Filmore S. Enos had a lively battle with an Italian, at Niverton, a few days ago, and yesterday he had the Italian arrested for making threats against his life. After a hearing before Esquire David Fuller, the Dago was committed to jail, Constable Charles R. Snyder taking the prisoner to Somerset. Enos claims that the Italian has for some time been trying to alienate the affections of his wife, and that he has also been carrying concealed weapons and been carrying concealed weapons and threatening to kill him.

Mr. Jacob Brown, of Cumberland, Md. is visiting in Salisbury this week. Mr. Brown is an uncle of Mrs. Geo. W. Robison. He is quite a historian, and cocasionally writes very interesting articles on the early history of this section of country for the Oakland and Cumberland newspapers.

It is a great pity that Mr. Livengood didn't get a chance to empty a large dose of buckshot into the villain from his trusty old raccoon shot gun. It is well for the people of this town to sleep with one eye open, and always have their firearms in easy reach, for there are almost continually some desperately bad characters loitering about this town. Keep a sharp lookout for thee fellows, and if you find them intruding in or about your homes, fill them ful of cold lead, and be sure to shoot to kill.

Mr. John A. Noe, the great book salesman who is selling hundreds of books here nearly every day, will shortly visit Boynton, Coal Run and Niverton to show the people of those villages how easily they can acquire tine libraries. We appeal to the many young men of those villages to give Mr. Noe careful attention when he calls upon them, for he is a public ben-feator. Knowledge when he can do so at the trifling cost of only 5 cents a day. Nothing is more beneficial or desirable than a fine library, and the plan Mr. Noe has to offer has taken this town by storm. There are few people indeed who do not spend at least 5 cents a day foolishly, and there are fewer still who cannot offord to spend 5 cents a day for a fine library. Mr. Noe is a fair, square man, and he has the greatest book scheme on earth. You will make a sad mistake if you lose this chance of a lifetime to secure a fine library. It

Rubber Rollers are Used for Crushing the Grapes to Make Rubber Rollers are Used for Crushing the Grapes to Make Speer's Port, Burgundy, Claret and Other Wines. Which, asis well known, rival the world in excellence, for invalids and aged persons, and are made from the Oporto grape grown on vines imported from Portugal forty years ago. The soil of northern New Jersey, containing iron, is just suited for them. Mr. Speer, however, uses the improved way of mashing the grapes. He employs large rollers of rubber run by an engine which crush grapes at the rate of a barrel a minute. Speer's Wines, especially the Port and Burgundy now in market, are of very old vintage, and have no superior. Physicians far and near prescribe them for weakly females and aged persons. They are blood-making, adding iron to the system, and tend to prolong life. Extensively used at parties, weddings and general family use.
