

THE SOMERSET COUNTY STAR

P. L. LIVENGOOD, Editor and Publisher.

Entered at the Postoffice at Elk Lick, Pa. as mail matter of the Second Class.

Subscription Rates.

THE STAR is published every Thursday at Elk Lick, Somerset County, Pa., at the following rates:
One year, if paid spot cash in advance, \$1.25
If not paid strictly in advance, 1.50
Six months, if paid spot cash in advance, .75
If not paid strictly in advance, .95
Three months, cash in advance, .45
Single copies, .05
To avoid multiplicity of small accounts, all subscriptions for three months or less must be paid in advance. These rates and terms will be rigidly adhered to.

Advertising Rates.

Transient Reading Notices, 5 cents a line each insertion. To regular advertisers, 5 cents a line for first insertion and 3 cents a line for each succeeding insertion. No business locals will be mixed with local news items or editorial matter for less than 10 cents a line for each insertion, except on yearly contracts.
Rates for Display Advertisements will be made known on application.
Paid Editorial Puffs, invariably 10 cents a line.
Legal Advertisements at legal rates.
Marriage, Birth and Death Notices not exceeding fifteen lines, inserted free. All additional lines, 5 cents each.
Cards of Thanks will be published free for persons of the paper. Non-patrons will be charged 10 cents a line.
Resolutions of Respect will be published for 2 cents a line.
All advertisements will be run and charged for until ordered discontinued.
No advertisement will be taken for less than 25 cents.

LOCAL AND GENERAL NEWS.

If you are bilious and seeking advisors, Take DeWitt's Little Early Risers.

You will find on the morrow,
You are rid of your sorrow—
That's all; just enough said.

These famous pills do not gripe, but move the bowels gently and easily, cleansing the liver. Their tonic effect gives strength to the glands, preventing a return of the disorder. E. H. Miller. 11-27

Mrs. George Fogle and daughters went to Johnstown, last Saturday, to visit relatives for several days.

Foley's Honey and Tar always stops the cough and heals the lungs. Refuse substitutes. 11-27

Mr. Henry A. Reitz, formerly of West Salisbury, Pa., but now of Johnstown, was visiting friends in Salisbury during the past week.

Foley's Honey and Tar for coughs and colds; reliable, tried and tested, safe and sure. E. H. Miller. 11-27

Jacob Emerick has fully recovered from his recent severe illness, and last Saturday he returned to Courtney, Pa., where he has employment.

There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure. E. H. Miller. 11-27

A new postoffice has been established at Jennings, Md., with C. H. Jennings as postmaster. Elk Lick postoffice is the distributing office for the new office across the line.

W. A. Herren, of Finch, Ark., writes, "I wish to report that Foley's Kidney Cure has cured a terrible case of kidney and bladder trouble that two doctors had given up." E. H. Miller. 27

The Republicans of Garrett county, Md., carried every voting precinct in that county at the last election. That is the best kind of evidence that Garrett county is feeling the benefits of Republican prosperity.

"Barney" Krause has been appointed truant officer of this borough, and it is now up to parents to see that their children are regular attendants at school. "Barney" will be on the lookout for all youngsters that indulge in playing "hook."

It is not generally known that size for size, a thread of spider silk is decidedly tougher than a bar of steel. An ordinary thread will bear a weight of about three grains. This is just about 50 per cent stronger than a steel thread of the same thickness.—Ex.

The figures prove that October was the busiest month at the Babcock Lumber Company's Ashtola plant. During the month the output, which smashed records, was as follows: Lumber, 6,234,852 feet; lath, 1,294,100 feet; shingles, 478,500 feet; slabwood, 749 25-100 cords.

The Jews who were arrested in Salisbury, last week, for peddling without license, paid \$67.45 in fines and costs and took their departure. They saw they were up against the real thing and would get more trouble than they were looking for if they didn't "whack up."

If you have a bad cold you need a good reliable medicine like Chamberlain's Cough Remedy to loosen and relieve it, and to allay the irritation and inflammation of the throat and lungs. The soothing and healing properties of this remedy and the quick cures which it effects make it a favorite everywhere. For sale by E. H. Miller. 11-27

A Mr. Shields, living near Headsville, W. Va., while going over his farm recently came across a turtle which had the following inscription on its back: "J. W. Y., 1872." Clerk of the Court John W. Young when a young man worked on a farm there and remembers cutting his initials on the turtle. Now he wants to get possession of the "gentleman."—Cumberland Courier.

"One of my children was taken with cramp colic and suffered severely," says S. B. Elzee, of Monett, Mo. "I telephoned for a doctor, then gave a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and a few minutes later a second dose. Before the doctor came the child was relieved." For sale by E. H. Miller. 11-27

At a joint-meeting of the County Commissioners and Auditors held recently at the Court House, the compensation of the County Treasurer for three years, beginning the first Monday in January next, was fixed at 2 per cent, the same as at present. The County Treasurer's office has gotten to be one of the best paying offices in the Court House.

Our old friend Wm. Kann, of Garrett, is in town today, shaking hands with his many friends. Mr. Kann says Garrett is booming and going right ahead by leaps and bounds. He and his sons are kept busy right along, building new houses, and we will vouch for it that the houses they build are built right. They are all good mechanics and good fellows.

John Wagaman, of Quemahoning township, one of our County Commissioners, is carrying his right arm in a sling as the result of being bitten in that member at his home the other day by a pet dog. Mr. Wagaman at first paid little attention to the wound, but the arm began to swell. Mr. Wagaman thinks cold has caused the trouble more than the poison of the dog's bite.

George Tedrow, of Coal Run, was in town a few days ago and reported eighteen 'coons captured thus far by the Coal Run 'coon hunters, this season. A gang of Salisbury 'coon hunters went out some time ago and chased a 'coon up a very large tree. Then they all sat down and waited for daylight. But before morning dawned the animal up the tree made good his escape. Some 'coon hunters drink the wrong kind of whisky and can't keep awake.

The great number of pheasants being brought to town has created a supply far ahead of the demand, with prices away down as the result. Last year at this time the birds were bringing ninety cents to one dollar each. Since the enactment of the law prohibiting shipment outside of the county, conditions have changed, and as a result twenty-five cents each for the birds is the top notch price, and they seem to be a drag on the market at that.—Oakland Republican.

George W. Harrison, aged thirty, was killed at Westport, Md., recently in a peculiar manner. He was in his room, and in turning on the electric light the glass broke, causing his hand to come in contact with the wire, which had crossed a live arc wire. He was assistant to his father, Capt. George Harrison, General Passenger Agent of the West Virginia Central Railroad. Mr. Harrison was a nephew of Capt. C. J. Harrison, of Somerset.

About seventy friends of Mr. and Mrs. H. A. Reitz, of Ferndale, surprised that couple, Saturday evening, in honor of the forty-third anniversary of Mr. Reitz's birth. A substantial token of the esteem in which Mr. Reitz is held by his friends was the handsome quartered-oak leather cushion chair which was presented to him by the company. Music, parlor games, and refreshments combined to make the evening pass very pleasantly and swiftly, and it was with genuine regret that the party broke up at a late hour.—Johnstown Tribune.

The latest move in local financial circles is the intended conversion of the old established bank of S. Philson & Co. into a National Bank. The application has already gone in for a charter, the stipulated amount of stock being promptly subscribed upon announcement of the intention to form the new national. There is a very general distribution of the stock within Berlin and the surrounding territory and it was necessary to restrict applications to keep the stock down to the limit of \$50,000 at which the concern is to be capitalized. The name of the new concern is to be the Philson National Bank.—Berlin Record.

A 10,000-acre tract of coal land in Preston county, W. Va., has been purchased and will be operated by a company incorporated under the laws of that state, known as the Livengood Coal & Coke Company and capitalized at \$25,000. The company is officered by the following well-known financiers: Samuel D. Livengood, President; Chas. Lanz, Vice President, Pittsburg; W. J. Weixel, Secretary, Pittsburg; and Hugo O. Lorentz, Cashier of the Farmers' National Bank of Meyersdale, Treasurer; Executive Committee, Charles Lanz, Fred Rowe, and John L. Barchus.

A department store in New York announced in the newspapers of the city one day last month that it would give a stick-pin with the class number on it to the children in every grade in the public schools, if each child would mail a postal card asking for it. A hundred and sixty-five thousand postal cards were received in response to the advertisement, which seems to indicate, among other things, that when something is offered for nothing there is no lack of people ready to accept it. Incidentally, also, it suggests that advertisements are read, and that in turn suggests that advertising pays.

The town of Berlin, which for years had been the Democratic stronghold of Somerset county, is rapidly forsaking her democracy. At the last election the town was carried by some of the Republican candidates, and the average majority by which some of the Democrats carried it was only about nine. Berlin is becoming quite an industrial center, and in towns of that kind Democratic supremacy cannot continue very long. Hurrah for Berlin!

A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Kellar, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by E. H. Miller. 11-27

Now is the time to dispense with the useless things, says an exchange, which fill the wardrobes, closets, chests and discarded household goods at the top of the house faded with age and white with dust. A great many women who are clamoring for more space can easily have their desire gratified by merely getting rid of clothes and furniture for which they have not the slightest practical use, yet these are permitted to stand year after year in solemn useless grandeur. It is well enough to retain those articles which can be used, but when their days of service are over, give them away or send to the rummage sales.

A Fayette woman suspected that her husband was in the habit of kissing the hired girl and resolved to detect him in the act. Saturday night she saw him pass quietly into the kitchen. The hired girl was out and the kitchen dark. The jealous wife took a few matches in her hand, and hastily placing a shawl over her head, as the hired girl often did, entered the back door, and immediately she was seized and kissed and embraced in an ardent manner. With heart almost bursting the wife prepared to administer a terrible rebuke to the faithless spouse, and, tearing herself away from his fond embrace, she struck a match and stood face to face with—the hired man.—Salisbury (Kan.) Press-Spectator.

An exchange remarks: The young man of today is just what he makes himself. Good and evil alike spread out before him. He may choose the good and be a great and useful man, or he may choose the evil and be a pest to creation. Ancestors, education and wealth count for but little. There are no heirs to the throne of America. It is strange, but true. The great men of today were the poor boys fifty years ago. No president has a direct descendant to be president. Few senators have ever seen their sons hold positions of honor and trust. The boy that will be president forty years from now may be plowing corn today. The boy that is honest, energetic and determined, gets there. The boy who is dishonest, dissipated, slothful and without purpose is worse than a failure. The possibilities for good or evil of an American boy are unlimited.

N. Y. Board of Health on Wine.

Dr. James, of the New York Board of Health, says: "I take pleasure in testifying to the superior qualities of the wine produced by Alfred Speer. I recommend it as a superior wine for the sick and debilitated. I have been through the acres of vineyards and the winery during the wine making and am satisfied as to the purity of Speer's Wines."

More Mines to be Opened at Garrett.

Preparations are being made for the opening up of 1600-acre tract of coal land at Garrett by the Hocking-Black Coal Company. This company recently acquired this vast coal field at a remarkably small outlay—said to be but \$25 per acre. The vein is a 4-foot one and will be easily mined. Alfred E. Jones, acting fire boss for the Pittsburg Coal Company at West Newton, has been made general superintendent of the new company. Mr. Jones will resign his position with the Pittsburg Coal Company November 1, and take active charge of the opening of the mines.

A slope 1,700 feet long will have to be excavated. The company intends to install all the most modern electrical machinery, including a 20-ton electric motor for drawing the coal up the slope. Several 5-ton motors will be used in the mines for gathering the cars together. The company expects to mine 2,500 tons of coal a day when in full operation, which will be in the early spring, says the Somerset Herald.

Startling, But True.
"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turner, Dempsytown, Pa., "you'd sell all you have in a day. Two weeks' use has made a new man of me." Infallible for constipation, stomach and liver troubles. 25 cents at E. H. Miller's drug store.

A Startling Surprise.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the Kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve indigestion and give perfect health. Try them. Only 50 cents at E. H. Miller's drug store.

Three From the Rockwood Gazette.

The editor wrote an item last week to the effect that the turnip crop is ripening, and the compositor, who had just finished putting in type the announcement of six births, made it read, "The baby crop is ripening." To complete our distress at the blunder, three-fifths of the women in town have given us the stony stare, with a nervous twitch heavenward of a scornful nose, as we pass by. Who can measure the depths of our despair? or lift from our soul the burden of our chagrin?

Judson Newman met with a painful accident about 8 o'clock, Thursday morning, while working in his father's coal mine, a fall of slate lacerating and crushing the flesh from the bone of his right leg just below the knee to an extent of four inches. He was brought to Dr. Masters' office where the injured limb was promptly dressed, four stitches being required to close up the wound. He is a son of A. G. Newman, an enterprising farmer who resides about two miles north of Rockwood.

W. G. Younkin has leased his coal and fire clay lands on the royalty plan to a company of Baltimore capitalists, who are now at work driving a heading for coal. They will also put in a large brick plant, we are informed, and operate both on an immense scale. The property is about a half mile west of Rockwood, across the river. These new industries will surely give a mighty impetus to Rockwood's prosperity, and a thriving addition to our town will undoubtedly be built across the river in Black township, next year. Already several fine residences have been erected over there and several are in contemplation or already building, and it is said a business street will be opened up there in the spring. We believe the opening of this new section will solve the problem of Rockwood's future growth and prosperity, for it will place business and residence property on the market for what it is worth, and prohibitive prices will not be demanded for property, such as is now the case in the present business center, and which has seriously retarded the growth of our town.

Cured of piles After 40 Years.

Mr. C. Haney, of Geneva, Ohio, had the piles for forty years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name of DeWitt on the package—all others are cheap, worthless counterfeits. E. H. Miller.

A Sample of Cumberland Rot.

If Pattison should be elected governor of Pennsylvania, which is today probable, it would be such a triumph of honesty over rascality in politics as this country has rarely witnessed.—Cumberland Courier, Nov. 4th.

Highly probable indeed! Ye gods, ye gods! If a Pennsylvanian had made such a statement as the above, his sanity would have been questioned, and justly so. What the Courier man doesn't know about Pennsylvania, her honest men and her politics, would fill a volume as large as the little state of Maryland. Why is it, anyway, that Prohibitionists of the Courier man's stripe always show such strong Democratic leanings and insist on spouting about topics and men they know nothing about?

A Policeman's Testimony.

J. N. Patterson, night policeman of Nashua, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." E. H. Miller.

November Crop Report.

Following is the November crop report sent out by the United States Department of Agriculture. It shows the average yield of four products for the year 1902 as compared with the yield of same products for the year 1901.

	1902	1901
Corn, av. yield per acre, bushels, 238	167	
Buckwheat, av. yield per acre, 181	186	
Potatoes, average yield per acre, 95.4	65.5	
Hay, average yield per acre, tons, 1.51	1.28	

WANTED!—A good, practical printer. One who has only good habits and is not afraid of work. We have steady work and good pay for the right man. No bums or drunkards need apply. Good treatment, good wages and prompt pay is the policy we do business on. For full particulars call on or address at once THE STAR, Elk Lick, Pa.
