With the advent of universal peace there will be nothing left for the military man but marriage.

"Dear Mrs. Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham:—I was married for several years and no children blessed my home. The doctor said I had a complication of female troubles and I could not have any children unless I could be cured. He tried to cure me, but after experimenting for several months, my husband became disgusted, and one night when we noticed the testimoniat of a woman who had bee cured of similar trouble through the use of Lydia E. Pinkham's Vegretable Compound, he went out and bought a bottle for me. I used your medicine for three and one-half months, improving steadily in health, and in twenty-two months a child came. I cannot fully express the joy and thankfulness that is in my heart. Our home is a different place now, as we have something to live for, and all the credit is due to Lydia E. Pinkham's Vegetable Compound. Yours very sincerely, Mrs. L. C. Glover, 614 Grove St., Milwaukee, Business Woman's Association.—\$5000 forfett if originat of above letter proving genuine-ness cannot be moduced.

French Housewife's Thrift.

The well-known thrift of the French housewife is reflected in the national finances. It is a fact that the distribution of wealth in France is wider than in any other European country. The records of the courts of probate in England and the notarial records in France afford data for comparison. In England the 61,233 estates administered last year amounted to \$1,440,000,000, while in France 363,612 estates only netted \$954,425,201. In owner words, while the English fortunes were much greater individually than the French estates, the number of property holders in France were five to one compared with England.—

Move for Good Roads.

At last it seems as if the National Government was going to do some-thing for the farmer. A bill has been thing for the farmer. A bill has been introduced in Congress called the Brownlow Bill, which appropriates \$24,000,000 as National aid for the building of roads. The farmer wants this bill to pass, and he is determined that the National Government shall do something for him, as well as for the rest of its citizens. The farmer is the backbone of the country; it is he who feeds the entire population, and he is no longer satisfied with poor roads.

Twenty or thirty years ago grain was nearly all sown by hand, and it was one of the honors bestowed on an old laborer to give him this task. To-day this is done automatically by a machine, and there are machines for laying on the manure and doing the work preparatory to sowing.

every organ of the body with disease elements. Doan's Kidney Pills are quick to soothe and strengthen sick kidneys.

guick to soothe and strengthen sick kidneys, and help them free the system from poison. Read how valuable they are, even in cases of long standing.

L. C. Lovell, of 415 North First St. Spokane, Wash., says: "I have had trouble from my kidneys for the past ten years. It was caused by a strain to which I paid little attention. But as I neglected the trouble it became worse and worse until any strain or a slight cold was sure to be followed by severe pain across my back. Then the action of the kidney secretions became deranged and I was caused much annoyance, besides loss of sleep. Doan's Kidney Pills were brought to my notice, and after taking them a short time their good effect was apparent. All the pain was removed from my back and the kidney secretions became normal. Doan's Kidney Pills do all that is claimed for them."

A FREE TRIAL of this great remedy which cured Mr. Lovell will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

IRON MARKET IS ACTIVE.

New Business Constantly Coming Forward and Many Idle Plants Are in Operation.

R. G. Dun & Co.'s "Weekly Review of Trade" says: Commercial conditions have improved somewhat during the past week, although there is still much to be desired. Dispatches from the South are not encouraging. At the East more seasonable weather prevailed, yet spring trade is still below normal. The best news of the week was the settlement of many labor controversies, or at least resumption of work pending arbitration. Manufacturing returns are still confusing, notable improvement in the iron and steel industry being offset by less favorable reports regarding textile and footwear factories. Agricultural work progresses rapidly under better than average conditions, cotton being planted unusually early. It is a good sign that the month opened with prices of commodities less inflated. Transporting interests are overcoming freight congestion, while railway earnings in March were only 7 per cent smaller than in 1903, and largely surpassed all preceding years. Improvement in the iron and steel industry is no longer a matter of conjecture or sanguine hopes, but a certainty. New business is constantly coming forward and gradually idle plants resume while recent moderate gains in quotations are readily maintained, although no further advance occurred during the past week. In many respects the past week has been eventful. Former prices of billets and bars were reaffirmed by the association; the first liberal order for structural material was placed; implement makers all wanted materials at the same time, having finally decided to cease procrastinating; several independent concerns that were selling at concessions restored full list prices, and a most encouraging statement was issued by the leading producer.

Connellsville Coke Report.

Of the coke trade of the Connellsville and Lower Connellsville regions, "The Courier," the official organ of the regions says: The coke market in the West has strengthened during the past week or two. The output for the week ending on Saturday, April 2, shows a total of 23,641 ovens of which 17,901 were active and 5,140 idle. The estimated tonnage was 209,345 tons. The shipments aggregated 12,452 cars, distributed as follows: To Pittsburg, 4,214 cars; to points west of Pittsburg, 4,810 cars; to points east of Connellsville, 1,428 cars. In the Lower Connellsville region there are 5,645 ovens, of which 4,630 are active and 1,015 are idle. The estimated tonnage was 54,608 tons.

## Ghe Funny FINANCE AND TRADE REVIEW "PE-RU-NA TONES UP THE SYSTEM IF TAKEN IN THE SPRING,"

SAYS THIS BEAUTIFUL YOUNG GIRL.

### MISS MARJORY HAMPTON, OF NEW YORK.

•••••••••••••••••••••••••••••• Miss Marjory Hampton, 2016 Third Avenue, New York City, writes:
"Peruna is a fine medicine to take any season of the year. Taken in the spring it tones up the system and acts as a tonic, strengthening me more than a vacation. In the fall and winter I have found that it cures colds and caturrh and also find that it is invaluable to keep the bowels regular, acting as a gentle stimulant on the system. In fact, I consider it a whole medicine chest."—Miss Marjory Hampton. ••••••••••••
