Yours for Health
Lydia E. Pinkham

How Truly the Great
Fame of Lydia E. Pink-
ham's Vegetable Com-
pound Justifies Her Orig-
inal Signature.

Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, all Ovarian troubles, Inflammation and Ulceration, Falling and Displacement of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life.

It has cured more cases of Backache and Leucorrhoea than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors.

Irregular, Suppressed or Painful Menstruation, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility quickly yields to it.

Womb troubles, causing pain, weight, and backache, instantly relieved and permanently cured by its use. Under all circumstances it acts in harmony with the laws that govern the female system, and is as harmless as water.

It quickly removes that Bearing-down Feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, Dizziness, Faintness, sleeplessness, flatulency, melancholy or the "blues" and backache. These are sure indications of Female Weakness, or some derangement of the Uterus, which this medicine always cures.

Kidney Complaints and Backache of either sex the Vegetable Compound always cures.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

FALLING HAIR

Prevented by Shampoos of CUTICURA SOAP and light dressings of CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, removes crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

MILLIONS USE CUTICURA SOAP

Assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTICURA SOAP in the form of baths for annoying irritations, inflammations, and excoriations, for too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many antiseptic purposes which readily suggest themselves to women and mothers. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients, and the most refreshing of flower odours. No other medicated soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines, in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, and the BEST toilet and baby soap in the world.

Complete External and Internal Treatment for Every Humour,
Cuticura
The Set of 1

Consisting of CUTICURA SOAP (25c), to cleanse the skin of crusts and scales, and soften the thickened cuticle; CUTICURA OINTMENT (25c), to instantly relieve itching, inflammation, and irritation, and soothe and heal; and CUTICURA RESOLVENT PILLS (25c), to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disgusting, itching, burning, and scaly skin, scalp, and blood humours, rashes, itchings, and irritations, with loss of hair, when all else fails. Sold throughout the world. British Depot: 37 St. Charles Street, London. French Depot: 5 Rue de la Paix, Paris. POTTER DRUG AND CHEM. CO., Sole Props., Boston.

CUTICURA RESOLVENT PILLS (Chocolate Coated) are a new, tasteless, odorless, economical substitute for the celebrated Liquid Cuticura. It is a solvent, as well as for all other blood purifiers and humour cures. Put up in screw-cap bottles, containing 60 doses, price, 50c. CUTICURA PILLS are alterative, antiseptic, tonic, and digestive, and beyond question the purest, sweetest, most successful and economical blood and skin purifier, humour cures, and tonic-digestives yet compounded.

FISO'S CURE FOR
CURDS WHERE ALL ELSE FAILS.
Best Cough Syrup, Taste Good, Use in Time. Sold by Druggists.

POPULAR SCIENCE

Wilhelm Labes, a well-known German zoologist, has just published an interesting book on the Island of Heligoland, in which he states, among other things, that the island is one of the largest graves for birds in the world. Millions of larches, snipes and thrushes are caught there every year. The birds are sold in the many hotels of the islands, and also largely exported to England and the Continent. It is not seldom that from 10,000 to 15,000 are caught and killed in a single night.

The authorities of some of the towns where smallpox has appeared have ordered that all dogs and cats running at large shall be shot. This action is based on the well-established fact that the hair of these animals offers a congenial lodging place for disease germs, and they thus carry them about and increase the spread of contagion. Physicians caution parents not to allow pet dogs or cats to enter the room where a diphtheria or scarlet fever patient is, and not to let their children play with dogs or cats that belong to the families where there has recently been a case of contagious disease.

From the latest reports from Nyasaland it appears that British Central Africa is in a fair way to become an industrial colony soon. The most recent move in the development of the country is a concession which has been granted by the Imperial Government for the construction of a line of railway from Chitromo to Blantyre, connecting the centre of the coffee plantations with the coast by way of the Shire and Zambezi rivers. Operations are expected to begin toward the end of the year, and will probably last for two years or so. Meanwhile, it is stated, experiments are being conducted with a line on the monorail principle, and it is also intended to establish a system of motor trolleys and traction engines for transport work in the protectorate.

Among the many suggestions offered to account for the swift expansion of the nebulous rings surrounding Nova Persei, none seems more captivating to the imagination than that of Professor Kapteyn, who suggests that the phenomenon may be due to the echoing of light. At the probable distance of Nova Persei from the earth the observed velocity of the expansion exactly equals the velocity of light. That being so, it is only necessary to suppose the space surrounding the new star to contain scattered nebulous or meteoric matter, from which the light of the explosion that produced the star is reflected to us at greater and greater distances from the star as the light expands around it. It is like the reflection of the sound of an explosion taking place in a hilly country, and coming to our ears in a succession of echoes as it reaches more and more distant ranges.

The continually increasing demand for india rubber, and the great interest manifested in all efforts to prevent waste of the trees from which rubber is derived, have led our consuls in countries where these trees grow to collect many valuable facts concerning them. Consul Goldschmidt at La Guaira recently transmitted to Washington some highly interesting statements about the rubber, or caoutchouc, trees, of the upper Orinoco by Dr. Lucien Morisse, who has made extensive personal investigations in that region. Dr. Morisse makes the somewhat surprising statement that the prohibition of the Venezuelan Government against the felling of the trees is altogether unnecessary, because "it relates to an immense forest measuring upward of 74,000,000 acres, where caoutchouc exists in abundance, and which it would require millions and millions of hands to exploit, whereas it only contains 3000 or 4000 Indians, not more than the tenth part of whom are engaged in the work."

A Useless Search.
A discussion arose at a meeting of medical men who had assembled at the Philadelphia College of Physicians as to the utility of the X-ray on the battle field, and the surgeon, Dr. W. W. Keen, told this story: "After the battle of Gettysburg a corps under the command of a young physician, who had recently been appointed, was ordered to collect the wounded. Among the disabled was a man who had been shot through the leg. The young doctor proceeded to use his knife. After cutting for half an hour he was interrupted by the young soldier with: 'Say, how much longer are you going to cut?' 'Until I get the bullet,' replied the doctor. 'Why, you fool, if that's what you want I've got it in my pocket.' Sure enough, the bullet had lodged in the skin of the man's leg after passing through, and he had kept it as a souvenir."

Neglected Science For Perambulator.
A man of science and his wife, a college-bred woman with an unabating interest in sociology and reforms, spent three entire evenings in trying to decide what kind of a baby carriage they should purchase for their infant son. The way in which those sober-minded persons went over catalogues and price lists and gravely discussed the comparative advantages of this and that make of carriage was a contradiction of everything that has been said against the baleful influence of the high education upon domesticity.—New York Press.

The population of the German empire includes 3,030,000 who use the Polish language.

BUILDING IS RETARDED.

Demand for Steel Beyond Capacity of Mills—Six Months Deliveries Accepted Only.

R. G. Dun & Co.'s Weekly Review of Trade says: Two large strikes scheduled to commence May 1 were averted at least temporarily and a number of smaller controversies have begun. This labor factor is the only seriously unfavorable one in the industrially unsatisfactory, exacting considerable influence over the volume of transactions, and also tending to unsettle confidence. In seasonable merchandise, especially dry goods and clothing, warmer weather has stimulated dealings while outdoor work is prosecuted vigorously. Collections are more prompt as a rule, fewer extensions being asked. Shipments are less delayed by traffic congestion and railway earnings thus far reported for April exceed last year's by 7.2 per cent. Consumers of finished steel products are compelled to place orders subject to the convenience of manufacturers and it is the exception when any early deliveries are promised. An unprecedented amount of railway work is being done while the erection of new buildings would be much more extensive if material were available. This structural work is on a record-breaking scale and promises relief to the situation hereafter since many of the plants under consideration will add to the productive capacity when completed. Pig iron has worked up to a higher point, Bessemer commanding \$20 at Pittsburgh on deliveries within six months, owing to the full contracts held by the furnaces. Foreign dealers have shown much wisdom by making concessions in this market. Jobbers in dry goods have felt the effects of good weather, and a brisk trade has been done at steady prices, although a general advance has followed the rise in raw cotton or the restricted operations at woolen mills. Cereal prices have been less inflated by speculation than they were last week, yet a high level was maintained and only slight reactions occurred. Good foreign crop conditions were calculated to weaken the tone, yet exports of wheat from the United States, flour included, amounted to 5,579,087 bushels, against 4,122,357 bushels a year ago. Recent attractive prices have brought corn to market more freely than in preceding weeks, but receipts of 1,685,050 bushels for the week fall far short of the 2,378,554 bushels in the same week last year. The comparison as to the Atlantic exports is more striking, only 154,704 bushels going out during the week, against 2,560,211 a year ago. Cotton continued advancing until there was a rain of \$8.10 a bale over last year's figure, when a trifling reaction occurred, but the tone continued strong. Futures in the United States this week were 225, against 212 last week, 261 the preceding week and 226 the corresponding week last year, and in Canada 17, against 18 last week, 24 the preceding week and 24 last year.

Bishop Goe's Heavy Burden.
It may not be generally realized that the Bishop of Melbourne rejoices in the full name of Field Flowers Goe.

PROMINENT PHYSICIANS USE AND ENDORSE PE-RU-NA.

C. B. CHAMBERLIN, M.D.
OF WASHINGTON, D. C.

C. B. Chamberlin, M. D., writes from 14th and P Sts., Washington, D. C.:
"Many cases have come under my observation, where Peruna has benefited and cured. Therefore, I cheerfully recommend it for catarrh and a general tonic."—C. B. CHAMBERLIN, M. D.

Medical Examiner U. S. Treasury.
Dr. Llewellyn Jordan, Medical Examiner of U. S. Treasury Department, graduate of Columbia College, and who served three years at West Point, has the following to say of Peruna:
"Allow me to express my gratitude to you for the benefit derived from your wonderful remedy. One short month has brought forth a vast change and I now consider myself a well man after months of suffering. Follow-sufferers, Peruna will cure you."—Dr. Llewellyn Jordan.
Geo. C. Havener, M. D., of Anacostia, D. C., writes:
The Peruna Medicine Co., Columbus, O.
Gentlemen—"In my practice I have had occasion to frequently prescribe your valuable medicine, and have found its use beneficial, especially in cases of catarrh."—George C. Havener, M. D.
If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.
Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

ALABASTINE A Durable Wall Coating

NOT A KALSOmine

Forms a pure and permanent coating and does not require to be taken off to renew from time to time. Is a dry powder, ready for use by mixing with cold water.

TO THOSE BUILDING

We are experts in the treatment of walls. Write and see how helpful we can be, at no cost to you, in getting beautiful and healthful homes.

ALABASTINE COMPANY, Grand Rapids, Mich.

\$3.00 W. L. DOUGLAS SHOES \$3.50
UNION MADE.
