

**"Disinfectine" THE MODERN MEDICATED SOAP**

The Most Wonderful Product of Modern Science

Prevents Contagion

For Toilet, Bath and Shampoo

It is Healing, Soothing and Antiseptic

MANY DISEASES are caused by microbes and bacilli which lurk everywhere; in paper money, books, paper, carpets, rugs, clothing; on walls, windows, car seats, in toilet rooms, and even in the air we breathe. The hands sometimes or other, come in contact with all these articles and surroundings. THE SKIN ABSORBS. The hands are liable to carry the germs with articles of food or otherwise, to the mouth, where the germs are absorbed by the lymphatics and blood vessels, and in this way spread the poisonous germs through the whole system.

WHETHER EXPOSED TO CONTAGION OR NOT, people should always use "Disinfectine" Soap. Teach the children in schools and households to wash their hands with "Disinfectine" Soap, especially BEFORE MEALS. It is endorsed by the Medical profession everywhere. A public benefactor and scientific preparation worth ten times its price. There is only one "Disinfectine" Soap; all other brands are imitations. Popular price, 10c. All druggists and reliable grocers, etc. the cake by mail. Satisfaction guaranteed.

What Our Newly Acquired Possessions are Doing for the Commerce of the United States.

Commerce between the United States and its newly acquired territory is growing with remarkable rapidity. In 1897, the year preceding that in which Porto Rico, Hawaii and the Philippines came under the American flag, the shipments to those islands were, according to the figures of the Treasury Bureau of Statistics, \$8,773,500. In 1901 they were over \$30,000,000, and in the fiscal year just ended they will be, according to the best figures that the Bureau of Statistics can obtain, fully \$35,000,000. To this may be added the estimate of \$15,000,000 of shipments to Alaska in the last year. This would bring the total sales of American goods in the non-contiguous territory of the United States up to about \$50,000,000 in the last fiscal year against \$10,000,000 in that same territory in 1897.

Considering the figures in detail, the Bureau of Statistics finds that the exports from the United States to Porto Rico, which were, in 1897, \$1,988,888, were, in 1900, \$4,640,449; in 1901, \$8,861,917, and as they were \$9,651,000 in the 11 months ending with May, it is safe to assume that the figures for the fiscal year will show a total of over \$10,000,000 of shipments to Porto Rico for the year ending June 30, 1902. To Hawaii, the exports in the fiscal year 1897 were \$4,690,075; by 1899 they had reached \$9,305,430; in 1900—\$13,509,148. Subsequent to that time the Statistics of shipments to Hawaii are based upon estimate supplied by collector of customs at San Francisco and Honolulu and are put at \$20,000,000 as a conservative figure. To the Philippines the exports in 1897 were \$94,597; in 1899 they were \$404,193; in 1900, \$2,640,449; in 1901, \$4,027,064. and in the full fiscal year 1902 will be fully \$5,000,000. To Alaska the shipments in 1894 were, according to the best figures that the Bureau of Statistics has been able to obtain, \$3,924,000, and for the calendar year 1901, \$13,500,000, and for the fiscal year just ended will probably be \$15,000,000, bringing the total shipments from the United States to its non-contiguous territory up to \$50,000,000.

On the import side it may be said that the non-contiguous territory of the United States now supplies \$50,000,000 worth (per annum) of its products for use in the United States. In 1897 the imports from Porto Rico were \$2,181,024; those from Hawaii, \$13,987,799; and from the Philippines, \$4,363,740. By 1900 the imports from Porto Rico had grown to \$3,078,648, from Hawaii, \$20,707,903, and from the Philippines \$5,971,208. In the fiscal year just ended the merchandise received from Porto Rico will be in round terms, \$7,000,000; from the Hawaiian Islands, \$28,000,000; from the Philippines, \$7,000,000, and from Alaska about \$7,000,000 in fish, furs and other products of this character, and an equal amount in gold and silver, thus bringing the total contributions of the non-contiguous territory considerably above \$50,000,000.

During the same time commerce with Asia and Oceania has also increased with very great rapidity, especially the exports. In 1897, exports to Asia and Oceania were \$61,827,678; in 1900, \$108,304,082, and in the fiscal year 1902, the total, including shipments to Hawaiian Islands, will amount to about \$120,000,000.

The anti-expansion mossbacks should go away back and sit down after reading the foregoing statistics.

A Shrewd Clergyman.

We find in Vick's Family Magazine an account of a well-known English dean who had the misfortune to lose his umbrella and in his next sermon in the cathedral contrived to say "that if its present possessor would drop it over the wall of the deanery garden that night he would say no more about it." The next morning he went to the spot and found, not only his own umbrella, but forty-five others. It almost seems as though the forty thieves, described in the "Arabian Nights' Entertainments," must have been in that cathedral.

No False Claims. The proprietors of Foley's Honey and Tar do not advertise this as a "sure cure for consumption." They do not claim it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fails to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes. E. H. Miller.

Martinique May Have Caused Mine Disaster Near Johnstown, Pa. Harrisburg, July 14.—Col. Henry C. Demming, of this city, acting State geologist, has written a letter to Mine Inspector Evans, at Johnstown, suggesting that the apparent uplift of a part of the State of Pennsylvania caused by the recent earthquakes and volcanic eruptions in Martinique and other islands of the West Indies may possibly have been the direct or remote cause of the catastrophe at the Rolling Mill mine.

Col. Demming has also written to Charles D. Wolcott, director of the United States geological survey at Washington, calling attention to several rifts of earth and rock that have been found in Pennsylvania since he made his report in June, also to the record of the mercurial barometer in the United States weather bureau at Harrisburg, which showed that in May and June this city and vicinity had been uplifted seven feet.

Poisoning the System. It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dulness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promoting easy, healthy action of the bowels. These little pills do not act violently, but by strengthening the bowels enable them to perform their own work. Never gripe or distress. E. H. Miller.

Joseph C. Shaw, of Grantsville, the Victim of Thieves.

On the afternoon of the Fourth, Joseph C. Shaw, of Grantsville, was relieved of a gold watch and chain, a ring valued at \$8 and about \$4 in money.

He had been to Grantsville that day and was returning to his home, and when about two miles east of that town he lay down by the side of the National Road and went to sleep. While in that condition a band of gypsies passed by, and it is the opinion of Mr. Shaw that one of the number robbed him. At all events he swore out a search warrant against the band, and placing it in the hands of Constable Stahl he followed them to Frostburg; but the stolen goods could not be found. The man who did the job, so Shaw says, was of dark complexion and was easily recognizable by the marks on his face left by smallpox. This individual was not with the gypsies when the search was made at Frostburg.—Oakland Republican.

Bronchitis for Twenty Years.

Mrs. Minerva Smith, of Danville, Ill., writes: "I had bronchitis for twenty years and never got relief until I used Foley's Honey and Tar which is a sure cure." E. H. Miller.

It is has been decided by Judge John M. Greer, of the Butler county courts, that when one man calls another a liar, within reaching distance of the accused, the latter is warranted in whacking the "allegator" with his fist. This decision was not formally delivered from the bench, but was exemplified by the judge on the street at Butler. Judge Greer was a candidate at the Republican primary for renomination, and in a warm discussion with a member of his own party the above allegation was made and decision rendered.—EX.

Two Bottles Cured Him.

"I was troubled with kidney complaint for about two years," writes A. H. Davis, of Mt. Sterling, Pa., "but two bottles of Foley's Kidney Cure effected a permanent cure." E. H. Miller.

I do not propose to quarrel with my bread and butter, but Swift was in error when he said that bread is the staff of life. Today our bread is so worthless that inventors and physicians are straining their mental capacities to improve on it. They seem drifting back to first principles in whole wheat bread. The bolting cloth is responsible for the dyspepsia that is gnawing the heart out of the American people. In all parts of the country we eat the kernel of the wheat and feed the bran to the cows. Results—cows thrive while we suffer from indigestion. Let us make a change, feed the white flour to the cows and ourselves eat the bran. Americans should live on corn bread, which nature gave them and did not give to European countries.—New York Press.

Cholera Infantum.

This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, as directed with each bottle, and a cure is certain. For sale by E. H. Miller.

**D. DODGE TOMLINSON'S**

Celebrated H. H. H. Medicine is not a mere perfumed lubricating oil, the application of which serves only to amuse and occupy the patient, but is in reality a scientific combination of powerful chemicals and potent drugs, which have the marvelous property of going straight to the seat of the pain, where they act upon the lymphatics in such a manner, that the cause of the pain is absorbed and removed. It does not matter much whether the pain be due to an abnormal swelling, to sprains of the joints or strains of the muscles or tendons, to rheumatism, lumbago, neuralgia, sciatica, to toothache or headache, all of these are quickly relieved by the magic effect of H. H. H. No other medicine or liniment seems to equal it in the rapidity or certainty of its action. Often a single thorough application causes the pain and discomfort to vanish, as if by magic. The H. H. H. is used only externally. It is put up in a 25 cent size and also larger bottles.

The signature and portrait of the inventor, Dr. D. Dodge Tomlinson, 400 North Third St., Philadelphia, Pa., is printed on the wrapper around each bottle. Sold by druggists. A slightly smaller sample vial will be delivered by U. S. Mail on receipt of 25 cents in stamps.
