

THIS IS IT!

The House Cold Tire Setter!

We Reset Your Tires In About 30 MINUTES!

We have added to our already well equipped blacksmith shop a House Cold Tire Setter. With this machine we can reset any set of tires from 2 inches down to the smallest buggy tire in 30 minutes, without removing the tire from the wheel. We guarantee a perfect job every time, better than can be done by the old and slow method of taking the tire off and heating it, thereby burning the fellos and charring the rims. By the old method the charred wood works out, and your tires are soon as loose as ever.

JUST THINK OF IT!

You can have your tires reset in 30 minutes, while you are making your purchases at the store or attending to other business, and when you are ready to go home, you can take your buggy or wagon with you, with the tires all nicely reset and guaranteed to give entire satisfaction, or your money refunded.

We also call attention to all other repairing done by us. We do woodwork for all kinds of vehicles, and our material and workmanship cannot be excelled. Our blacksmithing department is first class in everything pertaining to the business, and our painting is up to date and speaks for itself. We use nothing but the best paints, varnishes and other materials.

Our trimming department is unexcelled for neat and substantial work. If you get your tops, cushions, backs, curtains or any other repairs in this line from us, you will get the full worth of your money.

Our Prices Are Right, And All Work Guaranteed.

Thanking the public for a liberal patronage in the past, and soliciting an increased continuance of the same, we are very respectfully yours,

Jer. J. Livengood & Son, Salisbury, Pa.

FOLEY'S KIDNEY CURE

Guaranteed for All Kidney and Bladder Troubles. Is Safe and Sure

FOLEY'S KIDNEY CURE

cures the most obstinate cases of kidney and bladder diseases.

It supplies the kidneys with the substances they need to build up the worn out tissues.

It will cure Bright's Disease and Diabetes if taken in time, and a slight disorder yields readily to the wonderful curative power of this great medicine.

It soothes and heals the urinary organs and invigorates the whole system. If your kidneys are deranged, commence by taking

FOLEY'S KIDNEY CURE

at once. It will make you well.

A Physician Healed, Now Prescribes It Daily

Dr. Geo. Ewing, a practicing physician at Smith's Grove, Ky., for over thirty years, writes his personal experience with FOLEY'S KIDNEY CURE: "For years I have been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use FOLEY'S KIDNEY CURE. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles, for I can honestly state I have prescribed it in hundreds of cases with perfect success."

Had to Get Up Several Times Every Night

Mr. F. Arnold, Arnold, Ia., writes: "I was troubled with kidney disease about three years. I was nervous and all run down, and had to get up several times during the night, but three bottles of FOLEY'S KIDNEY CURE effected a complete cure. I feel better than I ever did and recommend it to my friends."

TWO SIZES 50c and \$1.00

Minimum Salary Law.

The public school teachers' minimum salary law, enacted by the last Legislature, went into effect on the first of June. A thorough canvass of every county in the state shows that 3,800 school teachers, over nine-tenths of them women, will receive substantial increases in salary during the coming term, as the result of the operation of the law. Nearly \$750,000 additional remuneration will be received by the teachers as the result of these increases. In nine-tenths of the districts there will be no increase of taxation on this account. The law provides that after the first day of June the minimum salary of teachers shall be \$35 per month; it is made the duty of the president and secretary of each school district in the state, under oath, to make report to the superintendent of public instruction that the requirements of the law have been fully complied with. The last section provides that "every school district of this commonwealth, failing to comply with the requirements of this act, shall forfeit its state appropriation for the whole time during which this act has been violated."

THAT THROBBING HEADACHE

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents, money back if not cured. Sold by E. H. Miller, Druggist. 7-1

Vacation Days Are Here.

A writer in Four Track News for June furnishes the timely article. He says: "Going somewhere this coming summer? Of course you want to go somewhere, and when you come to look into it carefully you will find that somewhere isn't necessarily very far away. Every city and town in America is surrounded by numerous interesting somewhere. It may be only ten miles away, and a visit thereto may give you enough food for thought to last for a year, if you go with your eyes open and your heart in a responsive mood to see, and absorb, and enjoy. If not, you might as well stay at home. There is no use traveling, even ten miles, unless you are keyed to the receptive pitch and are prepared to make the most of the environment into which you project yourself.

But go somewhere! The world is full of delightful places to go, and they all offer inducement of one kind or another; inducements that are as varied as the whims and tastes of man.

After you have been to somewhere and back, and had a change and a rest, you will realize more than ever before that this old earth is a pretty good place to tarry in for a few years on our journey through this vale of lights and shades.

Who Must Foot Smallpox Bills?

The Somerset Standard propounds this query and then goes on to speak as follows concerning the Somerset county situation:

Must the county poor authorities, or the district establishing a quarantine of persons afflicted with infectious diseases, bear the expenses attending such quarantine? Is a matter that must sooner or later be determined judicially in this county, as it has been in some of the other counties of the State recently.

The expense to Somerset county within the last few years for the maintenance of smallpox patients has been considerable and is growing. It has reached such proportions that the poor directors have tabled the last bills submitted to them, and it is said those officials will refuse further payment of such claims, basing their determination on the decisions of several judges in the state who have held that the power and duty of arresting and shutting up persons, carries with it the duty to feed and provide them with medical attention.

In 1902 the Somerset county poor directors authorized the payment of smallpox bills amounting to \$1227, and in 1903, \$1053. This year over \$1300 has been paid out, which includes some unpaid bills of last year. Recently the poor board received a bill from Boswell of \$923 for the expense of maintaining a quarantine there a few weeks ago which it has refused to pay. The bill is itemized and shows that one of the physicians in attendance charged as much as \$50 a day for his services. Other bills that the poor directors have refused to pay are one from Conemaugh township for \$252, and some from the Elk Lick region amounting to several hundred dollars.

Judge Lindsay of Warren county has held that "the power vested in boards of health to quarantine families and maintain hospitals implies the right to maintain and support their families during the period of quarantining, and while they are in the control of the board of health, independent of the poor laws of the State, which provides relief only for persons who are paupers within the meaning of that term.

H. F. Yost, attorney for the poor board, says he has the decisions of Judge Shaffer of Allegheny county, and other jurists, in support of the board's present position, and that no further bills of that character will be paid unless by order of the court.

Every Town Should Advertise.

One of the first requisites of a good business man, in this age of mercantile activity, is that he should understand the art of advertising. The same rules that govern private concerns should govern the business affairs of cities. Every civilized town that has industrial aspirations and hopes to grow and prosper, must needs let the world know what it has to offer by way of inducements. Manufacturing enterprises, educational institutions, business and professional men are ever seeking desirable locations, and it is a noticeable fact that comparatively few cities and towns are attracting them. This is because many towns which possess good water-power, good shipping facilities, good school and residential advantages, lack the life and enterprise to let the world know what they possess. They do not grow because they are unknown. They are like the drowsy merchant who doesn't think it worth while to advertise, but prefers to sit and watch the spiders spin webs across his doorway. Every new enterprise that locates in a town adds to the prosperity and business possibilities of every dealer in the place, and every citizen who has his own good and the good of the community at heart should take a hand in getting his town into touch with the busy, wide-awake world, says an exchange, and it's all true.

Nemesis After the Repudiators.

Within the last 50 years 10 of the Southern states of this Union have borrowed \$300,000,000 from trusting investors in this country and in Europe, and repudiated their indebtedness. The swindle was made possible by the constitutional provision that prevents states from being sued by citizens of other states. After the lapse of years Nemesis seems likely to overtake the repudiators. A holder of 10 repudiated bonds of North Carolina donated them to the state of South Dakota. The state of South Dakota accepted the gift and brought suit on the bonds against the state of North Carolina. The Supreme Court of the United States recently gave judgment in favor of the plaintiff for the amount of the bonds and accrued interest, amounting to \$27,400, and decreed that unless North Carolina shall pay up before January 1, 1906, certain property belonging to that state shall be seized and sold at auction to satisfy the claim. It may be taken for granted that if South Dakota had acquired the bonds by purchase, instead of as a gift, the judgment would have been the same. Here is a chance for some speculative state to make a lot of money. The outstanding repudiated bonds with accrued interest amount to about \$300,000,000, and the claims can be bought at a very low figure indeed.—Rochester Democrat.

Duquesne Wreck Engine.

One of the exhibits in the Transportation building at the World's Fair in St. Louis that will be of more than unusual interest to the thousands who visit the exposition, and especially those from this section, will be the big Atlantic type locomotive, No. 1465, of the Baltimore and Ohio Railroad, which was wrecked at Laurel Run, last December 23rd, when sixty-five passengers and trainmen met death in the worst railroad wreck in the history of the B. & O. road. The big locomotive, since the terrible disaster, has been in the Glenwood shops undergoing repairs, and has just been turned out after several months, and last week made the first trip over the Pittsburg division since the fatal night last December. The big iron horse has been freshly painted and varnished, and few would know that it had figured in one of the most disastrous railroad wrecks in the history of railroading.

The locomotive will be sent to the St. Louis Fair in a few days, and will occupy a prominent place among the modern railroad engines of the present age as a type of the passenger locomotive used in the service of the Baltimore & Ohio railroad. The engine weighs 90 tons, and is one of the largest in the world.

The monster engine has been christened the "Missouri," which is painted in large gilt letters on the tank and cab, and also ground in the glass of the headlight.

Ancient Plutocrats.

The multimillionaire and the billionaire are not the exclusive products of modern civilization, as so many seem to think. It has been figured out that the wealth of the Pharaoh whom Joseph served was at least \$3,000,000,000, which is three times the amount credited to John D. Rockefeller, the richest man of this age. Various other "plutocrats" who existed prior to the Christian era were placed in the billionaire list, and Croesus was by no means the only man in his class. So this talk about the twentieth century being the billionaire age may as well be discontinued. While there may be a few billionaires now, there is no doubt that on the whole wealth is far more equally distributed than ever before.—Troy Times.

OLD PAPERS for sale at THE STAR office. They are just the thing for pantry shelves, wrapping paper and cartridge paper for the miners. Five cents buys a large roll of them. tf

MODEL Meat Market!

Take notice that I have opened a new and up-to-date meat market in Salisbury, one door south of Lichter's store. Everything is new, neat and clean, and it is a model in every respect.
