There was a lamp explosion at Walter

the Somerset Standard last week said: "Confluence must certainly have a regularly organized gang of burglars. The general store of William Anderson was broken into one night last week and about two hundred dollars worth of goods taken, and it is said that the cellar of the residence of Will Black was about the same time cleaned out; also, that an overcoat and some other articles were taken from Reitz's grist mill. A number of unsuccessful attempts at burglary at other places are reported The sneak thieves, too, are busy, helping themselves to coal, chickens and things of that kind."

Mr. David H. Keim last week reported to The Star that he made 1,880 pounds of maple sugar during the month of January. This is indeed a large yield for this early in the season, as it is seldom that any maple sugar is made in this locality before February. The clearest and best flavored sugar is always made in the early part of the season, and Mr. Keim has the manufacture of maple sugar down to a fine at. He has learned that it pays to open his camp early, for the first of the crop always brings the biggest price. Mr. Keim is one of the largest producers of pure maple sugar in the United States, and his product cannot be 'excelled.

TOWNSHIP NOMINATIONS.

The Republicans of Elk Lick town ship made their nominations by the primary election system, last Saturday as follows: Judge of Election, J. P. Vogel; Inspector, E. J. Egan; Township Clerk, W. B. Stevanus; Auditor Wm. Engle; Tax Collector, Jame Maust; Road Supervisors, I. J. Engle J. J. Thomas and Simon Livengood School Directors, L. A. Peck for 2 year.

J. L. Raeghy and Ross Sechler for States, and his product cannot be excelled.

Just what the good, helpful church member is in church he is at homewith an open heart and an open hand never content unless his friends are coming and going, never angry unless they will not stay and have a meal with him, never so full of joy as when he is doing a good turn, or going over old lays with those to whom he is bound by a hundred ties of kindly words and deeds. As he has dealt with all menstrangers and friends alike, in his church and in his house, so will God deal by him, and for him we may feel sure there will be a hospitable welcomwaiting where the churches of earth have changed into Our Father's House.—Ian Maclaren in the February Ladies' Home Journal.

Probably There will be Two Municipalities Instead of One.

The citizens of Windber last evening held a meeting in the Windber opera house to discuss the movement for the incorporation of that town into a borough bearing its present name. There was a fair attendance, and the commit tees that had been appointed to ascerping the opinions of all the citizens reported that it had been possible to secure the sentiment of only 290 out of the 400 freeholders of the town, but that every one consulted was in favor of the incorporation of the town, but that every one consulted was in favor of the incorporation of the town.

A committee, consisting of Messrs M. E. Sell, J. S. Cunningham, and C. J. Duncan, has already prepared the plofor the borough, and a petition for incorporation will be presented to the Somerset County Court at its next ses-

Mrs. Geo. W. Robison called at The Star office a few days, ago and gave usome interesting information concerning the soldiers' orphans' school as Scottland, Franklin county, Pa., where her young son, Albert, is now in attendance. Mrs. Robison showed us a number of letters that she received from her boy, and we must compliment him on the excellent letters he writes. Histers are all written in a nice even hand, properly paragraphed, well composed, and punctuated much better than the average person punctuates a letter. Albert possesses the qualities omake of him a man of fine ability, and he is making most excellent progress at the school, where he is also being taught the carpenter trade. A letter from the Superintendent of the school, written to Mrs. Robison, speaks in the highest terms of praise concerning her boy and the progress he is making.

reling was made by the department which provides that all physicians who give medicine to their patients must put a proprietary stamp on each bottle. He is visiting all the physicians who come under the law and serving them with the notice. An officer from the revenue office will make a second visit and collect the tax. What surprises the doctors most, is that the ruling is retroactive. All bottles they have filled since July 1, 1898 must come under the ruling. Mr. Hobart is making estimates from the amount of practice of each physician, and is making assessments accordingly. The tax is two and one-half per cent. Naturally the physicians object. However, all they need of from this on is to charge more. The consumer always has to foot the bills. It was at first proposed to embrace in the new borough the district lying in somerset county known as East Scalp Level, but the residents of that commu-
