

ENVOYS BEING HELD AS HOSTAGES

A NEW EDICT.

Chinese Threaten to Kill Envoys if the Powers March Upon Peking—Viceroys Ordered to Guard Their Prisoners.

Telegrams from Shanghai, dated Thursday, say: Active preparations in the Yangtze region for war are in progress—not for war against the rebels, but against foreign powers. Junk loads of Chinese soldiers and boxes, dismounted as coolies, are arriving here daily. The arsenal is full of arms, and supplies are constantly coming.

Nanking and Tientsin garrisons are being constantly reinforced, and the viceroys insist that they cannot detach troops to bear by Sheng and Li Hung Chang upon them to join forces with the rebels. It is hoped that the arrival of Admiral Seymour here may stiffen the backs of the southern viceroys and restore the security of the port.

The Chinese minister in London, Sir Chen Loo, has just received a telegram from Sheng, director of railways and telegraphs, to the effect that the imperial decree by which the viceroys were issued on Tuesday: "It is fortunate that all the foreign representatives, except Baron von Kettler, are found in safety and unharmed. Provisions in the shape of foodstuffs, vegetables and fruits have been sent to the viceroys in order to show our courtesy."

It is reported that a large section of the Boxers has revolted against Prince Tuan, alleging that he is making too much of them for his own good, and that a conflict took place outside of Peking Sunday. Prince Tuan personally led his followers to the scene, and after a day's fighting the battle was defeated and killed.

Telegrams from Shanghai, dated Sunday, say: "A new imperial edict prohibits the viceroys from sending out all viceroys and provincial governors to endeavor to negotiate peace with the rebels, and to suspend the execution of all viceroys pending the result of the overtures for the abandonment of hostilities against the rebels."

The viceroys are also commanded to guard their territories vigilantly against the advance of the foreign troops, especially along the Yangtze river, and to see that the officials will answer with their lives for any failure to execute the imperial commands. It is also given that not a single foreigner shall be allowed to enter from the interior, and that all foreigners still fully zoology connected with missionary work in isolated situations.

When the governor of Shan Tung communicated to the viceroys the imperial edict, he said that he had received these important passages addressed to Li Hung Chang: "It is admitted in principle to kill all foreigners who are present, it is equally unwise to send them to Tien Tsin. It will be much wiser to protect the survivors, and to send them to Tien Tsin. You have been appointed viceroys of China because of your wisdom and ability. You are commanded to hasten to Peking, and to see that the viceroys of the provinces will successfully lead the imperial armies against the foreigners in the Yangtze region. It is your duty to see that no foreigner is allowed to enter on account of his age."

Annexation Celebration Was a Failure—Results of the Weeks Fighting. Telegrams (edited by the censor) dated Sunday, say: The two days' festa in Manila organized by Senor Paterno and his political followers to commemorate the annexation, resulted in a complete failure. The people were not enthusiastic, and not even interested. Failing to perceive any tangible benefit in the present of amnesty, they say they can see no reason for celebrating.

Judge Taft and his colleagues of the commission felt constrained to decline to attend the banquet, as they had been informed that the government was not independent under American protection and they could not passively lend their assistance to the celebration. Senor Paterno, foreseeing the suspension of the banquet without the Americans, sent a telegram to Senor Paterno, promising there should be no speeches.

Soldiers Brought for China are Told to Take no Prisoners and Spare None—A Mission of Revenge.

Part of the German expeditionary force for China sailed Friday on board three transports, Emperor William, who was accompanied by two of his sons and the imperial chancellor, Prince Hohenzollern, witnessed the embarkation of the expedition and delivered a farewell address to the troops.

Every German has been filled with pride, the emperor, to learn that his expeditionary force for China is to be a mission of revenge. He is almost certain that the expedition will be successful, and that the Chinese should be taught a lesson. Tunnel Bored Beneath the Western Penitentiary Walls—Conspiracy Discovered in Time—Plotters Escape.

The most desperate and prolonged attempt at wholesale prison delivery ever known in Pittsburgh was unearched at the Western Penitentiary Thursday morning by Warden Edward S. Wright. It was found that two men and one woman for over two months had been persistently tunneling beneath the great walls of the prison from a house on Sterling street, Allegheny, Pa., and nothing but the suspicions and clever reasoning of a woman prevented the conspirators from carrying their work to the streets.
