

DOCTORS FALL IN LINE.

Practicing Physicians recognize the unfailing reliability of Doan's Kidney Pills by prescribing them for Backache, Kidney, Bladder and Urinary Disorders—a tribute won by no other Proprietary Medicine. Four cases cited from "Notes of His Practice," by Dr. Leland Williamson, of Yorktown, Ark.

FOSTER-MILBURN Co., Buffalo, N. Y.

YORKTOWN, ARK., Mar. 1, 1904.

Gentlemen:—I have been engaged in the practice of medicine in this section for ten years. This is a very sickly climate, on the Bayou Bartholomew, near the Arkansas River. It is particularly malarious and miasmatic; we meet with many and various abnormal conditions of the human family; prominent among the cases in which I have been called upon to prescribe is kidney disease. Many of these disorders manifest themselves by pains in the back, often extending to other parts of the body; sometimes headache is present, caused by uraemic or chronic uric acid poisoning, soreness in region of kidneys, cloudy, thickened and foul-smelling urine, discharges of pus or corruption; inflammation of the kidneys, extending to the bladder, is caused by excess of uric acid and decomposition of the urine. Hemorrhage is sometimes met with, caused by high state of inflammation or congestion.

There is no class of diseases a doctor is called oftener to treat than the variety of kidney diseases, in many of which the patient will have chills or rigors, followed by fever, a result of the kidneys failing to eliminate the uric acid poison from the system. Such cases require the kidneys restored to their natural functions, then the poison and foreign substances are removed—shock to the nervous system averted and natural health restored.

I have, for some time, been using Doan's Kidney Pills in these many manifestations and with uniform success, curing most cases. I can further say that even in hopeless cases where they have waited too long, Doan's Kidney Pills afford much relief and prolong life. I can recommend the pills in conditions of excessive or deficient secretion of urine, as also in convalescence from swamp-fever and malarial attacks, as verified by the following cases in my practice.

CASE 1.

THOS. ORELL, Bear, Ark., age 60. Pain in back for several weeks, then chills, irregular sometimes, severe rigors followed by fever. Gave good purgative of calomel and padoph, and Doan's Kidney Pills. After taking four boxes of the pills, patient up and enjoying good health for one of his age.

CASE 2.

Mrs. SMITH, Tarry, Ark., age 29, mother of four children. Had female complaint and kidney trouble, manifest by pain in back and urine irregular, sometimes very clear, changing to cloudy, and with much sediment on standing in chamber. Gave local treatment for female complaint and prescribed Doan's Pills; after using six boxes she regards herself as cured.

CASE 3.

BROWN EAKS, Wynne, Ark., age 21. Had severe case of malarial hematuria or swamp fever. Gave necessary liver medicine, calomel and padoph, and morph-sulph, to relieve pain, and ordered Doan's Pills for the high state of congestion and inflammation of the kidneys. Recovery resulted in two weeks. Prescribed Doan's Kidney Pills to be continued until the kidneys were thoroughly strengthened and all pain in back subsided.

CASE 4.

ELIJAH ELLIOTT, Tarry, Ark., age 34. Pain in back and legs and headache. Uric acid poisoning. Prescribed Doan's Kidney Pills. After taking several boxes pain subsided—urine became normal, or natural, and patient able to resume his work.

These are a few of the typical cases in which I have used Doan's Kidney Pills. In a great many instances I use them alone with curative results, while with some others indicated remedies are associated.

I believe that by the judicious use of Doan's Pills many serious complications are arrested and many hopeless and incurable cases of Bright's disease prevented.

I have often found that one box of the pills is all that is required to effect a cure, but in some cases I continue their use until all symptoms are entirely absent and the cure effectual and permanent.

A free trial of this great kidney and bladder specific can be obtained by addressing Foster-Milburn Co., Buffalo, N. Y. The regular size is 50 cents per box. If you prefer to buy by mail, charges prepaid, on receipt of price.

Dr. Leland Williamson,

THE COST OF WAR.

Wars of the last 3,000 years are supposed to have cost \$600,000,000,000. Each man who falls on the battlefield costs \$2,740 to kill, and the countries of Europe to-day are paying to maintain an "armed neutrality" the small sum of \$50 a second.

Sr Cavendish Boyle, governor of Newfoundland, has sent \$1,000 to the lord mayor of London, this being Newfoundland's contribution to the imperial memorial to Victoria.

The Church of England enjoys an income of about one million dollars per week.

Miss M. Cartledge gives some helpful advice to young girls. Her letter is but one of thousands which prove that nothing is so helpful to young girls who are just arriving at the period of womanhood as Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I cannot praise Lydia E. Pinkham's Vegetable Compound too highly, for it is the only medicine I ever tried which cured me. I suffered much from my first menstrual period. I felt so weak and dizzy at times I could not pursue my studies with the usual interest. My thoughts became sluggish. I had headaches, backaches and sinking spells, also pains in the back and lower limbs. In fact, I was sick all over. Finally, after many other remedies had been tried, we were advised to get Lydia E. Pinkham's Vegetable Compound, and I am pleased to say that after taking it only two weeks, a wonderful change for the better took place, and in a short time I was in perfect health. I felt buoyant, full of life, and found all work a pastime. I am indeed glad to tell my experience with Lydia E. Pinkham's Vegetable Compound, and I made a different girl of me. Yours very truly, MISS M. CARTLIDGE, 533 Whitehall St., Atlanta, Ga." —\$5000 forfeit if original of above letter proving genuineness cannot be produced.

LEGAL ADVICE

From competent lawyers. No publicity. Write us the facts of your case and we will advise as to the law governing it and the best course to pursue. Enclose money order for \$1.00. No additional charges.

FINANCE AND TRADE REVIEW

PIG IRON MARKET BETTER.

Demand from Railroads Increased—Spring Weather Will Revive Building Trades.

R. G. Dun & Co.'s "Weekly Review of Trade" says: In addition to the interruption of a holiday, trade and transportation have again suffered because of severe weather and much outdoor work was forced to await more favorable conditions. Development of spring trade is naturally slow, but this may be fully made up as the season advances. Manufacturing plants are gradually restoring idle machinery, and there is more disposition to anticipate future requirements. Staple commodities are still inflated by war and manipulation, making it extremely difficult to ascertain the actual legitimate situation. Foreign commerce at New York for the last week shows a loss of \$2,489,799 in exports and a decrease of \$2,549,762 in imports, as compared with the same week last year. Finances abroad were badly demoralized at the close of the last week, and several important failures have since occurred, but there was no reflection in this country, and money continued easy. Aside from some special pressure to sell foundry iron in order to meet one payment, the market for pig iron is steady, though quietly expanding. Mild weather will soon revive much postponed structural work, and already the requirements of the railroads are being felt. Bars are bought by implement makers and other works, and for plates and sheets the inquiries are increasing. Coal operators complain of the car shortage, which is seriously retarding shipments, and there is urgency for delivery of other fuel supplies of household sizes of coal being unusually low for the season. Minor metals are dull. Changes from day to day in the leading commodities indicate an unwholesome and undesirable situation that is due to speculation and that is calculated to check or divert consumption. Liabilities of commercial failures thus far reported for February aggregated \$10,796,166 of which \$7,232,478 were in manufacturing, \$4,290,325 in trading and \$3,773,453 in other commercial lines.

Failures this week numbered 340 in the United States, against 211 last year, and 22 in Canada, compared with 28 a year ago.

Bradstreet's will say: Manufacturing industry shows some enlargement of activity. The bituminous coal outlook is additionally unsatisfactory, because it is almost universally believed that a strike against reduction of wages will occur on April 1 in West Virginia, Pennsylvania and the West Virginia fields.

King Edward has knighted James Knowles, editor of the Nineteenth Century Review for over twenty-five years. The new knight gets kings, queens, statesmen, swamis, priests, soldiers, explorers, and so on, to write for his periodical.

Less than 7 per cent of the power used in manufacturing plants in the United States is electric.

A COMRADE OF GENERAL GRANT

Says: "I Do Not Believe Pe-ru-na Has a Superior for Catarrh."

BENJAMIN F. HAWKES.
Benjamin F. Hawkes, of Washington, D. C., is One of the Three Living Comrades of General Grant in His Cadet Days at West Point.

In a recent letter from 611 G street, S. W., Washington, D. C., this venerable gentleman says of Pe-ru-na:
"I have tried Pe-ru-na after having tried in vain other remedies for catarrh, and I can say without reservation that I never felt a symptom of relief until I had given Pe-ru-na the simple trial that its advocates advise. I do not believe it is a superior, either as a remedy for catarrh or as a tonic for the depressed and exhausted condition which is one of the effects of the disease."—Benjamin F. Hawkes.

ISAAC BROCK, a citizen of McLennan County, Texas, has lived for 72 years. In speaking of his good health and extreme old age, Mr. Brock says:
"Pe-ru-na exactly meets all my requirements. It protects me from the evil effects of sudden changes; it keeps me in good appetite; it gives me strength; it keeps my blood in good circulation."

ALABASTINE

The Durable Wall Coating.
Won't Rub Off.

WHY?
Because it cements to, and is not stuck on the wall with scabbing, animal glue, or the various so-called "wall finishes," which are kalsomines sold under fanciful names.

You can apply Alabastine.

ALABASTINE

The Only Sanitary and Permanent Wall Coating

ALABASTINE is not a disease-breeding, hot water glue wall finish, furnishing a lodgment and harbor-ground for disease germs. It is a natural, rock-base composition, in white and many exquisitely beautiful tints; in powder form ready for use by simply mixing with cold water. Anyone can brush it on.

ALABASTINE cements to walls, destroys disease germs and vermin, and never rubs off or scales. Other wall coatings, under fanciful names, and usually mixed with hot water, are unhealthful kalsomines, stuck on the wall with glue, which soon rots, nourishes germs of deadly diseases, and sends, spoiling walls, clothing and furniture. When it is necessary to refinish, the old coats must be washed off—an expensive, nasty, disagreeable job, making the rooms damp and unfit to live in.

When walls are once coated with Alabastine, succeeding coats may be applied, year after year, without washing the walls, thus saving great expense and annoyance.

Hot and Cold Water Kalsomines Have No Merit

Some dealers try to sell them, buying them cheap, and trying to sell on Alabastine's demand until such time as their customers learn of the imposition.

THEY ARE WORTHLESS PREPARATIONS

If you cannot buy Alabastine of your hardware, paint or drug dealer, refuse all imitations, and write us. We will tell you where you can get Alabastine without delay, or sell it to you direct. \$500.00 GIVEN AWAY. Write for particulars.

Leaflet of dainty tints, hints on decorating, and our artists' up-to-date ideas on beautifying the home. Free. Buy Alabastine only in packages, properly labeled.

Alabastine Company GRAND RAPIDS, MICH. and 105 Water St., New York City.

Cornell Incubator Advancement.

The Cornell patented system of temperature regulation and perfect ventilation. The Cornell ventilator is Nature's way. Gets the right air in any location—at any season of the year. Healthiest and most economical chicks ever obtained by artificial incubation.
