## The House Cold Tire Setter!

### We Reset Your Tires In About 30 MINUTES!

We have added to our already well equipped blacksmith shop a House Cold Tire Setter. With this machine we can reset any set of tires from 2 inches down to the smallest buggy tire in 30 minutes, without removing the tire from the wheel. We guarantee a perfect job every time, better than can be done by the old and slow method of taking the tire off and heating it, thereby burning the fellos and charring the rims. By the old method the charred wood works out, and your tires are soon as loose as ever.

## JUST THINK OF IT!

You can have your tires reset in 30 minutes, while you are making your purchases at the store or attending to other business, and when you are ready to go home, you can take your buggy or wagon with you, with the tires all nicely reset and guaranteed to give entire satisfaction, or your money refunded.

We also call attention to all other repairing done by us. We do woodwork for all kinds of vehicles, and our material and workmanship cannot be excelled. Our blacksmithing department is first class in everything pertaining to the business, and our painting is up to date and speaks for itself. We use nothing but the best paints, varnishes and other materials.

Our trimming department is unexcelled for neat and substantial work. If you get your tops, cushions, backs, curtains or any other repairs in this line from us, you will get the full worth of your money.

Our Prices Are Right, And All Work Guaranteed.

Thanking the public for a liberal patronage in the past, and soliciting an increased continuance of the same, we are very respectfully yours,

### Signal Cruelty.

William Waldorf Astor spoke recently before the London Clubmen's Benevolent Society, an organization in which he takes a deep interest. Mr. Astor's subject was kindness, and at one point he said:

"Kindness is a virtue that stands out brightest by contrast with some signal piece of cruelty. I'll tell you of a piece of cruelty that was practiced, my gardener informs me, on a certain costermonger."

"This costermonger lay dying. As he neared his end his wife said to him:

"Don't you think you could eat a bit of something, John?"

"I might," the man answered.

"Good," said she. "Now, what can I get for you?"

"Well," said the costermonger, "I seem to smell a ham a-cookin' somewhere. I think I could eat a bit of that."

"Oh, no, John, dear," said his wife. "You can't have that. That's for my funeral."

### School Appropriation Ready for Division.

The state department of instruction has completed the calculations as to what each school district is entitled to out of the state appropriation, next year, commencing the first Monday in June. Warrants will be made out for the treasurers of the various school boards as soon as State Treasurer Mathews is ready to make payment. He will probably follow the custom of his predecessors in withholding payment during the summer vacation. The last legislature appropriated \$5,212,500 for the common schools. Out of this amount Somerset county will receive \$53,828.07. The distribution in the county is made on the basis of the returns made of teachers, resident taxables and the number of children between the ages of sixteen years, taking for that basis \$55.82 per teacher, \$1.42 per child, and 37 cents per taxable.

### DRIVEN TO DESPERATION.

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in Burns, Cuts, Wounds, Ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c, at E. H. Miller's Drug Store. 7-1

### Educating Filipinos.

One of the wisest things the War Department has done in its administration of the Philippines was to bring a considerable number of young Filipinos to America and distribute them in American schools so located that the climate did not cause them to suffer. It was the action of Japan in scattering her young men among the best schools in the world that enabled her to move out of feudalism into modern civilization in less than half a century. While the mestizos of Luzon may not have the character of the Japanese, all accounts credit them with a remarkably alert intelligence, and the records made by these students during their first year bear this out. A large percentage of them expect to become teachers at home, while others desire to pursue courses in engineering and various other branches of scientific and commercial study, and there seems small room to doubt that, on their return, their influence among their people will be great.—Indianapolis Journal.

### THAT THROBING HEADACHE

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents, money back if not cured. Sold by E. H. Miller, Druggist. 7-1

### A Sensible Suggestion.

It has been suggested that Valentine Hay be solicited to bequeath the Rockwood picnic grounds to the Rockwood churches for their use for reunions, picnics, etc., and for rental to other societies for like purposes. They say that Mr. Hay is a millionaire, and the separation of that little parcel of God's green earth from the balance of his estate wouldn't make a perceptible difference in the footing of his wealth, but he'd better keep it than to try the experiment of making it an interdenominational playground, or, better, battlefield, where the missiles of religious warfare, such as foreordination, infant baptism, immersion, sprinkling, high ritualism, statue worship, proselyting, growth-in-grace, born-of-the-spirit-by-conversion, and a hundred other like knotty contentions, will be promiscuously hurled. Donate it to the borough of Rockwood, Mr. Hay, with ample provisions for its improvement and maintenance as a public park, and the churches will be fairly treated when they desire its use.—Rockwood Gazette.
