Ord Street, Salisbury, Pa.

GIGANTIC FRAUDS IN PHILADELPHIA.

Police Men Man the Polls and Openly Work For the Quay Machine.

INDEPENDENT TICKET ASSURED.

What Senator Egan, Leader of the Insurgents, Says About the Result. The Quay machine has been pushed rapidly forward. Four bogus battalions were formed and sent to Philadelphia to man the polls on Friday last. But it is not the department of agriculture that is pushing these men. It is the Pure Butter association. The dairy and food department is still leagued with the oleomargarine trust.

DEAR BOY LETTER No. 4.

My DEAR BOY—As an American citizen I am happy over the vast progress made by the United States under the administration of Wm. McKinley. It is true that the increase of our wealth, the enlargement of our possessions, and the position which we have gained among the nations of the earth, have brought us a vast increase in responsibility. However, this responsibility came to us providentially, and we are to ourselves and to righteousness, the God of nations will guide us in the future.

Kodol Dyspepsia Cure. Digests what you eat. It artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovery of scientific and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Constipation, Gravel, and all other results of imperfect digestion. Prepared by E. C. DAVIS & CO., Chicago.

Dr. Humphreys' Specifics

Specifies act directly upon the disease, without exciting disorder in other parts of the system. They Cure the Sick.

- 1—Fever, Congestion, Inflammation, etc.
- 2—Worms, Worm Fever, Worm Cough, etc.

Dr. Humphreys' Manual of all Diseases at your service. Sent by mail for 25 cents. Sold by druggists, or sent on receipt of price. Price, 50 CENTS. THOMAS H. BAKER, New York.

any means. The independent fusion movement is very popular.

The anti-Quay Republicans of Montgomery county on Saturday last held a convention, which was packed to the brim. The first legislative committee was nominated and resolutions denouncing the Quay machine, Governor Stone, John Hamilton, secretary of agriculture, and all the other members of the ring were passed. The Quay ticket in Montgomery county cannot win this fall.

It will be interesting news for the farmers and the independent men in Philadelphia. The independent men in Philadelphia have been pushed rapidly forward. Four bogus battalions were formed and sent to Philadelphia to man the polls on Friday last. But it is not the department of agriculture that is pushing these men. It is the Pure Butter association. The dairy and food department is still leagued with the oleomargarine trust.

Our next hope after we got mixed together was that England and France would help us for commercial reasons. Vallandigham, Stevenson and a thousand other Copperheads like the good brethren who held up Joshua's arms, held ours up by encouraging us to hold out a little longer, by denouncing the war a "failure" and keeping us posted as to the movements of our enemies.

WHAT PEOPLE ARE SAYING.

I belong to neither party. I vote in local and national elections as my independent judgment dictates. Nebraska is prosperous. Four years ago the times were very hard. Our farmers burned their corn for fuel. Then it was that Mr. Bryan argued for free silver as the only remedy for those apparently hopeless conditions. The country did not take his remedy, and yet got well. What is the inference? Mr. Bryan's remedy was not as much of a remedy as he thought it. Mr. McKinley was made a foolish candidate for party now existing. A very large percentage of the citizens will pay no attention to free silver, imperialism or anything else than our great prosperity.—J. A. Smith, Humphrey, Neb.

Yes, Republicans in Pennsylvania outside of Philadelphia rather expect such things as that of Tuesday night and the existing ballot laws and with the Quay machine in control, and the result will make them work all the harder in the future. All the ballot box stuffers who are to be put to rest and the fugitives from justice for the same reason are from Philadelphia. The Quay machine has systematically defrauded by the thousands of bogus ballots that the Quay machine has taken to the force of Philadelphia to protect the criminals, run the election.

Senator Egan speaks truly when he declares that this will only come to a quietus. There is no possibility of a quietus. The independent men in Philadelphia are pushing the independent fusion movement forward. The independent men in Philadelphia are pushing the independent fusion movement forward. The independent men in Philadelphia are pushing the independent fusion movement forward.

most illustrious epoch in the world's history.

Do not vote to "swap horses while we are crossing streams." Vote to keep at the helm the man whose steady brain, loving heart and true hands have under God guided the ship of state so safely through peril to a new birth of national glory.

Our next hope after we got mixed together was that England and France would help us for commercial reasons. Vallandigham, Stevenson and a thousand other Copperheads like the good brethren who held up Joshua's arms, held ours up by encouraging us to hold out a little longer, by denouncing the war a "failure" and keeping us posted as to the movements of our enemies.

Our business has been more prosperous in the last three years than in the entire previous history of the country.

Our business has been more prosperous in the last three years than in the entire previous history of the country. This is true not only of Chicago, but elsewhere. It is chiefly due to two causes. Not only has the telephone established itself as a necessity to business and private interests, but it is also owing to the pronounced prosperity which has been general throughout the country. As I said, the growth of the Chicago company in these years has been equal to the entire growth before that time. If this general prosperity, which the country at large is enjoying, should be checked or should cease it would undoubtedly affect the growth of our business. Personally I believe that any material change in the present policy of government would affect all lines of business most disastrously. Ours would suffer with the rest.—John M. Clark, President Chicago Telephone Company.

Our next hope after we got mixed together was that England and France would help us for commercial reasons. Vallandigham, Stevenson and a thousand other Copperheads like the good brethren who held up Joshua's arms, held ours up by encouraging us to hold out a little longer, by denouncing the war a "failure" and keeping us posted as to the movements of our enemies.
