

PRINCE CHING IS THE REGENT

STRONGLY PRO-FOREIGN.

It Is Said He Would Return to Peking If His Safety Was Assured by Foreign Ministers.

It is rumored at Shanghai that the Japanese gained a great victory over the Boxers and Chinese troops from Pei Tsang and Ho Si Wu last Thursday at Chi Chou. The story says that 1,500 Chinese were killed, including Prince Tuan, and that all the Chinese were driven back into Chi Li.

The Reform party, under Yang Yu Wei, is said to be actively preparing for rebellion. It is reported from Hankow that 25 reformers have been executed, their heads being exposed.

The taken correspondent says that the country around Taku and Peking is devastated, with the rest of the country being most unpopular and being attacked by the peasantry. The Boxers, who were moving north from Shan Tung, are now returning hastily to their homes.

Ya Governor of the province of Shan Si, is reported to have invited the foreigners in the province to come in for protection. Fully accepted, the invitation, and all were walled off.

Five powers have agreed to Russia's proposition to withdraw troops from Peking and two have announced opposition to its motion. The United States finally declared that Li-Hung-Chang is acceptable to them as peace envoy for China.

The question of the credentials of Chang's credentials, but the power of the Imperial Government to approve and disapprove of the credentials he holds before it is willing to treat through him.

This sums up the situation. It could hardly be more satisfactory, viewed from the American standpoint. An active interchange of views took place Thursday between the capitals of Europe and Japan at Washington, and a result is likely that pressure will be applied to the two powers anxious to get Peking to induce them to withdraw simultaneously with the evacuation by the other allies.

The Russian minister at the Russian proposition are Germany and Italy. Those favoring it are the United States, Great Britain, France, Belgium, and Russia. The powers which question Li-Hung-Chang's credentials and the ability of the Imperial Government to enforce the terms he may make are Germany and Italy, while France, Belgium, and Russia are in favor of the credentials before negotiations begin.

Telegrams from the Russian minister at Peking indicate that the credentials of Prince Ching has been appointed regent, but is afraid to return to Peking. The foreign envoys will guarantee his liberty. Ten dignitaries remaining in Peking are consequently resolved to petition the emperor to return to Peking and to place the regent to Peking and to give explanations.

It has been learned that the emperor is going to return to the province of Shan-Si, to which place she is returning after her escape from Peking. His name, Yuan-Fu, is said to be the name of Hsian-Pa, indicating that she is still still further away from the Chinese capital.

It is stated that Prince Tuan's son, Tsui Sing, will be declared emperor under the protection of Russia.
