United States Legation in Berlin. The United States government has been inquiring through the proper channel as to the cost of purchasing or channel as to the cost of purchasing or receiting its own buildings for the embassies and legations and several of the large consulates-general in Europe. It may astonish many to learn that Berlin was found the most expensive capital in the world, so far as the cost of real estate and of buildings was concerned. The only really suitable buildings cerned. The only really suitable building found there for the purpose would cost \$800,000. The Russian embassy building in Berlin, which is located Unter den Linden, and which is, indeed, a veritable palace, so spacious and stately is it, would cost about \$4, 000,000 to build to-day, ground and all. But it is, too, roomy and elegant enough to have served repeatedly for traveling quarters for Russian Czars passing through Berlin. What a miserable contrast forms the excuse for an office which the United States embassy occu-pies in Berlin, in Kronen strasse, a street of small shops. In the basement of the building is a barber shop, on the ground floor a wine and schnapps shop, and above the embassy offices reside a score of private persons.

Possibly no man is as anxious to go to war as he pretends to the reporters

Vacant Land in the United States. The report of the Secretary of the Interior shows that only a little more than one-half of the public domain of the United States is either reserved or appropriated. The area still remaining vacant amounts to 591,343,953 acres. without including Alaska, which is supposed to embrace nearly 400,000,000 acres more. The entire area of the United States is placed at 1,835,017,692 acres. Of this, 741,702,365 acres is now owned by individuals or by corpora-tions or by states, or has passed out of the control of the general government. The amount reserved for schools, Indians, military and naval purposes, railroad grants, parks, forest reserva-tions, etc., including all territory re-served from sale for any purpose whatsoever, amounts to 132,441,744 acres, s that, taking the reserve land and the vacant land together, only about onehalf of the area of the United States has actually passed out of control of the government, and if Alaska is ingluded, the unoccupied area is larger by 300,000,000 acres than that which occupied.—San Francisco Argonaut.

## THE DUTY OF MOTHERS.

Daughters Should be Carefully Guided in Early Womanhood.

What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to instruct her daughter!

Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young suffers severely she needs treatment and her mother should see

that she gets it. Many mothers hesitate to take their daughters to a physician for examina-tion; but no mother need hesitate to write freely about her daughter or erself to Mrs. Pinkham and secure he most efficient advice without harge. Mrs. Pinkham's address is

ynn, Mass. The following letter from Miss MARIE F. Johnson, Centralia, Pa., shows what glect will do, and tells how Mrs.

Pinkham helped her:

"My health became so poor that I had to leave school. I was tired all the time, and had dreadful pains in my side and back. I was also troubled with irregularity of menses. I very weak, and lost so much fiesh that my friends became alarmed. My mother, who is a firm believer in your remedies from experience, thought per-haps they might benefit me, and wrote you for advice. I followed the advice ou gave, and used Lydia E. Pinkham's Vegetable Compound and Liver Pills as you directed, and am now as well as I ever was. I have gained flesh and have a good color. I am completely cured of irregularity."

LIVING RENT FREE.

Philadelphia Man Who Went Broke Because He Did Not Pay.

A Philadelphia man has lived ten A Finiadeipha main has fived ten-years in a house for which he paid no tent and no taxes. It belonged to the gas company, and he had paid rent reg-ularly until the property of the compa-ny was transferred to the city. He says himself: "I don't remember how long it is since I stopped paying rent. It was when the gas office was on 7th street. I went there one day with my rent and offered it to Mr. White, who had charge of the gas company's real estate, but he refused to take it, and told me that it was to be paid at the city treasurer's office in the future. I took it up there and a young man there said he could not take it, as he couldn't tind record of any such a house. He told me that they would notify me when they were ready to take my money. I went back to Mr. White and he advised me to go home and wait until I heard from them. Well, I waited." Nobody came to collect money until recently, when the city discovered its title and sent a man to collect. The tenant got a day to consider and promptly skipped. But his experience with a free rent does not seem to be satisfac-tory, if we may trust to his wife. "Yes" says she, resentfully, "he thought it was a snap, and look where he is now -no money, no business, looking for a lob, and a family to support. He wouldn't take my advice and move to where business was good, but he hugged his snap and stuck here in that stagnant neighborhood and spent money on repairs for the house and didn't make any money."-Philadelphia

#### CONGRESS.

SENATE

For nearly two hours Monday the senate had under discussion the resoution of Mr. Lodge (Mass.), directing the claims committee to make an inquiry as to the disposition of the money appropriated by congress to pay the claim of the book concern of the Methodist Episcopal Church South. A heated colloquy between Mr. Chandler (New Hampshire) and Mr. Pasco was the feature of the discussion. Mr. Chandler said that Mr. Pasco was unwittingly and unwillingly the agent through which a deception had been practiced upon the senate. Mr. Pasco immanded the withdrawal of the statement, but Mr. Chandler insisted that it was correct, and refused to withdraw t, although he disclaimed any intendent to reflect upon Mr. Pasco's honor. The resolution probably will be called up again.

At Tuesday's session of the senate

was correct, and refused to withdraw it, although he disclaimed any intention to reflect upon Mr. Pasco's honor. The resolution probably will be called up again.

At Tuesday's session of the senate the resolution of Mr. Lodge (Mass.) directing that an inquiry be made into the disposition made of the Methodist book concern claim, which was paid recently by congress, was adopted without division. In the course of the debate upon it, Mr. Morgan (Ala.) charged that the resolution was insincere and had been drawn for political effect. This statement, Mr. Lodge denied vigorously, saying his only purpose in offering the resolution was that all the facts concerning the matter should be laid before the people to the end that more care should be exercised in the future. He regarded the claim paid as a just one, and had no idea of endeavoring to secure its repayment. He pointed out the fact that had his amendment to the claim bill been adopted it would have cut off a professional lobbyist and prevented a scandal. He hoped that as a result of the proposed investigation a general law would be passed to eliminate the professional lobbyist from the legislative equation.

After the passage of a large number of private pension bills and listening to a carefully prepared speech on the advantages of Republican tariff legislation by Mr. Pritchard, of North Carolina, the Senate Wednesday resumed consideration of the International American bank bill. An amendment was accepted by the committee and adopted extending the privileges of the measure to all citizens of the United States, instead of restricting them to those mentioned in the bill. When the Senate session Thursday, the measure to all citizens of the United States, instead of restricting them to those mentioned in the bill. When the Senate session Thursday, the measure to all citizens of the United States, instead of restricting them to those mentioned in the bill. When the Senate's session Thursday, the measure to all citizens of the United States, instead of restricting the

time.

The bill to incorporate the International American bank in accordance with the congress, which has occupied a greater part of the senate's time this week, was passed Friday afternoon by a vote of 26 to 23. The design of the measure is to furnish such banking and exchange facilities as will promote trade between the United States and the countries of Central and South America.

HOUSE.

The session of the House Saturday was devoted to debate upon the Hawaiian resolutions. Mr. Clark (Dem., Mo.), spoke in opposition, and Messrs. Walker (Rep., Mass.), Alexander (Rep., N. Y.), and Gillett (Rep., Mass.), in advocacy of the proposition.

the proposition.

In the House the annexation of the Hawaiian Islands was debated last Monday.

the proposition.

In the House the annexation of the Hawaiian Islands was debated last Monday.

A house joint resolution appropriating \$473.151 to pay the Behring sea award was adopted last Tucsday. The appropriation is carried in the sundry civil appropriation, bill, but that measure is still in conference and the award has to be paid on the 15th inst.

A bill was passed authorizing the president to nominate Lieutenant-Commander R. M. G. Brown, now on the retired list, to be a commander on the retired list. Lieutenant-Commander Brown was one of the heroes of the Samoan disaster.

A few private bills were disposed of, and the Hawaiian debate proceeded. Mr. Grosvenor (Rep., O.) was recognized, first, and, introducing his remarks, said the pending question was not one for party politics, and he would not appeal to any of his Republican colleagues who might oppose annexation to go contrary to their convictions and support annexation as a party project. Mr. Grosvenor then devoted himself to answering the various objections to annexation.

The afternoon and night sessions of the house were devoted to set speeches for and against annexation.

With Representative John Dalzell presiding as speaker pro tem. in the absence of Speaker Reed, the House Wednesday afternoon by the overwhelming majority of 209 yeas to 91 nays passed the Newlands resolution for the annexation of the Hawaiian islands to the United States.

The general deficiency bill was considered Thursday by the house, but was not disposed of. It probably will be taken up to-morroly and passed unless the private calendar is urged.

Mr. Dingley (Rep., Me.) called up the bill supplemental to the war revenue measure designed to supply some omissions and to strengthen the means of administering the revenue act. It exempts from taxation mutual, casualty, fidelity and guarantee companies conducted not for profit. After explanation by Mr. Dingley (the bill was passed.

was passed.

The general deficiency bill and conference report upon the District of Columbia appropriation bill occupied the attention of the house Friday.

One by Ex. Governor Peck.

Exs-Governor Peck tells a story about his visit to Green Bay. Wis. He had been asked to speak at a Good Templar's affair there.

"When I stood," Mr. Peck tells, "I looked about for some water. A mug had been placed beside me, and how it could have happened at a temperance convention I do not know, but it was a beer mug filled with water. Well, it was a warm day, and where there is convention food spread out on a warm day there are likely to be files. There were flies, and one had lighted trustingly on the surface of the water in that mug. I saw him as I lifted it, and I did the most natural and humane thing that I could think of—blew him off the water. Well, they cheered for five minutes. And to this day I suppose you can't persuade a Green Bay man that anybody from Milwaukee can drink a glass of water, even at a temperance convention, without first blowing off the foam."

### TRADE REVIEW.

Exports Exceed Imports During May Giving the United States a Large Foreign Balance.

Exports Exceed Imports During May Giving the United States a Large Foreign Balance.

R. G. Dun & Co.'s Weekly Review of Trade reports as follows for last week: The passing of the war tax bill, the offering of bonds and the collapse of Leiter and cash wheat, have made the week somewhat exciting. In spite of some features which cannot be justified the tax bill was approved as probably the best that could be obtained from congress this year, and gave assurance of needed revenue for the emergency. Its bond provision has already called out offers for more than three times the amount desired, and it probably will prove the most successful loan ever invited by the United States, A greaf victory in the field could hardly be more important, especially in its influencelon foreign opinion. Not less significant was the excess of exports over imports in May by \$65,980,-259, making a merchandise balance in favor of the United States, \$571,889,037 in eleven months of the fiscal year, while net imports of gold were \$102,026,-989, though in no previous fiscal year, while net imports of gold exceeded \$97,466,127 in 1882.

Not less important is the official showing that this nation has supplied to others 100,055,205 bushels wheat and 204,000,000 corn in eleven and a half months without checking receipts from farms, and sees wheat fall 20 cents in a week because a crop is promised greater than the last by 100,000,000 bushels. The decline would have come sooner had not Mr. Leiter looked for larger gains, but the benefit to this country by the average advance of rearly 25 cents for the crop year on wheat exported has been about \$48,000,000, and to producers much greater. In corn, on the other hand, the cash price has declined only 1 cent, and the demand continues extraordinary, western receipts amounting to 4,879,242 bushels against 3,313,194 bushels last year, and exported has been about \$48,000 bushels, against 1,321,448 bushels last year, and exports amounting to 3,662,-600 bushels, against 1,321,448 bushels last year.

year, and exports amounting to 3.662,-600 bushels, against 1,221,448 bushels last year.

The cotton movement continues large for the season, although the price has advanced a sixteenth in spite of favorable crop prospects. The manufacturing demand abroad is good and controls Liverpool, and at this late season America lets Liverpool make prices, Here the manufacturing demand is a little better, though with decline of prices of bleached shirtings, but the mills have large stocks of materials. There is also a stronger market for wool abroad, which with western excitement makes quotations of 100 qualities by Coates Bros, of 1 cent higher than June 1, but there is scarcely any buying by manufacturers, who are in doubt about the coming season and have few new orders, except in army lines. The break in the price of sixteen-ounce clay worsted to \$1.20 has somewhat discouraged what promised to be a healthy market. Sales of wool were made extremely narrow by the wide differences between excited western holders and manufacturers who have an uncertain coming season to face.

ace.

Pig iron is exremely dull, though
essemer holds last week's advance
nd other grades are not quotably lowr. No decline in consumption appears,
nd, while bars are weak, with short er. No decline in consumption appears, and, while bars are weak, with short time the rule in eastern mills, they advance 2½ cents at Pittsburg, while Chicago reports heavy season contracts still coming from wagon, car and other manufacturers. Heavy sheets are better at the East, but thin are not better anywhere. Structural works are full for the summer, and have had two remarkably good weeks at Chicago with buildings and bridge orders. Plate mills are well employed, and at Chicago the demand for pipe is better, especially from the Pacific coast. Shipments from there of rails in May included some to Sweden. Belgium, South Africa, Siberia and three other countries, while orders from Calcutta have just been taken. The anthracite coal output in May exceeded the allotment by 19.9 per cent.

#### A Fatality Avoided.

From the Democrat, Goshen, Ind. When neuralgia is accompanied by a dull heavy pain near the heart, frequently be-coming intense, it generally terminates fatally. Mrs. Nancy Flynn, who lives near Goshen, Indiana, survived such an attack and her advice is worth heeding. "In the fall of '92," she said, "I began

to have trouble with my heart. There was a sharp pain in my breast which became rapidly worse. The doctor was puzzled a sharp pain in my breast which became rapidly worse. The doctor was puzzled and put me under the influence of opiates. These sharp attacks followed one another nt-intervals and I became weak and had a haggard look. I was constantly in pain, seidom slept and had no appetite.

"At the end of two years I was confined to my couch most of the time and the doctors agreed that my death was only a matter of a short time.

"One day

"When I had finished one box I noticed an improvement in my condition, and when I had taken twelve boxes I was completely cured. Those pills have done for you what we could not do, said one of my physicians, they have saved your life."

"That was two years ago and my heart has not troubled me since. I believe I owe my life to Dr. "Williams' Pink Pills for Pale People, and I take pleasure in teiling others about them."

Among the many forms of neuralgia are headache, nervousness, paralysis, apoplexy and locomotor ataxia. Some of these were considered incurable until Dr. Williams' Pink Pills for Pale People were formulated. To-day thousands testify to having been cured of such diseases by these pills. Doctors frequently pescribe them and all druggists sell them.

#### TELEPHONING AT SEA.

How Commanders Communicate by Wire from Ship to Ship.

Telephones may supersede the old system of flag signals as a means of communication between ships at sea. Successful experiments have beer made by Commander R. G. O. Tupper of the British navy which seem to prove that the system is adapted for the purpose. Commander Tupper used a kite in his experiments, and this seems to be the only feasible means. The kite used was an ordinary one that differed but slightly from those used by American boys in the spring and fall, except that it had no tail. The kite was six feet long and three wide at its broadest part. Two lines were attached to the kite where the tail would ordinarily have been. One of these ordinarily have been. One of these lines was retained on board of the Dar-ing, the torpedo boat destroyer under Commander Tupper's command, from whic the experiments were conducted. It was found that with the wind be-tween the two lines it was easy to drop letters or even a hawser on another thip, and in this way to establish communication. When this experiment had proved successful Commander Tupper made use of a wire. The end of the wire which the kite bore away from the ship was dropped upon the deck of H. M. S. Dauntless, where it was secured by the electrician of the ship and attached to a telephone apparatus in waiting. The other end, which had re-

TELEPHONING FROM SHIP TO SHIP.

mained aboard the Daring, was also the task had been completed the com munication between the two ships was kite remained suspended for four hours, during which time communication be-tween the two ships was uninterrupted. nmander Tupper has made a report of his experiments with the kite tele-phone and declares that it means that the present method of signaling with flags will become obsolete. If telephone son why telegraphic communication should not be made in a similar mancommunication with each other.

Among contracts recently placed by the Government were several amount-ing to 250,000 hessian bags, to be used for fortification-purposes.
