

SKIN HUMORS

Complete External and Internal Treatment

ONE DOLLAR

Consisting of Cuticura Soap

to cleanse the skin of crusts and scales, and soften the thickened cuticle; CUTICURA Ointment to instantly allay itching, irritation, and inflammation, and soothe and heal; and CUTICURA Pills to cool and cleanse the blood and expel humor germs. A SINGLE SET, costing but ONE DOLLAR, is often sufficient to cure the most torturing, disfiguring skin, scalp and blood humors, eczemas, rashes, itching, and irritations, with loss of hair, from infancy to age, when the best physicians and all other remedies fail.

Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c.) per unit of treatment. Soap 25c. Depot: London, 27, Chatterhouse St.; Paris, 5 Rue de la Paix; Boston, 137 Columbus Ave.; Portland, Me., 130 Commercial St.; Toronto, 130 St. George St. See How to Cure Acne, etc., in our new pamphlet "How to Cure Acne, etc." containing a full and complete list of ailments cured by Cuticura Soap and Pills.

Through the "Soo" in 1903 passed 35,000,000 tons of freight—three times as much as was carried on the Suez Canal.

Billion Dollar Grass and Alfalfa.
When we introduced Billion Dollar Grass three years ago, little did we dream it would be the most talked of grass in America, the biggest, quickest, hay producer on earth. But this has come to pass. Agr. Editors wrote about it, Agr. College Professors lectured about it, Agr. Institute Orators talked about it, while in the farm home by the quiet fireside, in the corner grocery, in the village postoffice, at the creamery, at the depot, in fact wherever farmers gathered, Salzer's Billion Dollar Grass, that wonderful grass, good for 5 to 14 tons per acre, and lots of pasture besides, is always a theme worthy of the farmer's voice.
A. Waldorf, Westlone Farms, Pa., writes: "I have 60 acres in Salzer's Alfalfa Clover. It is immense. I cut three crops this season and have lots of pasture besides." JUST SEND THIS NOTICE AND 10c. IN STAMPS to the John A. Salzer Seed Co., La Crosse, Wis., and receive their big catalog and lots of farm seed samples free. [A.C.L.]

H. P. Green's Sons, of Atlanta, Ga., are the only successful Dropsy Specialists in the world. See their liberal offer in advertisement in another column of this paper.

Nothing hurts a small man so much as to have people ignore his throat.
In spite of the hard times experienced in Johannesburg it is estimated that \$2500 nightly is spent there in amusement.

Farm Topics

LICE ON POULTRY.

You cannot succeed with your poultry if they are infested with lice. If your building is infested, you may be sure that your birds are. It is not difficult to rid the building of lice. It is more difficult to rid the birds of the pests. The building can be white-washed with a mixture containing carbolic acid, or can be sprayed with kerosene. Keeping the building thoroughly clean, there is less danger of lice. To remove the lice from the birds, buy pyrethrum costing ten cents a pound. With a small hand bellows blow this powder into the feathers, under the wings, etc., to the skin of the birds, repeating the process to the end of a week. Eggs will not be produced if the hens are covered with lice. Look out for the old nests where hens have set, since these are liable to be infested.—Green's Fruit Grower.

HOME MADE HAND CART.

There is scarcely a farm where a hand cart built after the plan shown in the illustration would not save its cost many times over during the year. If there are no old wheels on the farm the local blacksmith doubtless has them and would be glad to sell them cheap. Obtain a set of old wheels, but strong ones, with the axle in good condition, and have the blacksmith bend this axle down at the hubs so that it will be about five or six inches below a line of the hubs. Roughly figuring, this will give space for a

A HANDY CART.

box three feet wide; its length should be proportionate, or about four and one-half feet.
Bolt the box to the axle, and arrange a leg in front, as shown, so that it will work as on a pivot, permitting the front of the cart to be dropped to the ground. The handle should be placed at the angle shown, so that it will not interfere with the box of the cart when it is let down. The box may be made at home, so that the cart ought not to cost but a small sum.—Indianapolis News.

WHAT TO TEACH THE BOYS.

Teach them to plow thoroughly, and well.
To chop with both the right and the left hand.
To sow grain broadcast, as well as with the drill.
To run the reaper, the mower and the binder.
To milk a cow clean. (This you can not do unless you know how yourself.)
To feed the cows, horses and other stock right. (You may be absent sometimes and need to have the help of the boys.)
To drive the horse on the road and on the farm safely.
To harness the horse and to care for them in the stable.
To bring in the wood for night without being reminded of it every time.
To hoe corn and potatoes and to dig them in their season.
To hang up their hats when they come into the house.
To be polite at the table.
To speak respectfully to every one, young and old.
To read, not simply story books, but the papers of the day and best current literature.
To be neat and clean in their habits of dress.
To keep things "sleeked up" in their rooms.
To love the truth always.
To deal honestly with all men.
To be good citizens, loving their country and respecting its institutions.
To seek the fellowship of good men, good books and good things in nature.—Farm Journal.

HORSE NOTES.

High-tempered, sensitive horses are more easily spoiled by too much talking than slow, quiet horses.
Too much concentrated food, too generous keep and too nice, comfortable stables are often forerunners of disaster to the brood mare.
The constitution of the horses may be weakened by making them carry a burden of useless flesh. Keep off surplus fat by feeding muscle-producing foods.
Feed a little oil meal to the horses during the winter. It assists the digestion of other food, liberates the bowels and keeps them in excellent condition.
It is a good plan now on the farm to select out a team to do the necessary work during the winter. If this is done the other horses will not require as heavy feeding of grain to keep in a good condition.
A horse in poor condition recently refused to put on an ounce of flesh with usual feeding until some steamed cracked corn and a cup of molasses were added to his diet. The corn and molasses were given twice each day, in addition to his oats.
A London firm of tea dealers has been fined for including in the weight of packages of tea sold the weight of the paper wrapper.

FINANCE AND TRADE REVIEW

THE OUTLOOK IMPROVING.

Notable Activity in Merchant Pipes, Plates and Bars—Big Purchase of Bessemer Pig Iron.

R. G. Dun & Co.'s "Weekly Review of Trade" says: Business continues to improve, despite the difficulty of low temperature and high prices. Weather conditions have been singularly unpropitious, deep snow retarding distribution of merchandise and excessive cold delaying the opening of spring trade and structural work. Yet retailers are making extensive preparations and plans are submitted for numerous building operations. Prospects have improved on the Pacific coast, where much-needed rain has fallen, and reports from the South indicate exceptional prosperity. Buyers continue to arrive at the leading markets, but the volume of trade is restricted by high prices, particularly for cotton goods. Railway earnings for February were 2.2 per cent less than last year, bad weather restricting traffic. It may be said with some degree of assurance that the iron and steel industry has made further progress in the right direction and the prospects is brighter than it has been at any time during the winter. Gains are small, it is true, and there are several disturbing features, yet the presence of purchasers in all divisions of the market promises to restore activity. Certain special branches of the industry are notably vigorous, strength and activity appearing in merchant pipe, plates and bars. A large purchase of Bessemer pig iron was made by the leading interest at \$13, valley furnace, equivalent to \$13,000,000, at Pittsburg.

Bradstreet's says: Among the industries reports indicate more activity in iron and steel and prices of some grades of iron are firmer, but the iron ore situation is not yet settled; the coke supply is insufficient and a soft coal strike overhangs Western industry generally. The agricultural situation on the whole is one of great strength, and a record-breaking acreage will go into cotton. The features in iron and steel have been the purchase of nearly 100,000 tons by the leading interest and reports of other sales aggregating as much more. This has had the effect of stiffening merchant furnace men's views and establishing prices at \$13 for Bessemer. Finished products return rather more favorable reports. Pittsburg reporting all modern mills running to their full capacity, while Chicago reports increased sales of bars, steel rails and structural. There is a good demand for pipe and higher prices are looked for. Wire nails are selling freely at the advance and hardware is slightly better at the West.

We have never heard that the David Harum book had been translated into Japanese, but the military and naval officers of Japan seem to be thoroughly imbued with the maxim: "Do unto others as they would do unto you, and do it first."—Duluth News-Tribune.

Sir Samuel Montagu has placed at the disposal of the London county council \$50,000 for workmen's cottages at Edmonton.

HOW TWO BEAUTIFUL WOMEN ESCAPED DREAD CATARRH BY USE OF PE-RU-NA.

Catarrh Robs Women of Health and Beauty. Pe-ru-na Makes Women Healthy and Beautiful.

Miss Amanda Johnson, Fairchild, Wis., writes: "I write to tell you how much Pe-ru-na benefited me. For a number of years I had pain in my head around my eyes, and I thought it was because my eyes needed treatment, so I went to an oculist and had glasses fitted to my eyes and wore them for some time, but it no relief whatever. In fact, I felt worse than before, and came to the conclusion that the trouble was not with my eyes, but with my head and that it must be catarrh. As so many of my friends had used Pe-ru-na with benefit for this trouble, I thought I would try it. I was not sorry that I did so, for in a short time I began to improve, and in four weeks my eyes were in splendid condition, my general health was much improved and all the catarrh of the head was gone. I was glad to get rid of this trouble, and am glad to endorse such a good medicine as Pe-ru-na."—Miss Amanda Johnson.

I was not sorry that I did so, for in a short time I began to improve, and in four weeks my eyes were in splendid condition, my general health was much improved and all the catarrh of the head was gone. I was glad to get rid of this trouble, and am glad to endorse such a good medicine as Pe-ru-na."—Miss Amanda Johnson.

Miss Flora Hauser, 1032 S. New Jersey street, Indianapolis, Ind., writes: "I think I must have been troubled with catarrh ever since I was very young, aggravated each time I caught a cold. This did not prove sufficiently serious to be obnoxious until last winter. Then my head and nose were so stopped up that I felt I must do something. Pe-ru-na was recommended to me by a friend. I used it for four weeks, and found to my relief that it cured me. I have not had a bit of trouble since. My head is clear, and I can safely affirm that Pe-ru-na cured me."—Miss Flora Hauser.

Many a girl has regained her faded beauty, many a matron has lengthened the days of her comely appearance by using Pe-ru-na. This remedy, popularly known as Pe-ru-na, is the most famous remedy for catarrh in existence. Probably there is not a man or woman, boy or girl within the bounds of the United States that has not heard of Pe-ru-na. By far the largest majority have used Pe-ru-na.

The multitude of people that have been cured of chronic catarrh by using Pe-ru-na can never be known.

Dr. Hartman has probably done more than any other physician toward popularizing a means of escape from the facial deformities, such as watery eyes, twisted nose, offensive breath, dry cracked lips, due to the ravaging effects of catarrh. He has made chronic catarrh a life-long study. His remedy, popularly known as Pe-ru-na, is the most famous remedy for catarrh in existence.

While it is true that Pe-ru-na cures catarrh wherever located, yet it is advisable for everyone to use Pe-ru-na as a preventive and not wait until catarrh has fastened itself in some part of the system.

Pe-ru-na acts quickly and beneficially on the inflamed mucous membranes lining the different organs of the body. Thus it will cure catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Pe-ru-na acts quickly and beneficially on the inflamed mucous membranes lining the different organs of the body. Thus it will cure catarrh wherever located.

RENDERS INSURANCE INVALID

Massachusetts Court Gives Decision As To Steeplechasing.
In a decision handed down the Supreme Court defined steeplechasing as a "voluntary exposure to unnecessary danger" and upheld the right of an insurance company to cancel an accident policy issued to Harry W. Smith, of Grafton, a well known sportsman upon learning that the latter engaged in steeplechase races. The case grew out of a suit brought in the lower court by Mr. Smith to recover a policy which he claimed had been surrendered without his knowledge by his clerk upon the demand of the insurance company. A finding for the company in the Superior Court was sustained.

To Weld Aluminum.

Welding aluminum is said to be successfully accomplished by a process recently developed in Germany. Hitherto the difficulty in welding this metal has been that it becomes brittle and "rotten" when approaching its melting point, but it has now been found that there is a temperature, just below incandescence, where the metal softens sufficiently to make sound welds possible. As the metal does not oxidize at this temperature no flux is required. It is said that with careful working welds may be produced which cannot be detected by the eye and which are equal in strength to the body of the bar.

10,000 Plants For 10c.

This is a remarkable offer the John A. Salzer Seed Co., La Crosse, Wis., makes. They will send you their big plant and seed catalog, together with enough seed to grow
1,000 fine solid Cabbages,
2,000 delicious Carrots,
2,000 Blanching, nutty Celery,
2,000 rich, buttery Lettuce,
1,000 splendid Onions,
1,000 rare, luscious Radishes,
1,000 gloriously brilliant Flowers.
This great offer is made in order to induce you to try their warranted seeds, for when you once plant them you will grow no others, and
ALL FOR BUT 10c. POSTAGE,
providing you will return this notice, and if you will send them 20c. in postage, they will add to the above a package of the famous Berliner Cauliflower. [A.C.L.]

No oculist can remedy the short sightedness of a selfish person.

POTNAM FADELESS DYES do not stain the hands or spot the kettle, except green and purple.

Many a man who refuses to believe the truth will swallow a lie.

Six hundred thousand acres of India's best land, says a circular issued by the Christian Union against the opium traffic, are used by the government for the cultivation of opium, the great bulk of which goes to China.

CAPSICUM VASELINE
(PUT UP IN COLLAPSIBLE TUBES)
A substitute for and superior to mustard or any other plaster, and will not blister the most delicate skin. The pain-relieving and curative qualities of this article are wonderful. It will stop the toothache at once, and relieve headache and neuralgia. We recommend it as the best and safest external counter-irritant known, also as an external remedy for pains in the chest and stomach, all rheumatic, neuritic and gouty complaints. A trial will prove what we claim for it, and it will be found to be invaluable in the household. Many people say "It is the best of all my preparations." Price 5c. Best of all drugs or other dealers, or by sending this amount in postage stamps to J. H. F. JACOBS, 125 Broadway, N. Y. City. This same carries on label, as otherwise it is not genuine. **CHESTERBROUGH MED. CO.**, 17 State Street, New York City.

MOTHER GRAY'S SWEET POWDERS FOR CHILDREN.
Cures Coughs, Croup, Whooping Cough, Bronchitis, Hoarseness, Sore Throat, Stomach Troubles, Teething, Diarrhoea, Cholera Infantum, and Diarrhoea. Mothers, Gray's Sweet Powders are a Child's Best Friend. They Break up Colds, Cures a Child in 24 Hours, and Destroy the Germ that causes Cholera Infantum, and Diarrhoea. Sample mailed FREE. Address: **W. L. DAVIS, N. Y. City.**
