

Miss Hapgood tells how she was cured of Fallopian and Ovarian Inflammationand escaped an awful operation by using Lydia E. Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham:—I suffered for four years with what the doctors called Salpingitis (inflammation of the fallopian tubes) and ovaritis, which are most distressing and painful aliments, affecting all the surrounding parts, undermining the constitution, and sapping the life forces. If you had seen me a year ago, before I began taking Lydia E. Pinkham's Vegetable Compound, and had noticed the sunken eyes, sallow complexion, and general emaciated condition, and compared that person with me as I am today, robust, hearty and well, you would not wonder that I feel thankful to you and your wonderful medicine, which restored me to new life and health in five months, and saved me from an awful operation."—Miss Irene Hapgood, 1022 Sandwich St., Windsor, Ont.

Windsor, Unit.

Ovaritis or inflammation of the ovaries or fallopian tubes which adjoin the ovaries may result from sudden stopping of the monthly flow, from inflammation of the womb, and many other causes. The slightest indication of trouble with the ovaries, indicated by dull throbbing pain in the side, accompanied by heat and shooting pains, should claim your instant attention. It will not cure itself, and a hospital operation, with all its terrors, may easily result from "Dear Mrs. Pinkham:—I can truly say that you have saved

my life, and I cannot express my gratitude to you in words.

"Before I wrote to you telling how I felt, I had doctored for over two years steady and spent lots of money in medicine besides, but it all failed to do me any good. My menses did not appear in that time, and I suffered much pain. I would daily have fainting spells, headache, backache and bearing down pain, and was so weak that it was hard for me to do my work.

"I used your medicine and treatment as directed, and after taking three bottles of Lydia E. Pinkham's Vegetable Compound, menses appeared, my womb troubles left me, and I have been regular ever since. I used fourteen bottles of Lydia E. Pinkham's Vegetable Compound and Blood Purifier together, and am now restored to perfect health. Had it not been for Lydia E. Pinkham's Vegetable Compound word wonderful remedies, and hope that these few lines may lead others who suffer as I did to try your remedies."—Mrs. T. C. WILLADSEN, R. R. No. 1, Manning, Iowa.

Such unquestionable testimony proves the power of Lydia E. Pinkham's Vegetable Compound over diseases of women.

Women should remember that they are privileged to consult Mrs. Pinkham at Lynn, Mass., about their filness, entirely free.

"I hereby bequeath all my property to my wife," dictated Enpeck. "Got that down?"

CONFIDENCE STRENGTHENED.

Belief Is General That a Change for the Better Will Soon Take Place.

R. G. Dun & Co.'s "Weekly Review of Trade" says: Aside from the strike of garment workers developments of the past week have tended to strengthen confidence. The fiscal year is drawing to a close, with National customs receipts being no cause for uneasiness. The most important trade influence just now is the progress of the crops, and the past week has brought no setback. Railway earnings thus far for
June are surprisingly satisfactory, an
increase over last year of 47 per cent
being reported. Few changes are
noted in the situation at iron furnaces
and steel mills. Nominally, the list of
prices remain the same, although small
concessions are reported on some orders that were not urgent, and the
average of all products of the industry
is a triffe lower because of the declines which were practically confined to pig iron. Taking the industry
as a whole, reports are almost unanimous regarding the lack of new orders, but there is a wide diversity of
opinion as to the future. Many authorities anticipate a revival in the
fall; others believe that there will be
no material change until spring while
July 1 is made the turning point by
the most sanguine. Bituminous coal
and coke feel the stagnation keenly,
but hard coal is moving freely.
Western hide markets have ruled very
dull. Footwear salesmen returning
from Western trips report good sample
business in spring shoes. In the
primary market for cotton goods further reductions in prices have occurred, chiefiy staple lines or printed calicoes. The raw wool market is very
strong, despite small buying by the
mills. Failures this week numbered
227 in the United States against 223
last year, and 32 in Canada compared
with 19 a year ago.

Bradstreet's says: There has been
some enlargement in demand at the
West this week, but the betterment as
yet is largely one of tone and is predicated upon the unquestionably better crop advices received from nearly
all sections. The iron trade appears
to be grounding upon the bottom as
regards prices, and curtailment 4s becoming widespread. and the past week has brought no set-back. Railway earnings thus far for

Doctors' Ailments.

Austria throw an interesting light on the adiments from which doctors suffer. One fact is instructive. The medical profession contradtes only 7 per cent to the mortality from tuberculosis, which speaks volumes for the efficacy of intelligent precaution. On the other hand, for some reason not very apparent, 40 per cent of doctors die from diseases of the heart or of the nervous system, while also 40 per cent of Austrian victims of the morphia habit are medical men. The average age of Austrian doctors is 60.

about her son's start in life. The young man had just left college, and had secured a position as reporter on one of the important New York dailies in the humble capacity which is the usual tot of the "cub" journalist—that of police court reporter. His mother was enthusiastic over his good fortune.

"Do you know," she exclaimed, "they've given him such a splendid position. He's the crime editor at Jefferson Market Police Court!"—Harper's Weekly.

Suggestions by Dr. Hartman---How to Combat the Nervous Depression Incident to Warm Weather.

Nervousness is very common among women. This condition is due to anaemic nerve centers. The nerve centers are the reservoir for nerve vitality. These centers become bloodless for the want of proper nutrition.

This condition is especially noticeable during the warm season. Every summer an army of invalids are produced as a direct result of weak nervous systems.

This could easily be overcome by the use of Peruna. Peruna strikes at the root of the trouble by correcting the digestion. Perfect digestion furnishes increased nutrition for the nerve centers. Perfectly digested food gives these reservoirs of life a vitality which creates strong, steady nerves, and in this manner fortifies and enourishes life.

Miss Blanche Grey, a prominent young society woman of Memphis, Tenn., in a recent letter from 174 Alabama street, writes: "To a society woman whose nervous force is ofter taxed to the utmost from lack of rest and irregular meals, I know of nothing which its of so much benefit as Peruna. I tool it a few months ago when I felt my strength giving way, and it soon made itself manifest in giving me new strength and health."—Miss Blanche Grey.

Pe-ru-na Contains No Narcotics.

Pe-ru-na Contains No Narcotics.

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

'At this season of the year we are peculiarly liable to inflammations of the stomach and bowels. It is the part of wisdom to learn how to the thing how to the part of wisdom to learn how to them short and it are easiest and quickes' manner. Peruna does this by its peculiar power over all forms of crimina troubles.
