

UNITED STATES TROOPS FOR CHINA

NINTH REGIMENT

In Under Orders—Will Sail From Manila When Directed—Command is Off With More Marines.

A special dispatch from Shanghai dated Thursday, says: An unconfirmed report has reached there from Tien-Tsin to the effect that a foreign legation has been burned and that a minister has been killed. The names, it is added, are withheld, pending a confirmation of the report.

Later reports from Tien-Tsin confirm the news of the burning of the Japanese legation, but the rumor that a minister has been murdered is not confirmed.

It is regarded as certain that the Japanese government will take active steps concerning the murder of the chancellor of the Japanese legation.

A special from Shanghai says that the positions of the legations at Peking are most critical. According to this dispatch 20,000 Chinese troops are now outside the gates of the city to oppose the relief force, and guns are trained on the American, British and Japanese legations. The American, Russian and Japanese ministers have sent couriers to Tien-Tsin asking for 2,000 troops of each nationality.

This is the situation in China as it appears to a Shanghai correspondent, calling Thursday evening.

It is really a state of veiled war. The members of the foreign legation in Peking are virtually prisoners, and the Chinese troops are only restrained from attacking them by fear of the legation guards. The gates are guarded by 100,000 imperial troops. The gates are heavily defended with machine guns.

Gen. Tang, acting under orders from the emperor, says that no foreign troops shall be allowed to enter the city.

The streets of Peking are reported to be seething with anti-foreign mobs, claiming for the destruction of the legations and the deaths of the foreign ministers. Even the Tsing Lu Yamen disposed of the Chinese troops of the re-actories, it is considered highly improbable that they will be able to hold them in check. For the foreign ministers the crisis will arise when the relief column comes in sight of Peking. It is still felt that the foreign force is wholly inadequate to battle with the hordes of Chinese troops massed outside the gates, which now include the imperial troops from Shan-Hai-Kwan.

From Tien-Tsin it is reported that the foreign forces in the north will attack the Takti forts, and it is necessary to bombard them. Gen. Neih is moving 2,000 troops from Tai-tai to Chin Lai Cheng. Gen. Tang's Shanghai troops are moving to Peking.

A dispatch from St. Petersburg says that the ships of the Russian Pacific squadron on the active list, as well as those at Vladivostok, have been ordered to proceed, with all haste, to Chinese waters.

Orders have been issued to the commander of British troops assembled at Hong Kong for service in the north to sail for Tien-Tsin June 14. Major Morris, of the artillery, will be in command. Telegrams from Manila, dated Monday, to the effect that the Ninth regiment has been ordered to Manila, whence it will proceed to China, aboard the gunboat Concord. The gunboat, which has sailed under sealed orders, supposedly for China.

The British cruiser Bonaventura has sailed for Hongkong with troops and stores for Hongkong and Tien-Tsin. Telegrams from Hongkong, dated Monday, say: All the unprepared foreign buildings in the harbor were destroyed. Hundreds of natives have been murdered.

The "Boxers" have cut the railway behind the column of British, American and other foreign nations sent by British Admiral Seymour to relieve the siege of Peking. This has shut off the column's supplies. The column is reported to have been ordered to retreat. The Chinese, but with what result is not stated. All wires to Tien-Tsin are cut.

The cruiser Terrible and a transport with 700 troops have sailed for North China. The transport, which was ordered to sail for the North Atlantic under sealed orders. The cruiser Bonaventura is en route from Manila to-day to coal and rush north. The ship Rosario and two torpedo boat destroyers will leave from Manila for the southern provinces of China as they quiet.

The United States battleship Oregon is taking on coal at Manila, and is preparatory to leaving. Great activity is displayed by the British naval authorities in Hongkong.

REBELS BADLY BEATEN LAST WEEK

STRONGHOLD TAKEN.

Sixty Filipinos Killed and 200 Captured by Our Troops—Americans Lost Three Men. Civil Commission at Work.

Telegrams from Manila, dated Sunday, say:

The United States forces had two engagements of importance last week. The troops under Gen. Funston and Gen. Grant organized an advance, with parts of five regiments and two guns, against 500 rebels in a mountain stronghold east of Bacolstadt where it was supposed Capt. Roberts, of the Thirty-ninth regiment, who was captured last month at San Miguel de Mayumo, was held captive. The Americans operated under many difficulties and over an exceedingly rough country, but the rebels retreated, only a few resisting and one stronghold was occupied and burned.

As the result of last week's operations, 60 Filipinos were killed, 200 were captured and 300 rifles with 25,000 rounds of ammunition were captured. The Americans were killed. Malarial fever has been prevalent since April in parts of Cavite and Batangas provinces, which are garrisoned by the Forty-sixth and Thirty-ninth regiments. Thirty per cent of the men of each regiment are sick. The loss of two battalions in Batangas province one has 150 sick and another 100.

Judge Taft and his colleagues of the civil commission, are studying the legislative phase of the reciprocity with Portugal by enacting new laws on September 1, when they assume executive power. The subjects have been provided among them.

UNCLE SAM'S COMMERCE.

The Business of the United States is Larger Than Ever Before.

The commerce of the United States in the fiscal year, which closed on this month, will far exceed that of any preceding year; its exports will surpass those of any earlier year by more than \$150,000,000, and its exports of manufactures will exceed those of any preceding year by more than \$75,000,000.

As to the details of this wonderful year, every class of articles shows an increase. Manufactures, as already indicated, will show an increase of more than \$75,000,000; products of the mine an increase of nearly \$100,000,000; and agriculture an equal sum; fisheries are \$2,000,000 larger than last year, and the miscellaneous class shows an increase. Probably the largest increase is in manufactures of iron and steel, which will show an increase of \$10,000,000, owing to the marked advance in price. Nearly all grades of manufactures of iron and steel show an advance.

Other lines of manufacture show a large advance. Leather and shoe manufactures show an increase from \$10,000,000 to nearly \$20,000,000 during the period under consideration, and the same increase from \$40,000,000 to \$50,000,000, through this increase is chiefly due to the advance in price of raw materials.

GORT RICH ON WHEAT.

Remarkable Record of an Oklahoma Family Who Began Penniless and in Debt.

Four years ago, without a dollar and in debt; to-day worth \$100,000. That is the record made by one family in wheat raising in Oklahoma—a fortune of \$100,000 in four years, half of that money cash in the bank. They will not the other half in cash within two weeks, and the 12,000 bushels of wheat they are now holding.

The Miller family operate the "I" ranch, nine miles southwest of Guthrie. The ranch has 40,000 acres of land that is divided into half by the Salt Fork river. Of this land 6,000 acres are in wheat, 1,100 in corn, 200 in oats, 600 in sorghum, 1,200 in hay and 1,100 in watermelons and muskmelons.

On this ranch is one wheat field of 250 acres three miles long and 252 feet wide. It was planted in wheat a fence or road through it. The harvest on this ranch began last week. Twenty-five men were at work on it after the first of last week. Threshing is now in full swing. The reapers cut and bind 600 acres a day. The cutting of the wheat is now in full swing. A harvest of 150,000 bushels of wheat will be gathered from this ranch in the next few weeks. The market price of wheat is 80 cents a bushel, which has been sold for 70 cents a bushel, more than the regular market price of ordinary.

Mr. Miller contracted to sell the first 100,000 bushels of wheat at 80 cents a bushel, regardless of quality.

TORNADO CAME BACK.

Swept Through Beach, Neb., Twice Over the Same Path.

Beach, Neb., was visited Wednesday afternoon by a tornado, which did considerable damage in the western and northern parts of the city. The storm struck the West end of the beach, where it was blowing a hard down town street, breaking off large trees here and there in its path. The wind was from the west, and buildings were picked up and whisked away and shingles blown from the roofs of many substantial houses.

One large eight-room house was lifted a couple of feet off the ground and dropped back again in its foundation, while its frightened occupants vainly strove to hold the doors shut. A pig was carried off, carried over house tops and deposited on the bank of the river. The wind was from the north in North Beach was blown away and a horse in killed.

The tornado swept from west to east, then northwest, and then, making a complete turn, came down again in the form of a massive and powerful storm. At one place a piece of scumming was wrenched from a porch, though caught by a chimney, and driven into the ground about 4 feet.

The twister finally bore away to the east, and the storm was over. The districts have come in yet. The storm was preceded by a heavy rain, which had been falling for several hours. The narrow escapes from injury are reported.

COLUMBIA REVOLUTION.

Large Armies Face Each Other—Results in Great Doubt.

Although there is much conflict as to the status of the revolution in Colombia all advisers agree that armies aggregating 25,000 or 30,000 men have been facing each other with sanguinary results.

The Colombian capital at Washington, D. C., Luis Cervera, a revolutionary leader, states that the information coming from the Colombian capital showed that the revolutionists had forced back the government troops from the frontiers.

He says the government has an army of 100,000 men at various points, but that the revolutionists have a force of 25,000 men. The revolutionists have been the brunt of recent engagements. They are armed with rifles, with Maxim rapid-fire guns and have field guns of the Crona make. The revolutionists also have a number of other vessels used for transport and fighting purposes. The government has four gunboats, three on the Atlantic and one on the Pacific side.

The revolutionists are well organized and are on the field both abroad, with influential friends.

In official quarters it is stated that the revolutionists are well organized and are on the field both abroad, with influential friends.

BOER WAR APPROACHING THE END

Reports from London.

Natal Volunteers Dismissed to Their Homes. A British Division Will Likely See Service in China.

Roberts telegraphed as follows from Pretoria on Saturday:

Rustenburg was occupied yesterday by Baden-Powell. A column starts from this place to-morrow to meet Baden-Powell and repair the telegraph between Pretoria and Rustenburg. Hunter is moving from Potchefstroom. His advance brigade expects to reach Johannesburg June 10. Buller, I hope, is at standstill. Heidelberg will be occupied from this place shortly, and then the Orange river colony will be completely cut off from the Transvaal.

Baden-Powell reports that the district through which he passed is setting down satisfactorily. Over 1,000 stands of arms were surrendered and Hans Eloff and Piet Kruger, son of the president, were taken to the Orange river colony. Baden-Powell reports that the district through which he passed is setting down satisfactorily. Over 1,000 stands of arms were surrendered and Hans Eloff and Piet Kruger, son of the president, were taken to the Orange river colony.

There are some indications that Roberts considers the end of the struggle in South Africa not far distant. One of these is the fact that the Natal volunteers, who had seen hard service, were being discharged by Gen. Buller Saturday. Another indication is the report that a complete division of regular troops from India, the 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

President Kruger, according to a dispatch from Lourenço Marques, keeps a close watch on the situation in the Transvaal. He is reported to be in the car in which he concentrates the executive offices of the government and intends to leave MacLododorp soon and to establish the Transvaal capital at Spruit, in the mountains, a fine detached position.
