Identical Notes Sent to the Powers by United States—Appeals for Negotiations on Business-Like Lines.

The secretary of state has addressed an identical note to the powers interested in the Chinese situation setting out tersely and briefly the object of the United States government as to China.

and pointing out how such objects as are common to the powers can best be secured. The note marks the initiation of fresh negotiations on our part on the arrangement of new bases to tide over the impossible situation created at the last meeting of ministers in Peking.

Some responses already are at hand and it is stated that generally our advances have been well received and that state department expresses satisfaction with the progress so far achieved.

It is believed that the note is an appeal from the extreme course suggested by some of the powers as to the treatment of China, especially the matter of punishments and indemnities to which the ministers at Peking seem inclined. The intent is to push the negotiations on more rational and business-like basis.

### KRUGER DEFIES BRITISH POWER

#### NOT YET CONQUERED.

Declares that the Boers Will Fight Until Extinction—France Gave the Boer President a Rousing Reception.

Ex-President Paul Kruger had hardly set foot upon French soil before he reiterated his defiance of Great Britain.

In the speech that he made in response to the welcome, he said in part: "I thank the president of the Marcellus committee and the president of the Chamber of Deputies for the honor of the Boers for their welcome. I am truly proud and happy at having been chosen as my point of landing a port in France, to set foot on free soil and to be received by you as a free man. But my first duty is to thank your government for all the tokens of interest that again only recently it was pleased to show to the Boers."
