Financial and Commercial. The New York "World" prints a list of 20 banks which have resumed business, also a list of about 50 manufacturing establish ments which have resumed operations since August 19.

The West Side bank, St. Paul, Minn. which closed its doors August 4. reopened for business

The State National Bank, the last one of Denver's six suspended national banks, opened its doors again. The Commercial National will resume again in a few days. The Queen City bank, Buffalo, N. Y., which suspended several weeks ago, resumed

Washington News. The report that the President was recently operated on for the removal of a cancerous growth in the mouth is discredited by all the members of the official family approach-ed on the subject, including Private Secre-tary Thurber and two 'members of the reakingt who declined to permit the use of the cabinet who declined to permit the use of their names. The President is extremely adverse to a public discussion of his health, and his friends are naturally governed by his well known wishes in the matter. President Cleveland and family returned to washington Monday night.

Miscellaneous. As a result of last Monday's storm New York's fish supply has cut been off and prices have doubled. Over 1.100 pensioners have been sus-pended in the Philadelphia district.

WHAT IS AN ACCIDENT?

Important Legal Decisions Defining 'The Word "Accident"

Three recent legal decisions are referred to by an Eastern paper as having a bearing on the question of what constitutes an acci-dent. All three were brought against incompanies exploiting this field, and decided in favor of the insured or their heirs. The evident desire of the conrts is to throw their protection over the wides tarea, throw their protection of the word accident to give the meaning of the word accident the largest possible scope. It will be inter-esting to notice the cases, since by so doing the position of accident insurance compan-ies is more clearly defined than it was ever

ies is more clearly defined than it was ever before: A man in Syracuse, N. Y., broke his arm, and 20 days later, having failed to take pre-cautions, he died of pneumonia. The court heid that he died of an accident, and the insurance company in which he held an accident policy had to pay. A mother man, who lived in Morristown, N.Y., got up in the night to close a window. While walking across the room in the dark he struck his shin on a chair. Inflamation developed, tollowed by grave compilcations, and the man died after having his leg am-putated. The insurance company contended that he had neglected to take proper pre-cations in not lighting a candle before crossing the room, but the court held against this theory and the company paid the loss. The Court of Appeals of New York State recently affirmed a ruling of the Supreme Court in the case of M. M. Paul, who was suffocated in his sleeping room by escaping gus. Both courts held that he died from an accident. Surplus, 97,303,000 45,400,000 34,050,000 0,875,000 10,782,000 3,406,000 7,003,000 42,562,000 7,003,000 3,688,000 19,295,000 26,105,000 6,526,000

Trade says: Instant improvement in the stock mar-ket followed the passage of the repeat bill in the House, the average of prices rising over They are destitute of food and clothing and have no means of getting either. Much suffering is the result, and relief must come from the country at large. The long staple cotton crop has met with severe injury, and the estimates are that where in former years Charleston received 10,000 bales of Sea Island cotton, this year she will do well to get 3,000 bales. From Bischoff's place on the Edisto river two negroes floated to Jacksconboro on too Sty per share, and there was also a rise in wheat, cotton and pork. Money markets throughout the country are more healthy, failures diminishing in number and re-sumption by a number of banks and other establishments illustrate the general tend-

sumption by a number of banks and other establishments illustrate the general tend-ency toward revival of confidence. The industrial situation mends but littla. The signs of improvement observed a week ago are scarcely sustained, for while 12 textile and 13 steel concerns have resumed after stopage, 55 textile and 21 steel con-cerns have stor ped. In addition 13 others have reduced working fitme, several others reduce d working force and a larce number of the works have reduced wages from 1 to 20 per cent. A more cheerful tone is seen in iron and steel markets, but prices are not sufficient to encourage resumption. The output has been decreasing at the rate of 15 000 tons weekly for the last four weeks. The decrease in imports at New York in August was about 40 per cent, whils in ex-ports from this city there was an increase of 3 per cent. Thus far the usual tests of the condution of busine s show a deline in comparison with last year. The number of failures reported during the past week in the United States is 356 main in Canada 29 against 28 last year in the Eastern States the failures numbered 140, in the Western 143, in the Southern (5, show-ing improvement in each section.

benefit if the suffers from the tornado and a comfort, ble sum was realized. Between Charleston and Savannah the storm swept away most of the homes a-well as growing crops and left the people in a destitute state. The loss of life and prop-erty was found to be greatest on St. Helena, Ladies, Wassa, Coosaw, Paris, Dawfuskie and Dawthan islands. These islands, to-gether with Port Royal island, have a popu-bation of about 15.0.09, most of whom are gether with For Royal Island, have a pole-lation of about 15,000, most of whom are negroes. Estimates at this time as to loss of life are incomplete, and the number may yet reach 1,500. Reports show that there is dire distress among the colored people. Their homes have been washed away and their crops de-troored. There is no work for them, to do

stroyed. There is no work for them to do and they are suffering for food.

LATER NEWS WAIFS. WASHINGTON.

A NEW PENSION ORDER.

No More Suspensions, Except Where No Right to Draw Any Pay is Shown. Commissioner Lochren, of the Pension Burcan, at Washington issued an order modifying the practice of the office as to suspensions of pensions. Hereafter there will be no suspensions, except in cases where the record shows on its face that the soldier was not entitled to any pension. It is believed that the number who will come

under this class will be very small. Under this order pensioners whose allow-ances are supposed to be too high will be reduced, pending investigations. WORLD'S FAIR ATTENDANCE.

A Clean Face. Theatrical people know that oil cleans the skin better than wateri Generally other people do not. If actresses undertook to get theif make-up off with water, they would need soft soap and a scrub-brush to do it, and the skin wou'd inevitably come with it. They used once cocca butter; now they use cocca oil, which is a better preparation of the same thing. Drug stores keep it. Some keep it fresh, and some keep it ran-cid. Take care not to patronize the second class, and in cocca oil you will cid. Take care not to patronize the second class, and in cocco all you will have the most delightful of all emol-lients for the oil bath. If you want to see how effective it is, come in from a railway journey on a hot day, when the windows have been up, and you have had as much benefit of the smoke and soot as the fireman. Take the most vicences bath you can de: the most vigorous bath you can de-vise or endure, then spread some cocoa oil on your face, and wipe it off. The blackened towel will tell the tale of failure for the lath and triumph for the oil. --Boston Gazette.'

Judge Goggin Overrules the Closing Motion Although His Two Associates on the Bench Sustain It. The hearing of the decision on the mo-tion to dissolve the injunction granted by Judge Stein, restraining the directors from closing the World's Fair gates to the public on Sunday, was interrupted at Chicago by an unprecedent move by Judge Gorgin. Judges Dunne and Brentano had united in a decision dissolving Judge Stein's injunc-

Judges Dunne and Brentano had united in a decision dissolving Judge Stein's injunc-tion keering the Fair open. Judge Goggin dissented, and after Judge nount, Judge Goggin relused to heed the advice of his associates to allow the major-ity to rule, entered an order overruling the motion to dissolve the injunction and refus-ed ex.Judge Moran's request to set a date for hearing a motion to vacate that order. Single Moran's request to set a date for hearing a motion to vacate that order. Gog-gin, it is said, was under the influence of liguor and acted like it. Brotheart and Dunne induced Judges gent to leave the bench and a conference was held. Judges Brentano and Dunne then returned to the bench and a conference was held. Judges Brentano and Dunne then returned to the bench and a conference was held. Judges Brentano and Dunne then returned to the bench and a conference was held. Judges Brentano and Dunne then returned to the bench and a mounced that Judge Goggin no longer desired them to sit with him. They therepion retired with considerable surpressed feeling. Judge Goggin promptly eutered an order overrul-ing the motion to dissolve the injunction. The scene in conit was exciting in the ex-trowed about the bar eager to catch every word. Annidst all of the confusion, with hailfis loudly pounding the bench in a vigoously insisted that his initute clerk his verbal opinion, and this was done. No record was made to correspond with the de-cision of Judges Dunne and Brentano, and as result the only order now standing in the case permits the gates of the exposition to remain open on Sunday.

streets and all the rice fields were overflow-ed. Port Royal, on the Beanfort river, is practically in ruins. Its water front is de-stroyed and great damage has been done to buildings. The great loss of life which re-sulted from the storm on every shore of the islands is greates there. Thirly odd negroes were found dead on the beach, and the number is expected to be largely increased before the death roll 'is closed. Fifty per cent of the crops were destroyed. Among the dead is Dr. Ellis, the newly appointed quarantine officer for the port. Over 300 dead bodies have been found on the island about Benfort and. Port Royal, S. C. Over \$2,000,0.3 of property has been wrecked near the same points.

DAMAGE DONE AT CHARLESTON

A Summary of the Devastation Caused in One City by the Terrible Storm. The damage done at Charleston, S. C., by the terrible storm of Monday is fully as great as that caused by the awful cyclone of 1885. The losses in the city are estimated as follows: City property Storogenet for the store of the store as follows: City property, \$100,000; ferti-lizer works \$173,500; Charleston Mining hzer Works \$113,000; Charleston Mining Company \$50.000;railroads \$30,000;telgarpah companies \$30,000; telephone exchange, \$6,000; lead works \$12,000; wharves \$25,000; shipping \$50,000; shiply rive bridge \$60,000; churches \$50,000; private property \$200,000; churches \$50,000; private property \$200,000; miscellaneous \$100,000. Total \$1,111,500. The experience of 1885 taught the Charles-tonians a lesson, and over \$1,000,000 cyclone insurance was held there. This will greatly offset the damages.

Six person were killed and two injured and others are missing. All the rivers in the State are over their banks, and lowland crops are ruined, the damage amounting to several hundred thousand dollars.

-CRANFORD, N. J., has just adopted an ordinance requiring bicyclists to wear sufficient elothing to cover their antire per-sons, except their arms. The penalty for violation is \$5.

How Cigarettes Are Made.

The details of the manufacture of cigarettes are kept to a greater or less degree a secret by the manufac-turers, each of whom has his own threes, each of whom has his own particular combination of tobaccos. None of the brands on the market is composed of one kind only. The re-cipe is not divulged outside of the firm. But this is not all. The origi-nal mixture is merely a basis for ar-tificial flavoring. To begin with, various costantial dis are added. The tificial flavoring. To begin with, various essential oils are added. The list of these includes rose, rose geranlist of these includes rose, rose geran-ium, vanilla bean, Tonka bean, and licorice root. These ingredients are added after the tobacco has been chopped into shreds in readiness to be rolled into cigarettes. Finally the particular drug chosen, in the shape of a liquid solution, is sprayed on the material with an atomi-zer, while the tobacco is stirred and mixed. The quantity employed is very carefully judged, so many drops being allowed for each cigarette. For obvious reasons I cannot mention all the drugs that are used in the

For obvious reasons i cannot mention all the drugs that are used in the manufacture of cigarettes, but there is no doubt that oplum, valerian and rannabis indica are utilized to the largest extent. Each manufacurer largest extent. Each manufacturer may be said to create a special dury habit among those who smoke his brand, so that they are not satisfied with any other.—Troy T.mes.
