

GOVERNOR OF OREGON

Uses Pe-ru-na in His Family For Colds and Grip.

CAPITOL BUILDING, SALEM, OREGON.

A Letter From the Executive Office of Oregon.

Pe-ru-na is known from the Atlantic to the Pacific. Letters of congratulation and commendation testifying to the merits of Pe-ru-na as a catarrh remedy are pouring in from every State in the Union. Dr. Hartman is receiving hundreds of such letters daily. All classes write these letters, from the highest to the lowest.

The outdoor laborer, the indoor artisan, the clerk, the editor, the statesman, the preacher, all agree that Pe-ru-na is the catarrh remedy of the age. The stage and rostrum, recognizing catarrh as their greatest enemy, are especially enthusiastic in their praise and testimony.

Any man who wishes perfect health must be entirely free from catarrh. Catarrh is well-nigh universal; almost omnipresent. Pe-ru-na is the only absolute safeguard known. A cold is the beginning of catarrh. To prevent colds, to cure colds, is to cheat catarrh out of its victims. Pe-ru-na not only cures catarrh, but prevents. Every household should be supplied with this great remedy for coughs, colds and so forth.

The Governor of Oregon is an ardent admirer of Pe-ru-na. He keeps it continually

in the house. In a recent letter to Dr. Hartman he says:

STATE OF OREGON,
EXECUTIVE DEPARTMENT,
SALEM, May 9, 1908.

Dear Sirs—I have had occasion to use your Pe-ru-na medicine in my family for colds, and it proved to be an excellent remedy. I have not had occasion to use it for other ailments.

Yours very truly,
W. M. Lord.

It will be noticed that the Governor says he has not had occasion to use Pe-ru-na for other ailments. The reason for this is most other ailments begin with a cold. Using Pe-ru-na to promptly cure colds, he protects his family against other ailments. This is exactly what every family in the United States should do. Keep Pe-ru-na in the house. Use it for colds, colds, influenza, and other ailments of the winter, and there will be no other ailments in the house. Such families should have in the house a copy of Dr. Hartman's free book, entitled "Winter Catarrh." Address Dr. Hartman, Columbus, Ohio.

REVIEW OF TRADE.

Railroads Overtaxed—Best Evidence of a Continuation of the Business Boom.

R. G. Dun & Co.'s Weekly Review of Trade says: "No better evidence of industrial and commercial activity is needed than present inadequate transporting facilities. Every form of railway equipment has been increased and perfected during the past few years to an extent that appeared almost excessive, yet the Nation's business has more than kept pace. Unseasonable mild weather has retarded retail trade at many points, yet the movement of goods is fully sustained by undiminished preparations for future sales. Distribution delayed by high temperature is not lost, while the agricultural community will profit materially by the tardiness of frost, increasing their ability to consume the products of factories and mills. Labor is more fully employed than at any recent date, only a few small controversies interrupting. Money market pressure has been removed, and although securities do not respond, legitimate trade is not retarded by quiet speculation. Earnings of the railways during October thus far exceed last year's by 4.5 per cent, and those of 1907 by 19 per cent. Coke is still the vital factor in the iron and steel situation. Not only has no improvement occurred, but the supply of fuel is falling further behind and the outlook is alarming. Pig iron is in great demand, imports promising to continue large, and as the higher duty on steel will not be exacted, there is reason to anticipate a liberal movement to Germany. The demand for rails is so great that large purchases abroad are being negotiated, while practically all railway supplies find a eager market. Structural shapes and other heavy lines of steel are in a strong position, but there is evidence of irregularity in wire rods, and actual weakness in a few lines that are now offered freely. Tin plate manufacturers are making a hard fight to secure the large foreign business done here under the drawback arrangement, and a new method of production is being perfected that promises to cheapen the cost. Failures for the week number 232 in the United States, against 240 last year, and 22 in Canada, compared with 29 in 1901.

Care in Packing Good Fruit.

In a recent report by Secretary of Agriculture Wilson regarding the results from shipments of fruit to England he states that the returns from two lots of pears were 60 per cent. more for the lot that was packed after each specimen was wrapped in oiled paper. It may be said that this result was largely due to the fact that our English friends were not familiar with fruit put up in this manner and bought it because of the novel way of packing. Possibly there is something in this, but, on the other hand, it has been demonstrated time and again that there is a market for good fruit put up in attractive form. Fruit not put to pack inferior fruit in this manner, for it would kill the market, but the very care taken to pack the fruit attractively indicates to the buyer that it is likely to be superior to that packed in the ordinary manner, hence he is willing to pay the additional price asked for it. If one has some especially good specimens it will cost but a few dollars for paper and baskets to try the plan extensively and prove its value.

The Good Woman's Wish.

Archbishop-elect John M. Farley enjoys a good story as well as the next, and when passing a social hour sometimes recounts his experiences. At a dinner given to the Very Rev. Dean Liags in Yonkers several weeks ago the Bishop related the following to the delight of the assembled guests: "It was generally after I had been made vicar general or monsignor—I do not remember which—when an aged Irish woman encountered me on the street. She was a good old soul and had been a member of our parish church for years. Grasping me by the hand, she remarked: 'Oh, father, and sure the Lord bless you; I hear they gave you a rise.' I replied that her information was correct. 'Well,' she responded, 'am I pleased for that; it's yourself that deserves the rise.' I thanked the good woman sincerely, and was about to leave her, when, still holding my hand, she remarked: 'And all I hope is that the next rise they give you will be to heaven.'"

Web-Spining by Red Ants.

A remarkable exhibition of the web-spinning powers of the red ant (Coquillettia smaragdina) has been reported by Mr. E. G. Green, of the botanical gardens at Peradeniya, Ceylon. A breach having been made in a structure of leaves on which they were at work, the ants quickly drew the edges of the leaves together, and about an hour afterward they were seen to be passing back and forth across the gap two white grubs from whose mouths issued continuous threads of silk that the ants were using to repair the damage. The larvae had evidently been brought from a nest some distance away.

In cases where bronchitis has become chronic from want of proper treatment in the earlier stages, there is nothing so good as Dr. August Koenig's Hamburg Brest Tea, in conjunction with that which is strongly advised the use of St. Jacobs Oil as an outward application along the front of the throat, from close up under the chin to well down to the top of the chest; the one remedy assists the other, and as intended, they work in complete union. The wonderful penetrating power of St. Jacobs Oil enables it to reach the adhesion of foreign matter which lines the bronchial tubes and which makes breathing more and more difficult. As these adhesions become inflamed and enlarged, St. Jacobs Oil causes such adhesions to break away, making expectoration easier and more free. Dr. August Koenig's Hamburg Brest Tea, drank slowly and very hot, soothes and heals the parts, is comforting and quieting, stops the cough and relieves the breathing. This manner of treatment (and there is no other two remedies that will work together so successfully) reaches the difficulty from the outside and the inside at the same time. St. Jacobs Oil reaches the roots of the adhesion, and assists Dr. August Koenig's Hamburg Brest Tea in clearing them; then both remedies act in union in healing and curing. The above remarks apply with equal force in cases of asthma, croup, whooping cough, enlarged tonsils and all bronchial affections. Every family should have St. Jacobs Oil and Dr. August Koenig's Hamburg Brest Tea always in the house in order that they may be promptly used in the first stages. Often the maladies develop with wonderful rapidity, and complications take place with equal suddenness.

The British public use up nearly 800 tons of cardboard yearly in the form of post-cards.

The Press an Americanizer.

The progress of Americanization of the thousands of immigrants to this country advances naturally because of association, but another factor is hinted at in the report of the census bureau on the newspapers printed in the United States there were published in 1900, 17,194 papers in English, as against 13,848 in 1890, an increase of about 24 per cent. During the same period the number printed in other tongues declined from 1,062 to 1,028, although the number of immigrants increased 1,210,538 during the decade. The inference from these comparisons is that more of the foreign population are reading the publications printed in English, and in this way learning faster the language and customs of the country, and that they are inclined to assimilate the languages with which they are familiar. As to the nationalities that are making the greatest progress in this direction it would appear, from the decline in their papers, that the Dutch are in the lead, notwithstanding that they are inclined to settle in colonies, where the tendency naturally would be to continue the customs and language of the mother country. Next to these are the French, most of whom are from Canada, and are fast becoming Americanized, even in many cases to the adoption of American names. The Germans also are quick to learn the language of the country, and there are 114 fewer papers printed in German than there were 10 years ago.

June Tint Butter Color makes top of the market butter.

June Tint Butter Color makes top of the market butter.

Mrs. Tupman, a prominent lady of Richmond, Va., a great sufferer with woman's troubles, tells of her cure by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—For some years I suffered with backache, severe bearing-down pains, leucorrhoea, and falling of the womb. I tried many remedies, but nothing gave any positive relief. "I commenced taking Lydia E. Pinkham's Vegetable Compound in June, 1901. When I had taken the first half bottle, I felt a vast improvement, and have now taken ten bottles with the result that I feel like a new woman. When I commenced taking the Vegetable Compound I felt all worn out and was fast approaching complete nervous collapse. I weighed only 95 pounds. Now I weigh 109 pounds and am improving every day. I gladly testify to the benefits received."—Mrs. R. C. TUPMAN, 423 West 30th St., Richmond, Va.

When a medicine has been successful in more than a million cases, is it justice to yourself to say, without trying it, "I do not believe it would help me?" Surely you cannot wish to remain weak and sick and discouraged, exhausted with each day's work. You have some encouragement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

Mrs. W. H. Pelham, Jr., 108 E. Baker St., Richmond, Va., says: "DEAR MRS. PINKHAM:—I must say that I do not believe there is any female medicine to compare with Lydia E. Pinkham's Vegetable Compound, and I return to you my heartfelt thanks for what your medicine has done for me. Before taking the Vegetable Compound I was so badly off that I thought I could not live much longer. The little work I had to do was a burden to me. I suffered with irregular menstruation and leucorrhoea, which caused an irritation of the parts. I looked like one who had consumed, but I do not look like that now, and I owe it all to your wonderful medicine."

Be it, therefore, believed by all women who are ill that Lydia E. Pinkham's Vegetable Compound is the medicine they should take. It has stood the test of time, and it has hundreds of thousands of cures to its credit. Women should consider it unwise to use any other medicine.

Mrs. Pinkham, whose address is Lynn, Mass., will answer cheerfully and without cost all letters addressed to her by sick women. Perhaps she has just the knowledge that will help your case—try her to-day—it costs nothing.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Silk is considered unclean by the Mohammedans, because it is the product of a worm.

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh, Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: S. J. CHERRY & Co., Toledo, O.

Sold by Druggists, 75c. Hall's Family Pills are the best.

There are no less than 3292 different species of fish inhabiting the waters of America north of the Isthmus of Panama.

FIT'S permanently cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Sent in bottles and treated from Dr. B. H. KLINE, Ltd., 931 Arch St., Phila., Pa.

When a fellow proposes he expects the girl to take him at his word.

Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c. a bottle.

The truth is not always pleasant, and that's why it is generally told.

Disco's Cure is the best medicine we ever used for all affections of the throat and lungs.—War. O. ENDSLEY, Vanburen, Ind., Feb. 10, 1900.

American shoes are worn by thousands of Europeans in their native lands.

RISO'S CURE FOR CONSUMPTION. CURES WHERE ALL ELSE FAILS. Best Cough Syrup, Tastes Good. Use as directed. 25c. a bottle.

THE WORLD'S COFFEE SUPPLY.

Three-Fourths of All That is Used Comes From Brazil.

Coffee was originally indigenous to Abyssinia, from whence it was introduced in Ceylon and Java, but since its introduction into the West Indies and South America by the Portuguese, its cultivation in its native home has been completely neglected. Brazil is now the most important coffee producing country of the world, producing according to the "Government Crop Reporter" almost three-fourths of the annual crop. Brazil's position with reference to the coffee market is much like that which this country occupies as regards corn. Similarly, while Chicago is the chief corn mart of the world, Santos, in the State of San Paulo, Brazil, is the chief coffee mart. From this point about one-third of the world's coffee commerce originates.

How to Prove a Diamond's Worth.

In detecting a false gem from a genuine, the X-ray can be relied on with absolute certainty. Diamonds, as is well known, are pure carbon, and carbon, which is opaque to the ordinary light, is transparent to the Roentgen light, while glass, which is transparent to ordinary light, is opaque to the Roentgen ray. On an X-ray photograph of a real diamond nothing will show but the shadow of the gold setting.

Cascarels CANDY CATHARTIC. BEST FOR THE BOWELS. Genuine stamped C.C.C. Never sold in bulk. Beware of the dealer who tries to sell "something just as good."
