OFFICIAL REPORT ON THE MAINE

OUTSIDE EXPLOSION.

Discipline on Board the Ship Was Excellent and the Temperature of the Magazine Normal.

The report of the officers appointed to investigate the Maine disaster was made public last Monday. The Ameri-can people now have positive evidence can people now have positive evidence that the ship was blown up by an out-side explosion. Hundreds of loyal American soldiers were hurled to death and a proud cruiser sent to the bottom by an act of treachery. A tremendous crowd was present in the halls of con-gress last Monday as the report, of which the following is a snyopsis was presented. The report is made up of eight parts as follows: First-The court finds that at the time of the explosion the battleship Maine was lying in five and one-half to six fathoms of water. Second-The discipline aboard the ship was excellent; everything stowed according to orders-ammunition, guns, stores, etc. The temperature of the magazines at 8 p.m. was normal, except in the after ten-inch magazine, and that did not explode. Third-The explosion occurred, at 9:40 o'clock on the evening of February 15. There were two explosions, with a very short interval between them; the ship lifted on the first explosion. Fourth-The court can form no definite opinion of the condition of the wreck from the divers' evidence. Firth-Technical details of wreckage from which court deduces that a mine was exploded under the ship on the port side. Sixth-The explosion was due to no that the ship was blown up by an out-

port side. Sixth—The explosion was due to no fault of those on board. Seventh—Oplinion of the court stating that the explosion of the mine caused the explosion of two magazines. Eighth—The court declares that it cannot find evidence to fix responsi-bility.

Eighth—The court declares that is cannot find evidence to fix responsi-bility. The report is unanimous and is signed by all the members of the court. It does not refer to the existence or non-existence of mines in the harbor of Havana except in the specific finding that a mine was exploded under the ship, and the opinion that the ex-plosion of the two magazines was caused by the explosion of a mine. The discipline the court specifies with extreme minuteness, the least detail of the satifactory condition of every-thing on board being given. The nor-mal temperature of the large forward magazines at 8 o'clock—only an hour and forty minutes before the explosion —disposes of the question of accidental combustion within these magazines. While the court holds that these maga-zines did not explode from internal causes, they nevertheless are of the opinion that the explosion of the mine under the port side of the ship caused, the explosion of the two magazines. This will explain the remarkable de-struction wrought, the explosion thus being shown to have combined the force of a mine without and two mag-zanes within. The two explosions which the court finds to have occurred, with a very short interval between them, is an additional detail showing that two forces operated in causing the destruction. The finding that the ship lifted on the

ruction. e finding that the ship lifted on the osion indicates an external source, one of tremendous power to be to lift a battleship of thousands of he feature of the report of deepest

The feature of the report of deepst interest to the navy'is the complete ex-oneration of Capt. Sigsbee and all on board, contained in the second finding, setting forth the perfect order and dis-cipline prevailing on the ship, and more directly stated in the sixth find-ing, which declares the disaster to be due to no fault of those on board. The inability of the court to find evidence to fix responsibility, as stated in the eighth part, makes the report so guarded in expression of blame that neither Spain nor the Spanish are men-tioned throughout.

who hids solve die osalvater women and children. Sherwood C. Cunning, receiving teller of the First National bank at Cincin-nati, who pleaded guilty to the embezz-lement of \$28,000 from the bank, was the other day sentenced to five years in the penitentiary. Senor Marcos Garcia, Spanish auto-nomist governor of the province of Santa Clara, has received an official notification from the insurgent army that he has been sentenced to death as a traitor to his country. Advices received from Port au Prince, Haiti, report a terrible financial condi-tion to be existing there. The premum on gold is 220 per cent. The greatest misery and starvation prevail in the interior and flour costs \$30 a barrel. Alexander H. Revell, of Chicago, has offered, through the industrial art de-pariment of the Central art School, a prize of \$2,500 for a color sketch which shall present the most practical sug-gestions for the decorating of a public school room. tioned throughout. The Spanish government has cabled officially to Washington that the Span-ish naval commission holds the disas-ter to the Maine to be of internal

FEELING IN SPAIN

As Gleaned From the Columns of Her News

As Gleaned From the Columns of Her News papers. A general in the Spanish army said recently that it was increditible that the report of the American court of inquiry into the Maine disaster should attri-bute the distruction of the vessel to a submarine maine. "Not even among savages," he as-serted, "would such mines be placed in their ports. Moreover, our own ships would have incurred equal peril had the mines been placed in Havana har-bor. Mines are laid only in times of war, and then only friendly nations are notified."

"La Correspondencia de Espana' says it understands that the govern-ment is occupied with certain new fac-tors in the situation, which it believes may give a more favorable turn to

Company, of Butte, Mont. Liabilities are placed at \$270,000. The Michigan legislature assembled the other day in answer to the call of Gov. Pingree, who wants the taxes on corporations increased. Because his property has been dam-aged by the recent flood, John Der-ringer of Zanesville, O., committed suicide a few days ago. Rev. Orson D. Taylor has been sen-tenced to Michigan state prison for six years for selling stock in an investment company which did not exist. The two great battleships, the Kear-sarge and the Kentucky, were launch-ed at the Newport News, Va., ship yards last Thursday. "El Correo" says the government is calm in the consciousness of having done its duty, and is satisfied. The for-eign press has recognized this, and also the firmness with which Spain is re-solved to defend her national right and bonor. It adds:

solved to defend her national right and honor. It adds: ' "God knows if matters are becoming worse, which is possible, the provoca-tion is notorious and scandalous, and if onerous resolutions are proposed to us the country, en masse, faithful to its traditions, will repel them." The "Epoci" says that Spain is trying to prevent war considering it a calam-

The 'Epocl' says that Spain is trying to prevent war considering it a calam-ity and has freely made important con-cessions, such as autonomy, in order to avert it. Spain, the paper continues, has not lost for a single moment her calm consideration, but she cannot consent to the perpetual intervention of Americans and the American Gov-ernment.

of Americans and the American Gov-ernment. "El Heraldo" declares that without the Intervention of the United States the Cuban insurrection would have been reduced to mere briggandage. "If the revolt continues," it says, "it is be-cause the rebels see in America the hope of an Ill-starred morrow of Spain, and while this hope exists the insur-rection will maintain sufficient strength slowly to consume our blood and money. War with the United States represents to them the solution of the problem which we must examine with minds."

Large Mortgage Filed.

Large Mortgage Filed. A large mortgage has been filed by the Detroit, Toledo and Milwaukee Railway Company in favor of the Cen-tral Trust Company, of New York, on all its lands, buildings, personal pro-perty, etc., between Toledo and Alle-gan, Mich. It was given to secure the issue of \$3,150,000 worth of 5 per cent first mortgage bonds.

PREPARATIONS FOR WAR.

Few Americans are now to be found in Havana. Spain is working hard upon her Cuban forts.

"Intervention is impossible," say the officials at Vienna.

The double-turreted monitors, Puri-tan and Terror, have been sent to Key West.

French passenger steamers are now experimenting with carrier piglons. In case of accident in mid-ocean they could be used in establishing communi-cations with shore.

The Berlin "Boursen Courier" pub-lishes a dispatch from Vienna saying that, according to information from the best source, European mediation bet ween Spain and America is being un-dertaken Ensign Chandler, of the cruiser Sar

Prancisco was shadowed by detectives while in England, who believed him o be a forger. Not until he was seer o board the cruiser were the detectives onvinced of their error.

to board the cruiser were the detectives convinced of their error. Prince Bismarck is highly amused al the almost daily cable messages he re-ceives from America, mostly with pre-payment for an answer, requesting hit views of the loss of the Maine or on the Cuban question. He says he pays no heed to these requests. The total pack of salmon in Britist Columbia for the past season is 1,015,47 Cases, compared with 601,570 the previ-ous season. Shipments made during the season were as follows: By sea to Eng iand, 733,704 cases; overland, 43,33 to Australia, 22,579 cases; to other des tinations, 226 cases. The Politische Correspondenz or Vienna gives what purports to be the information Russia has received re garding Japan's naval activity, put-ting in concrete form what is already partly known, namely, that 47 war-ships are being built to Japan's order in Great Britain, Germany, France and the United States, at a cost of 193,000, 000 yen.

the United States, at a cost of 193,000, 500 yen. Mrs. Parnell, mother of Charles Stew. art Parnell, met with an accident lass week at Avondale, County Wicklow Ireland, which may cost her life. Shi-was nodding in an arm chair before a fire when her clothes ignited. Befort the flames could be extinguished sht was badly burned. The Princess Louise of Saxe-Coburg. Gotha, eldest daughter of King Leo-pold of Belgium, wife of Prince Philig of Saxe-Coburg-Gotha, has commenced an action for divorce. Prince Philig fought a duel on February 18, with Lieutenant Mattachich-Koglevitch, un der stringent conditions, on account of the princess' action in eloping with the lieutenant. Business Not Ameticed by the Increased War

Business Not Affected by the increased War Preparations. R. G. Dun & Co.'s Weekly Review of Trade reports as follows: A waiting state of things always hinders business to some extent. With more than \$34.-000,000 gold received or on its way, since this movement began, with am-ple bank reserves and treasury re-serves, and a redemption of notes in all ways nearly a third smaller than in February to date, with no stringency in the money market and sterling ex-change weak, with the volume of busi-nes at clearing houses outside New York larger than in 1892 by 6.9 per cent this month, and with failures nearly 30 per cent smaller than last year, and 52 per cent smaller than in the same month of 1892, there is not much visible ground for panic, even if earnest cf-forts should fail to keep peace with honor. Warlike reports come every day and stock operators make the most of them, and yet the average of prices of thair oad stocks is \$53 06 against \$32.30 two weeks ago to-day. Some decrease in new engagements would be expected with war apparntly near, but as yet scarcely any indication of decrease for that reason is seen. It is difficult to take dismal views when the nation is surpassing all records in marketing products. Atlantic exports of wheat for the week have been 2.160.526 bushels against 1.272.286 bushels last year, and in four weeks 9.302.514 bushels (flour in-cluded), against 5.103.427 bushels last year. The price has declined 2% cents but the heavy shipments and contracts for export are having a constant influ-tnee. Business Not Anected by the Increased war Preparations.

GRAND LIFE SLOWLY EBBING AWAY

GLADSTONE'S ILLNESS.

The Grand Old Man Enduring His Final Trial-Annoyed by Too Much Spiritual Advice.

Notwithstanding the threatening attitude of the European Powers against titude of the European Powers against Great Britain and the interest shown in the impending conflict between the United States and Spain, the English people are most keenly interested in the condition of Mr. Gladstone, though it is not permitted to know how ill he is Perhaps it should be said that he is not so much ill as that his powers are fail-ing and that he is apparently sinking under the weight of years and vital ex-haustion. The bestinformed people ad-mit that amendment of his ailment is impossible, and that his physicians only hope to alleviate the pain he is suffering. The "Lancet" says, on the subject of the surgical advice called in "This can scarcely be interpreted otherwise than that there is serious cause for the symptoms from which he has suffered for nine months. At his great age the gravity of any surgical allment is apparent, and the exhaust-ion, in consequence, is prolonged. The severe neuralgia is in itself an unfavor-able feature. His vitality, however, is wonderful, and his general health is groad." An examination of the patient with the use of the Roentgen rays dis-closed inflamed cartilage, but there was Great Britain and the interest shown

BALLOONS IN WAR.

Distant Ships Could be Sighted and Land Movements of Troops Noted. Secretary Alger had with him

ir conference for some time the other day Gen. A. W. Greely, chief signal officer Gen. A. W. Greely, chief signal officer of the army. Gen. Greely has urged upon the secretary the importance of an allotment of money for the purpose of connecting the various parts of the fortifications at port eities by means of electrical communications and in res-ponse to his representations on this subject work in that direction is about to begin in New York harbor. Another matter which Gen. Greely thinks of great importance to the army in case of hostilities is the employment of balloons for observation purposes.

Another matter which Gen. Greedy thinks of great importance to the army in case of hostilities is the employment of balloons for observation purposes. He has asked repeatedly for an appro-priation from congress for experiments in this line, but thus far his efforts to obtain money have been unsuccessful. He hopes that some money may be soon put at his command for experi-menting with balloons, as he believes they would be invaluable for many purposes in time of war. For instance he says while floating in the air off the coast around any of the seaport cities they could observe the presence of ships of the enemy's fleet at great dist-ance off shore, and by means of the cable attached to them and connecting with telegraphic instruments below could disseminate information of the fact, while the ships were yet a great distance off. Balloons, moreover, he thinks, would be of great value to the millitary branch of the service. Should an army of occupation be sont to Cuba the balloons would be of use, it is thought, in the observations of the operations of the enemy's army, the country being quite thickly wooded so that it would be fared from the fre-posing troops while on the ground. Gen. Greely does not believe there is much danger to be feared from the flare of the enemy as experience has shown it to be a very difficult matter to gauge properly the heighth to which the aer-onaut takes his balloon and guns of peculiar pattern and manufacture are almost a necessity for use against bal-loons. oons.

WILES OF THE GUIDE.

Somehow the Best Fishing Grounds Are Always on the Other Side.

Being a scientific fisherman, he is an oracle on all matters pertaining to pis-catorial pastimes. He carries three tackle-boxes and every tray is full. He has the finest rods, reels, flies, spons, trolley lines, and hooks. He is pre-pared to take anything from muskel-

lunge to minnows. "One thing I want to tell you," he said to the comparative novice: "At all these island lakes the fishing is on the other side. Stop off at any resort, hire a guide, tell him you want the best there is, and it's 99 to 1 he'll pull for the other shore, no matter how many miles have to be traversed. He will miles have to be traversed. He will take you to the favorite haunts of the gamy black bass. Incidentally he will see that you get a few big fish weigh-ing from fifteen to twenty pounds each, that you may take them home and astonish your friends. "What you really get in some pickerel and north, nearbly a counce of weight

and perch, possibly a couple of wall-eyed pike, a few rock bass, and some sun fish. There is always an explanation for this vast discrepancy between hope and realization. They day is too bright; it's too windy; the lake's too rough, or the appetite of the fish has been taken in their desire to get further up-stream. You have the same experi-ence every day, for these guides are wiser than serpents and keep you in a flutter of joyful anticlpation through an entire season. Figure it up and you'll find that most of your money is spent in going to and fro from the other

side of the lake. "Last season I dissected some bass that I bought, found that they were feeding on crawfish, hunted out the rock bottom in the lake, and took 15 of the gamy beauties in one afternoon. The guides acted just as though I had jumped a gold claim of theirs, but I kept quiet and caught bass while the guides kept taking the other fellows across the lake in the morning and back at night. Just to make the whole thing plain, prospect till you find out where the fish are and then go after them."-Detroit Free Press
