Nine Years Old, Burgundy Eight Years Old, and Claret 16 Years Old. Extensive Wine Cellars.

Storing, Ageing and Racking Wine. Storing, Ageing and Racking Wine.

A wine made one year and sold the next is not a proper wine for invalids; to get rid of its coarse and injurious elements requires years for it to lay in wood casks, and by frequent drawing off from its gross sediment, or the coarse parts it becomes rich and mellow and valuable for invalids. It is sudorific, diuretic and blood making from the iron in the soil of the Speer vineyards in Northern N. J.

The principal varieties are the Port, Burgundy, Sherry and Claret and the Climax brandy. All these wines when stored for years and drawn off from time to time in fresh fumigated casks become vastly superior products and necessarily are more expensive. This is why Speer's wines and Brandy are more costly and so far superior to the California wines. They are absolutely pure; unexcelled by any in the world. Speer's wines are ordered by wealthy and refined families in Europe where they are prescribed by physicians and are any little wint. Special systems and an esteemed for their superiority, velvety roundness, full body and refined flavor. The efficacy of these wines is wonderful. It has bee a study and a pride during Mr. Speer's life to produce a wine of the highest grade of perfection—not so much to make money as to exceed in getting a wine of the richest character. He has spared no labs nor expense in bringing his vineyards and wines up to the above high standard of excellence.
