## A WORD TO WORKERS

Beneficient Results of the Republican Policy of Protection.

VOTE FOR PATTISON DANGEROUS

It Encourages Tariff-Smashers-European Labor Is Underpaid, While American Labor Fares Well-What a Distinguished Financier Says

About the Conditions In Europe and

Pennsylvania voters who contem Pennsylvania voters who contemplate giving their support to Robert E. Pattison, Democrat, should pause a moment before they decide on such a momentous slip. A vote for Pattison is a vote of lack of confidence in Republicanism. It strengthens the hands of the Democrats who seek to tear days our tariff onliey and ruin our

present prosperity.

Particularly, should the voter who has to depend on the toil of his hands for daily bread halt before he makes

down our tariff policy, and ruin our

THE WAGES OF EUROPE. Mr. James R. Keene, the well-known financier, who has just returned from an extended visit to Europe, says the condition of the laboring classes in Hungary, Austria and part of Germany . The rate of wages is really pitiful. barely admits of existence, and when he saw the workmen in those countries he wondered what we would do with-out a tariff. "America is the paradise of earth," declared Mr. Keene. "Here is the greatest return offered to the man who has muscle and brain to mar-ket. Here is the place for the man of ambition to discover that energy and worth find their way to the top more suddenly than anywhere else on earth." This statement of a man of large and

careful observation should command the attention of American workingmen. The more intelligent of them of course know that labor is better rewarded in the United States than in any other country. They know that the wage worker has greater respect here than in any other land. But do they generally appreciate why this is so? Forty-five years ago labor in this country was in about the condition that labor is now in most of the countries of Europe. THE CAUSE OF HARD TIMES.

It was not steady employed and it was poorly paid. In 1855 Horace Greeley wrote: "The cry of hard times reaches us from every part of the country. The making of roads is stopped, factories are closed and houses and ships are no longer being built. Fac-tory hands, roadmakers, carpenters, bricklayers and laborers are idle, and paralysis is rapidly embracing every pursuit in the country. The cause of all this stoppage of circulation is to be found in the steady outflow of gold to pay foreign laborers for the cloth, the shoes, the iron and other things that could be produced by American labor, but which cannot be produced under our present revenue system."

TARIFF FOR REVENUE ONLY.

Then the country had a "Tariff for revenue only," which not only failed to yield sufficient revenue to meet the expenditures of the government, but kept the industries prostrated. In his message to congress in 1857 President Buchanan thus presented the situa-tion: "With unsurpassed plenty in all the productions and all the elements of natural wealth our manufacturers have suspended, our public works are re-tarded, our private enterprises of dif-ferent kinds are abandoned, and thousands of useful laborers are thrown out of employment and reduced to want. We have possessed all these elements of material wealth in rich abundance, and yet, notwithstanding all these advantages, our country, in its monetary interests, is in a deplorable condition." One of the severest panics the country ver experienced was in 1857 and it was particularly disastrous to labor.

FOLEY'S KIDNEY CURE IS 8

A change came with the inauguration of the economic policy of the Republican party and it is needless to point can party and it is needless to point can party and it is needless to point can be considered an enthusiascan party and it is needless to point out what has been accomplished under the operation of that policy for American industries and American labor. All intelligent men are familiar with it and it is this which the wage workers need to bear in mind when they are appealed to to strike down or seriously impair that policy. Labor conditions in the United States may not be in all cases what could be desired. Improve-ment in some respects is to be wished for. But on the whole American labor is vastly better off in every way than is labor in any other part of the world and this is one of the beneficent results. of the policy which has made the United States first among the indus-

PATTISON OPPOSED BY LABOR

Tinplate Workers Urge Wage Earners to Oppose His Election as Governor.
At the recent tin plate conference
of the Amalgamated Association the

following resolutions were passed:—
"Whereas, R. E. Pattison has been selected as one of the candidates for governor of this great commonwealth;

"Whereas, It is well known to organ-ized labor that said R. E. Pattison is a most bitter enemy of organized labor as was evidenced by his action during his ing for a better protection of wages o labor and providing for a better system of collection, and his vetoing House bill No. 626, securing to mechanics and la-borers the right to file liens on real es-

tate for wages due.

"Also by sending troops to Homestead during the strike of 1892, after he had promised a committee of the workmen that no troops would be sent there in view of the fact that Adjutant General Greenland had reported that peace prevailed and that the presence of troops was not necessary for the pre

servation of order; and
"Whereas, It was stated to a committee of citizens of Homestead by
General Snowden, the representative of Governor Pattison, that 'the mills are open, and any one who the company permits to enter to work will be protected by the troops,'
"Therefore, in view of all these facts,

it is resolved by the members of the conference committee and the other members of the Amalgamated Association of Iron, Steel and Tin Workers, that we do condemn unqualifiedly and without reserve, the action of former Governor R. E. Pattison, and we recommend that all union men vote and us their influence to defeat this enemy of organized labor."

The Road to Anarchy.
One of the most dangerous tendencies of modern American life, apparently becoming every day more preva-lent, is the disposition wantonly and recklessly to speak ill of those who are charged with the performance of public duties. Instead of the respect which in the days of our fathers was exhibited toward those selected by the people for office, it is the habit of our time. to offer them only abuse. If we ever succeed in entirely destroying the confidence of the people in those who administer the government we shall have reached the time when the government itself is ready to perish. It is a kind of slander which is closely akin to treason and leads directly on the road to anarchy and the overthrow of our cherished institutions. It is the breed enerished institutions. It is the breeding ground where grow the sentiments and impulses of creatures like Guiteaund Czolgosz.—From Judge Penny packer's Erie speech

Began Where He Left Off.

An old story is told of a boarder who asked for an egg. The waiter asked him how he wanted it cooked. Just than a flash of lightning knocked him senseless, and for eight years he remained unconscious and speechless. He was at last able to speak, and his first word was "poached." It was a case of sus-It was a case of suspended animation and the intervening fore. This reminds us of the Democrat who is again talking free trade. 1894, after the country was wrecked by free trade legislation, the lightning of 1894, after the country was wrecked by free trade legislation, the lightning of public sentiment struck the Democratic party. ### A Weak Stomach

Indigestion is often caused by overeating. An eminent authority says the harm done thus exceeds that from the excessive use of alcohol. Eat all the good food you want but don't overload the stomach. A weak stomach may refuse to digest what you eat. Then you need a good digestant like Kodol, which digests your food without the stomach's aid. This rest and the wholesome tonics Kodol contains soon restore health. Dieting unnecessary. Kodol quickly relieves the feeling of fulness and bloating from which some people suffer after meals. Absolutely cures indigestion.
