If you have a bad cold you need a good reliable medicine like Chamberlain's Cough Remedy to loosen and relieve it, and to allay the irritation and inflammation of the throat and lungs. The soothing and healing properties of this remedy and the quick cures which it effects make it a favorite everywhere. For sale by E. H. Miller. 11-27

Mr. John Wilson, who for some time had been stenographer for the W. K. Niver Coal Company, at Niverton, has resigned to accept a similar position with a firm in West Virginia. His many friends in this vicinity are all sorry that Mr. Wilson has decided to leave us, as he is a very popular young man and made many friends here.

There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure. E. H. Miller. 11-27

"One of my children was taken with cramp colic and suffered severely," says S. B. Elzee, of Monett, Mo. "I telephoned for a doctor, then gave a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and a few minutes later a second dose. Before the doctor came the child was relieved." For sale by E. H. Miller. 11-27

The wife of A. F. John, the well known capitalist, died last Saturday morning at the Johnstown Memorial Hospital. The deceased was sick for about two months and some time ago had a surgical operation performed. She is survived by her husband, four daughters and two sons. Interment was made at Meyersdale, Monday, where the John family used to reside.

Robt. H. Johnston, the manager of the Merchants Coal Company's store at Tunnelton, W. Va., is to take charge of the said company's Salisbury store about Nov. 15th. Mr. A. H. Shumaker, the present manager of the Salisbury store, will take charge of the Tunnelton store. Mr. Johnston's many friends are pleased to know that he will return to our town with his family, but the many friends of Mr. Shumaker and family will be sorry to see them leave our town.

A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Keller, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by E. H. Miller. 11-27

Arthur Emerick, who some time ago secured a job as brakeman with the Pennsylvania Railroad Company, had the misfortune to get into a bad wreck some time ago, but escaped injury. Two freight trains collided, which was the result of the crew Emerick was with being asleep in the caboose. The boys had a long, hard run and were supposed to get along without sleep for about 48 hours. That is almost impossible to do, but when trainmen succumb to sleep, they usually get a lay-off, which was the case with young Emerick, who has decided to quit railroad-ing and has secured employment with the W. K. Niver Coal Company at Donaldton.

Asleep Amid Flames.

Breaking into a blazing home, some firemen lately dragged the sleeping inmates from death. Fancied security, and death near. It's that way when you neglect coughs and colds. Don't do it. Dr. King's New Discovery for Consumption gives perfect protection against all throat, chest and lung troubles. Keep it near, and avoid suffering, death, and doctor's bills. A teaspoonful stops a late cough, persistent use the most stubborn. Harmless and nice tasting, it's guaranteed to satisfy by E. H. Miller. Price, 50 cents and \$1.00. Trial bottles free.

Boys Assault a Schoolma'am.

Miss Sue Engle, who is teaching school in Meyersdale, met with very rough treatment, last Friday evening, at the hands of a number of Meyersdale boys. A day or two before, Miss Engle had threatened to punish an unruly schoolboy when he came to school the next morning, but the boy failed to put in his appearance, and the next evening while Miss Engle and Miss Nellie Dom were on their way to their boarding house, a gang of boys suddenly stepped up to Miss Engle and assailed her with cabbage roots and other missiles. They beat her shamefully and also smeared her all over with flour paste, which they had evidently prepared for the occasion. One of the assailants, we understand, was the boy who had been scheduled for a whipping in school, and it is likely that he was the instigator of the assault upon the teacher.

Miss Engle fell in a swoon when she reached her boarding place, and for several days was confined to her bed, while a \$20-suit she had worn was completely ruined.

On Monday morning Mrs. John J. Engle, of Elk Lick township, who is the mother of the teacher, appeared before Esquire Levi Lichter and made information against the following named lads: Wm. and Allen Hocking, Clara Finegan, Edgar Douglas, Stanley Stumm, Lester Cover, Roy Stahl, Henry Stemmler, Newton Miller, Earl Hinsh, Bernard Cox and a son of H. J. Wilmoth.

The information was sent to Esquire Wm. B. Book, of Meyersdale, who was authorized to issue warrants for the arrest of the young fiends.

We have since heard nothing further of the matter, and it is probable that the parents of the young hopefuls have made satisfaction with the school teacher, as some of them are among Meyersdale's most prominent people.

The Best Remedy for Croup.

From the Atchison Kan., Daily Globe. This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost, in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mothers say that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by E. H. Miller.

A Startling Surprise.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve indigestion and give perfect health. Try them. Only 50 cents at E. H. Miller's drug store.

"Jake" Beal Offers a Soft Snap.

Jacob Beal, of Coal Run, who is one of the most noted 'coon hunters in the state, has a finely bred young 'coon dog that he would like to have some one train for him. He says he hasn't got time to train the dog himself, but requests THE STAR to announce that he will furnish gun, ammunition, board, lodging and three drinks of whiskey per day, all free, for a month or two, to any experienced 'coon hunter who will come to his house, take charge of the dog and see that he gets a good, practical 'coon education. "Jake" is certainly offering a good lay-out, and we would accept it ourselves, but we are afraid we couldn't do anything but the eating and drinking.

Physicians Prescribe It.

Many broad minded physicians prescribe Foley's Honey and Tar, as they never found so safe and reliable a remedy for throat and lung troubles as this great medicine. E. H. Miller.

Officer Joy Scores Another Victory.

This week two Frostburg Jews came to Salisbury and began selling rugs. They carried their goods right with them and sold as they went. They had no license to sell their goods, and therefore were violating a state law.

Policeman Joy placed them under arrest, but all of a sudden they leaped into their buggy and went out of town at a speed that would put the average race horse to shame. The next day, however, Mr. Joy got a warrant and went after them. He caught up with them near the Moser bridge, about two miles north of town. He told them to consider themselves under arrest, but they gave their horse the whip and tried to escape. Mr. Joy, who was also driving a fast horse, started in pursuit, calling upon them repeatedly to halt.

The race was fast and furious, but the Jews refused to halt and submit to arrest. As a last resort the officer shot the horse the two men were driving, the ball striking him in the thick flesh of one of the hind legs. This took place at the Moser cut, but even the shooting did not stop the Jews. They urged their horse forward by vigorously applying the whip, crossing the S. P. Maust bridge and making for Frostburg via the John J. Engle mill. Beyond Engle's, however, they turned off on a wrong road and ran into a rock quarry where a lot of men were at work. This brought the offenders to bay and the officer did the rest.

Calvin Engle was deputized to help bring them to town, which he did, and the two men were lodged in the borough cooler. They were given a hearing before Burgess Livengood for violating two borough ordinances, namely: Peddling without a license and fast and furious driving in the borough. They refused to pay their fine, saying it looked as though they would have to go to jail, anyway, for violating a state law. For the latter offense they were required by Squire Lowry to give bond in the sum of \$300 for their appearance at court. No one here would go on their bond, but as we are about to go to press we are informed that a bondsman is on his way from Frostburg to help them out. We are also informed that when the bondsman arrives here Mr. Joy will bring two more charges against the prisoners, one for resisting arrest and one for cruelty to animals. Next week we will publish the final outcome of the affair.

It is exceedingly dangerous to monkey with a buzz saw, and it is also dangerous to defy the law when old Joe Joy gets after a violator, as many "smart alecks" and would-be bad men have learned to their sorrow.

Cured of piles After 40 Years.

Mr. C. Haney, of Geneva, Ohio, had the piles for forty years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name of Dr. DeWitt on the package—all others are cheap, worthless counterfeits. E. H. Miller.

World's Production of Coal in 1901.

The forthcoming volume of Mineral Resources of the United States for the Calendar Year 1901, United States Geological Survey, estimates the world's production of coal in 1901 at 896,165,540 short tons. The three great coal-producing countries of the world are the United States, Great Britain and Germany. The output of these three countries combined makes up 81.6 per cent. of the world's total. Austria-Hungary comes fourth, France is fifth, Belgium sixth, and Russia seventh. The last country, notwithstanding its vast area, produces only about 6 per cent. as much coal as the United States. The three countries which lead in the production of coal are the three countries that lead in industrial development. Prior to 1899, Great Britain led among the world's coal producers, but during 1899, 1900 and 1901 the United States has made such remarkable increases in coal production, due principally to the unprecedented activity in the iron and steel and in other metal trades, that we now stand far in the lead of all competitors, with a production in 1901 exceeding that of Great Britain by 47,965,938 short tons, or 19 per cent. Up to the close of 1900 the coal production of Great Britain and her colonies, if taken together, still exceeded that of the United States, the excess in 1900 being 3,368,825 short tons; but the enormous output of the coal mines of this country last year exceeded by about 26,000,000 short tons the entire output of Great Britain and her dependencies, including India and the Transvaal.

Of the output of coal in 1901, the United States produced 33.88 per cent., Great Britain and her dependencies 30.88 per cent., and Germany 19.42 per cent. of the total production.

A Policeman's Testimony.

J. N. Patterson, night policeman of Nashua, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." E. H. Miller.
