"Disinfectine" THE MODERN MEDICATED SOAP

MANY DISEASES are caused by microbes and bacilli which lurk everywhere, in paper money, books, paper, carpets, rugs, clothing, on walls, windows, car seats, in toilet rooms, and even in the air we breathe. The hands sometimes or other come in contact with all these articles and surroundings. THE SKIN ABSORBS. The hands are liable to carry the germs with articles of food or otherwise, to the mouth, where the germs are absorbed by the lymphatics and blood vessels, and in this way spread the poisonous germs through the whole system.

WHETHER EXPOSED TO CONTAGION OR NOT, people should always use "Disinfectine" Soap. Teach the child in his schools and households to wash their hands with "Disinfectine" Soap, especially BEFORE MEALS. It is endorsed by the Medical profession everywhere. A public benefactor and scientific preparation worth ten times its price. There is only one "Disinfectine" Soap; all similar brands are imitations. Popular price, 10c. At Druggists and reliable Grocers. See the tags by mail. Satisfaction guaranteed.
