department is informed that an operation is on foot in New Orleans to go to the Tortugas and by surprise or stratagem seize that place and release the prisoners there. Immediately on receiving this telegram send a special measures to guard against any stratagem or surprise and secure the safety of their commanders at Key West and Tortugas to take strict measures to guard against any stratagem or surprise and secure the safety of their commanders at Key West and Tortugas to take strict measures to guard against any stratagem or surprise and secure the safety of their commands. You will also use every effort to defeat the parties engaged in this conspiracy and defeat its object. You will also be anot the intermediate the Division Commander and request his co-operation.
 Gen, P. H. Sheridan was in command of the Department of the Guif in 1885, and he sent a messenger to report to him at once the strength of the garrison. Capt. W. R. Prentice, of the One Hundred and Sixtyfirst New York Volunteers, who was commanding the post on a dugat 24, sent a report to Gen. Sheridan telling him the smallness of the garrison and urging him. Cohurry forward 10 companies of the 30 might in the furthed and Sixty-first under Liebut. Col. William B. Kinsey, which were at Apala Twise end that one of the prisoners were all extinct and straty-first under and straty-first under Liebut. Col. William B. Kinsey, which were at Apala Twise of the parties and that an efficient force was leapt in readiness at all its efficient force was leapt in readiness at all its efficient force was leapt in readiness at all its efficient force was leapt in readiness at all itstrees for any sudden attack. The total was in readiness to b

he was poor, yet he made many rich, though he seemed to have orthing, yet he possessed all things (I Cor vi., 10). When any gave blin gifts, he was especially gial for them, because it was just so much added to their account in heaven. 33, "Yea, ye yourselves know that these hands have ministered unto my necessities and to them that were with me." Therefore when the false teachers would come, seeking theirs and not them, only wanting to make something out of them, not earling for their souls, they could say. "Thus did not Paul. He never asked us for anything for hinself." See that instruction upon this point in II worth the source asked as for anything for hinself." So it have showed you all things, how that so laboring ye ought to support the weak, and to remember the words of the Lord Jesus, how He said, It is more blessed to give than to receive." It is not recorded that Jesus ever said just these words, so that upossibly Paul has here given us some of the unrecorded words of Jesus. This principle, however, was certainly in His teaching and very prominent (Luke vi., 30; xiv., 13, 14).--Lesson Helper.

CHARLES ANDREWS, brakeman on the Putsburg & Western at New Castle, feel between cars a dwas killed. The big Mexican monument at Harris-burg, in Capitol Park, is toppling and will be removed soon.

DIPHTHERIA in a malignant and fatal form is epidemic at West Newton.

THE Mercer county wheat crop is the largest for many years.

Prayen for His Candidate. The eccentric Father Taylor, the sailors' pastor of Boston, was a strong partisan of Governor Briggs. On one occasion, just previous to the latter's election, he was making the usual decorous prayer, asking the Lord te give the people for Governor "a man who will rule in the fear of God," etc., when he suddenly broke off: "Pshaw, Lord! What's the use of boxing the compass like that?—give us Governor Briggs!"

Parachutes Are Not New. It seems that as early as 413 B. C., a prisoner in Egypt astonished the natives by jumping safely from a high tower, impeding his downward pro-gress and "landing" without too vio-lent a jar by holding a blanket over his head. The parachute, as we know it now, is said to have been in-vented by adventurous Frenchman who exhibited the Paris in 1796, and early in this century an English

Parachutes Are Not New.

who exhibited it in Paris in 1796, and early in this century an English aeronaut named Green, precipitated himself, with a parachute's restrain-ing aid ifrom the ample ether, to terra firma, in Fairmount Park, Philadelphia, thus making the first recorded descent in America.
