The letters of Miss Merkley, whose picture is printed above, and Miss Claussen, prove beyond question that thousands of cases of inflammation of the ovaries and womb are annually cured by the use of Lydia E. Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham:—Gradual loss of strength and nerve force told me something was radically wrong with me. I had severe shooting pains throught the pelvic organs, cramps and extreme irritation compelled me to seek medical advice. The doctor said that I had ovarian trouble and ulceration, and advised an operation. I strongly objected to this and decided to try Lydia E. Pinkham's Vegetable Compound. I soon found that my judgment was correct, and that all the good things said about this medicine were true, and day by day I felt less pain and increased appetite. The ulceration soon healed, and the other complications disappeared and in eleven weeks I was once more strong and vigorous and perfectly well.

"My heartiest thanks are sent to you for the great good you have done me."—Sincerely yours, Mrss Margaret Merkley, 275 Third St., Milwaukee, Wis.

Miss Claussen Saved from a Surgical Operation. "Dear Mrs. Pinkham:—It seems to me that all the endorsements that I have read of the value of Lydia E. Pinkham's Compound do not express one-half of the virtue the great medicine really possesses. I know that it saved my life and I want to give the credit where it belongs. I suffered with ovarian trouble for five years, had three operations and spent hundreds of dollars on doctors and medicines but this did not cure me after all.

"However, what doctors and medicines failed to do, Lydia E. Pinkham's Vegetable Compound did. Twenty bottles restored me to perfect health and I feel sure that had I known of its value before, and let the doctors alone, I would have been spared all the pain and expense that cost me. If the women who are suffering, and the doctors do not help them, will try Lydia E. Pinkham's Vegetable Compound, they will not be disappointed with the results."—Miss Clara M. Claussen, 1307 Penn St., Kansas City, Mo.

Peruna has cured thousands of cases of female weakness. As a rule, however, before Peruna is resorted to several other remedies have been tried in vain. A great many of the patients have taken local treatment, submitted themselves to surgical operations, and taken all sorts of doctor's stuff, without any result.

The reason of so many failures is the fact that diseases peculiar to the female Sox are not common lyon the lyon the local treatment. These organs are lined by mucous membranes. Any mucous membrane is subject to catarrh.

Catarrh of one organ is exactly the same as catarrh of any other organ. What will cure catarrh of the head will also cure catarrh of the pelvic organs. Peruna cures these cases simply because it cures the catarrh.

Most of the women afflicted with pelvic Most of the women afflicted with pelvic organs. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

cine in that city since then. She writes

"My conviction, supported by experience, is that Peruna is a valuable preparation for all catarrhal affections. I have taken one bottle of Peruna myself and

just feel fine. I shall continue to take it."--Rachael J. Kemball, M.D.

ONE DOLLAR WHEAT.

Western Canada's Wheat Fields Produce It—Magnificent Yields—Free Grants of Land to Settlers.

The returns of the Interior Deptement show that the movement of American farmers northward to Canada is each month affecting larger areas of the United States. Time was, says the Winnipeg Free Press, when the Dakotas, Minnesota and Iowa furnished the Dominion with the main bulk of its American contingent. Last year, however, forty-four States and districts were represented in the official statement as to the former residence of Americans who had homesteaded in Canada. The Dakotas still head the list, with 400G entries, Minnesota being a close second with 3887, but with the exception of Alabama and Mississippi and Delaware every State in the Union supplied settlers who, in order to secure farms in the fertile prairie country of Canada, became citizens of, and took the oath of allegiance to, the Dominion. Last year no less than 11,841 Americans entered for homestead lands in Canada.

From the Gulf to the boundary, and from ocean to ocean, the trek to the

than 11,841 Americans entered for homestead lands in Canada.

From the Gulf to the boundary, and from ocean to ocean, the trek to the Dominion goes on. Not only the wheat growers of the Central Mississippi Valley, but the ranchers of Texas and New Mexico, and the cultivators of the comparatively virgin soil of Oklahoma are pouring towards the productive vacant lands of the Canadian North West. It is no tentative, half-hearted departure for an alien country that is manifested in this exodus; it has become almost a rush to secure possession of land which it is feared, by those imperfectly acquainted with the vast area of Canada's vacant lands, may all be acquired before they arrive. There is no element of speculation or experiment in the migration. The settlers have full information respecting the soil, wealth, the farming methods, the laws, taxation and system of government of the country to which they are moving, and they realize that the opportunities offered in Canada are in every respect better and greater than those they have enjoyed in the land they are leaving.

Canada can well afford to welcome cordially every American farmer coming to the Dominion. There is no question but that these immigrants make the most desirable settlers obtainable for the development of the prairie portion of the Dominion. Full information

most desirable settlers obtainable for the development of the prairie portion of the Dominion. Full information can be had from any authorized Cana-dian Government Agent, whose ad-dress will be found elsewhere.
