THE CORPORATIONS PAY THE TAXES

Under Republican Rule the Burden Is Placed on Them.

CITIZENS PAY NO STATE TAX

Republicans Have Paid Off Over \$40,000,000 of State Debt Left By the Democrats, and Now Pennsylvania Is Free From Debt—Some Figures For Democratic Shouters to Study.

Every home owner in Pennsylvania has a vital interest in the approaching election. It is not only a question of Democrat or Republican, of Pattison or Pennypacker, but it is a matter of dollars and cents to every owner of a foot of land in the commonwealth. It was the Democratic party that plunged the state into a debt of \$40,000,000 that has required forty years of Republican rule to lift. Republicans should not forget this.

And yet in spite of this fact the Republican system of state finances has been the subject of the most persistent attacks from its enemies. Democratic leaders when they assail the Republican financial system in Pennsylvania know that they are deliberately misrepresenting the facts. Unfortunately the public at large does not seem to have a very clear idea of the method by which state taxes are assessed and collected.

Under the wise and beneficent legislation of the Republican party in the past thirty-five years, the burdens of state taxation have been lifted from the shoulders of the individual and placed upon the corporations of the state.

CITIZENS PAY NO STATE TAX.

An impression prevails among the people that they are taxed for all the appropriations made to the public schools, charitable institutions, the judiciary, legislative expenses, the new capitol, etc. As a matter of fact, our citizens pay no state tax except a liquor license tax, and one mill on the dollar where they own personal securities, such as bonds, mortgages, etc. The tax on the same being four mills, three of which are returned to the respective counties. Money for all expenses of the state comes from the corporations.

In direct contrast to this has been the attitude of the Democratic party and its legislation. Before the Republican party came into power all real estate, occupations over \$200.00 per annum, cattle, etc., were taxed by the Democratic party in time of peace; and even with this enormous tax burden it left a debt of over \$40,000,000 in 1860, to be provided for and lifted by the Republican party. And the Republican party has redeemed the credit of the state; it stands to-day before the world free from debt.

MISLEADING TAX RECEIPTS.

The manner in which the various collectors of taxes of the commonwealth have their bills and receipts printed is largely responsible for the misapprehension that exists in the minds of the people upon this question of state taxation. In almost every instance instead of having a separate item for state taxes to be used where the person has money at interest subject to taxation, and not otherwise, almost all bills that are sent out by the tax collectors have one item entitled "State and County Tax." Opposite this head is placed the amount of the county tax, and the person receiving the bill is naturally under the impression that the amount charged represents a combination of state and county taxes, and if questioned upon this point the answer is always the production of a tax receipt showing the payment of a certain sum of money under the head of "State and County Tax." The taxes paid to the various local collectors, under the designation "State and County Tax," go directly into the county treasury for the exclusive use of the county authorities.

The constant aim of Republican legislation has been to relieve the individual taxpayer. Prior to 1883 the indigent insane in the asylums of the state were wholly supported by the various local municipalities. This was a burden upon the individual taxpayer. As the state debt was reduced under the judicious management, it was believed that the commonwealth could afford to assist the counties in the support and maintenance of their unfortunate poor. By the Act of June 13th, 1883, the expense of the care and treatment of the insane poor of the state was equally divided between the state and the several counties. The amount paid by the state since 1885 under this act amounts to \$10,525,000, more than \$650,000 annually.

HELPING THE TOWNSHIPS.

Just as the burden of taxation has been lifted to the shoulders of the state to that extent have the townships, cities and counties been aided and overburdened real estate owners assisted. In the two items of indigent insane and public schools, the state pays out of its treasury nearly \$8,000,000 a year. To that extent every home-owner in the commonwealth is correspondingly benefited.

By the Revenue Act of June 8th, 1891, three-fourths of the personal property tax is returned to the respective counties. The amount returned for the year ending November 30th, 1895, at the close of the Democratic administration was \$1,575,019.70. The amount of personal tax returned to the several counties for the year ending November 30th, 1901, was \$2,572,675.00.

Under the act of June 9th, 1891, the

liquor licenses were taken from the state and given to the different localities. This was an additional benefit to the taxpayer because prior to that all liquor licenses had been paid into the state treasury. They amount to about \$2,000,000 annually.

In addition to all these things the state pays the entire cost of the judiciary which amounts to upwards of half a million annually.

INTERESTING FIGURES.

The following is a partial list of the amount paid out of the treasury of the state for the benefit of the different localities and municipalities:

Amount paid annually since 1883, for the indigent insane.....	\$658,000
Amount paid annually for common schools.....	7,015,720
Amount of personal tax returned.....	2,572,675
Liquor licenses diverted from the state to the local treasuries.....	2,000,000
Amount paid to support the Judiciary, annually.....	652,652
The amount paid annually by the state for local purposes.....	\$12,899,057
Annual saving on account of the exemption from taxation of real estate, horses and cattle, and trades, occupations and professions.....	7,000,000
Total annual saving to the respective localities, annually, since the Republicans assumed the control of the state affairs.....	\$19,899,057

Prior to the passage of the Act of 1885 the whole amount of moneyed capital returned for the purpose of state taxation was but \$145,000,000. In that year, even under the imperfect working of the act, the amount returned for taxation was \$395,000,000, an increase of \$250,000,000. According to the auditor general's report of 1901 the amount of the four mill tax on personal property amounted to \$2,563,375.02, and of this tax there was returned to the several counties \$2,572,675.42.

These facts and figures speak for themselves. They are more impressive than any words could possibly be in demonstrating what the Republican party has done in the way of lifting the burden of state taxation from the shoulders of the small home owner and farmer.

WHAT CORPORATIONS PAY.

The total revenue of the state during the year ending December 31, 1901, was \$17,727,432. Of this amount \$10,307,433 was derived directly from the corporations by the various forms of taxation imposed upon these artificial bodies.

The only direct taxation affecting the individual was that upon money at interest, from which the state collected \$2,563,375, as stated above. This in reality is not a state but a local tax, collected by the state and returned to the various municipalities. The aggregate revenue of the commonwealth for 1901 after deducting the personal tax refunded, was \$15,154,757, of which amount the corporations paid \$10,307,433; \$2,452,201 was derived from licenses; \$1,232,082 from the tax on collateral inheritance. These three items amounted to \$13,991,716, leaving the sum of \$1,163,041 received from a variety of sources none of them affecting the individual citizen.

It will be seen therefore, that out of the entire revenue of the commonwealth the only portion that could be contorted into a direct tax upon the citizen was that part of the money at interest not returned to the municipalities amounting to one-fourth of the total collected from that source and amounting to the insignificant sum of about 10 cents per annum for each person.

BROWN'S LABOR RECORD

He Has Always Defended the Rights of the Workingman.

Hon. W. M. Brown, candidate for lieutenant governor, has always been the friend of labor. He is a self-made man himself, having been a shepherd on the plains when he was 15 years of age.

On March 11 1897 (while a member of the senate), on the discussion of the resolution to investigate the industrial conditions in the bituminous coal region, Senator Brown offered the following amendment:

"That a committee of three of the house and two of the senate be appointed to investigate the anthracite coal regions under the resolution, and a committee of three of the house and two of the senate be appointed to investigate the bituminous coal region, with the recommendation that members of both houses be selected from the standing committees of both houses on mines and mining."

Later, in the discussion on the same resolution, Mr. Brown said: "Mr. President, I stated yesterday, when this resolution was referred to the committee on mines and mining, that I was in favor of the resolution. I was in favor of the investigation. I meant what I said then. I mean it now. If these people want investigation, I am perfectly willing to give it to them in a business way. I desire to disclaim any factional idea as controlling this important question. This affects the homes and interests of labor classes in this commonwealth. I do not wish to pose as a demagogue, but if anything can be done in any way to alleviate any suffering, or correct any evils that may arise, I believe that it should be done."

A Wonderful Work.

To be a man who can excel one hundred thousand men in any one line is good; to be one in a million is better; but to be the only living man, (and the second one in the world), who has drawn a perfect picture, is wonderful! This Mr. Fleming, author and illustrator of "Around the Pan," and "The Capital," has done in his drawing of the best Japanese. His "Around the Pan" is a full-page Wash ink sketches and figures of prominent Americans, including the states and commanders of the Spanish-American War—comprising by far the greatest and faces ever produced in condensed form, will interest the entire civilized world. The drawings equal, if they surpass, those of John Ten work he was Queen Victoria. The humor is in the SENATOR QUAY. THE MUTE. The Star at Pennsylvania. PUBLISHING COMPANY, NEW YORK, U. S. A.
