Swains Ships, Sweep Docks and Harms Rails and Wires.

It is estimated that 200 lives have been lost during the gale which swept over the British coast Sunday and Monday and in addition, the crews of several boats are still missing. Some idea of the force of the gale can be gathered from the fact that two neavy railroad engines were blown off the track near Inverness, blocking all traffic

The Dairy.

Butter statistics are surprising. The census returned show the enor-nous aggregate of 600,000 tons, or 1,200,000,000 peunds, manufactured in the United States in 1890; and the unatifue has mobile in 1890; and the

States exceeds in value that of all of the lumber, wheat and iron com-bined. That, at any rate, is the statement of a statistician who pub-lishes the results of his figuring. Other dairy statistics, milk, crean, and cheese also makes blue chemistry

for the purpose of ascertaining the size of the population have just been returned to the home office, and among them are as curious doon-ments as were ever collected in a sim-ilar undertaking. Under the head of "profession, occupation, etc.," a num-ber of Hindoos admit candidly they are "professional debtors," "constant borrowers," or "men of secret re-sourcea" Others have put them-selves on record as thieves, village thieves, and brigands. Some of more modest aspirations call themselves tavern keepers, visitors of taveros, traveling story tellers, medicants, pensions on their sons-in-law, or sim-ilar idlers. One Hindoo says that "he cannot work because he is a fool." Others confess to a more seri-ous occupation, such as "expounder of oracles," "eye examiner," 'sorce-rer," "storm prophet," "tamtam player," "doctor of Greek medicine." Another says that he conduct a mar-riare hurgan for young domestion.
