Rubber Rollers are Used for Crushing the Grapes to Make Rubber Rollers are Used for Crushing the Grapes to Make Speer's Port, Burgundy, Claret and Other Wines, Which, asis well known, rival the world inexcellence, for invalids and aged persons, and are made from the Oporto grape grown on vines im-ported from Portugal forty years ago. The soil of northern New Jersey, containing iron, is just suited for them. Mr. Speer, however, uses the improved way of mashing the grapes. He employs large rollers of rubber run by an engine which crush grapes at the rate of a barrel a minute. Speer's Wines, especially the Port and Burgundy now in market, are of very old vintage, and have no superior. Physicians far and near prescribe them for weakly females and aged persons. They are lood-making, adding iron to the system, and tend to pro-long life. Extensively used at parties, weddings and general family use. TW SOLD BY DRUGGISTS AND GROCERS WID DEAL IN WINKS. While the sewer contractor is doing fairly well with the small force of work-men he has employed, he is far behind what will be required to complete the contract within the limit named in the contract. The report of the engineer to Council, last week, showed that it will simply be impossible to complete the contract within the limit at the rate the work has been going, and as the contractor will forfeit fifty dollars for each day the work is delayed after the limit, it would seem that he is go-ing up against something with his eyes open.—Somerset Standard.
