

KUROKI SON OF A POLE.

Father On Deathbed Asked Him To Get Vengeance On Russia.

Gen. Kuroki's nephew, Josake Oshima, a student at the Berlin Technical University, has written to the Tageblatt correcting a story which appeared in the Patrie of Paris, to the effect that Kuroki is half French.

Oshima says General Kuroki's father was a Polish nobleman named Kurowski, who after the revolution of 1831 fled from Russia and after being in the Dutch service in Borneo settled in Japan, where he married a Japanese woman.

Oshima adds, the father of General Kuroki charged his son to avenge the wrongs of Poland upon Russia.

FITS permanently cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer.

Pilo's Cure is the best medicine ever used for all affections of throat and lungs.

Neuralgia is said to be successfully treated in Italy by the use of blue light.

Giants in Indian Territory. One of the delegates sent by Indian Territory to the Democratic national convention was C. A. Skeen.

Peterborough cathedral has the oldest working clock in England. It is erected about 1320, and is probably the work of a monastic clockmaker.

Oldest Clock in England. Peterborough cathedral has the oldest working clock in England.

TORTURING PAIN. Half This Man's Sufferings Would Have Killed Many a Person, But Doan's Cured Him.

A. C. Sprague, stock dealer, of Normal, Ill., writes: "For two whole years I was doing nothing but buying medicines to cure my kidneys."

A TRIAL FREE—Address Foster-Milburn Co., Buffalo, N. Y. For sale by all dealers. Price, 50 cts.

A Blow to Heiress-Hunters. A French court has decided that the Duke de Valency has no claim to the fortune settled upon him at the time of his marriage to Miss Helen Morton of New York.

It is a noticeable fact that all the dukes and counts who are dying for love of American girls are also pinched for a little ready money.

The State Aid law of New Jersey allowed the application of the State's contribution to any section of road not less than a mile in length where the local property owners were ready to contribute ten per cent. of the total cost.

Road-Building Hints. If a road goes over a hill when it might go around, the labor and expense put upon it are absolutely wasted.

Worshipped the "Auto." A large number of people in the capital of Kolapur, India, on seeing a motor car for the first time, prostrated themselves before it, declaring that it was moved by an invisible god.

Several very large and stanch ferryboats are being built for the English channel. Each boat will be able to carry 16 cars, freight or passengers, and they will be operated between Dover and Calais.

GOOD ROADS

In Military Operations.

No difficulty of military operations in the Far East is more conspicuous than that caused by the almost entire absence of roads fit for military use.

The same difficulty was the most conspicuous feature at the time of the Boxer uprising. The whole civilized world was kept in suspense for many weeks by the lack of suitable roads for the advance of the allies on Peking.

In Europe the building of roads occupies a high place in the minds of statesmen and military leaders. They would no more think of neglecting the preparation of roads for military use than the recruiting of men or the manufacture of guns.

In the early history of our own country the need of military roads occupied a large place in the public mind. Most of the statesmen of that period are on record as heartily favoring appropriations by Congress for building national highways.

The world's best timekeeper is said to be the electric clock in the basement of the Berlin observatory, which was installed by Professor Foerster in 1865.

Mr. Edison says that he is sorry that his appeal to the President over the head of the Commissioner of Patents had gotten before the public as he had hoped that it would be the means of quietly bringing about some much-needed reforms in the administration of that department of the government service.

Ten Inches to the Foot. Professor W. Le Conte Stevens, acting on the theory that the metric system can only be made popular in this country by adopting its decimal plan while changing the present names of familiar weights and measures as little as possible, suggests the following changes: Let the yard be made equal to the metre; let the foot be made the fourth instead of the third part of a yard, and let it have ten instead of twelve inches; let the pound be made equal to half a kilogram; let the quart equal the litre; let the ton be 1000 kilograms; let the pint, gallon, peck and bushel be defined in terms of the quart.

Submarine Garden. Charles Kratz has brought a world's fair idea from the tropics, and a Mexican submarine garden is to be erected on De Balvere avenue, north of De Giverville.

Parlor Fireworks. Among the newest fireworks, according to the Baltimore Sun, are the parlor variety, which a child can handle with safety and which can be set off in the house without danger of fire.

SCIENCE NOTES.

Flammarion, at Juvisy, has subjected specimens of the Sensitive Plant, and others, to red and violet rays. Those under violet and blue glass had made no progress after four months. Those under red and orange had achieved "extraordinary development."

Interesting experiments are being conducted in various places in order to ascertain the effects of light and electricity upon the growth of plants. At Helsingfors university, Dr. Lemstrom has showered static electricity from a Holtz machine through pots containing cereal seeds.

The Japanese dentist does not frighten his patients with an array of steel instruments. He draws teeth with his thumb and forefinger. The needful skill is acquired only after long practice, but when it is attained the operator can extract several teeth in a minute without removing his fingers from the patient's mouth.

FINANCE AND TRADE REVIEW

MARKETS CONTINUE FIRM.

Railway Earnings Hold Up Well—Continued Improvement of Trade has somewhat unsettled by sensational events in the wheat market, and the lack of harmony between labor and capital.

R. G. Dun & Co.'s "Weekly Review of Trade" says: "Confidence in continued improvement of trade has been somewhat unsettled by sensational events in the wheat market, and the lack of harmony between labor and capital. It is becoming evident that estimates of the wheat crop must be reduced, although other agricultural news is much better than usual."

Miss Hapgood tells how she was cured of Fallopian and Ovarian Inflammation—and escaped an awful operation by using Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered for four years with what the doctors called Salpingitis (inflammation of the fallopian tubes) and ovaritis, which are most distressing and painful ailments, affecting all the surrounding parts, undermining the constitution, and sapping the life forces. If you had seen me a year ago, before I began taking Lydia E. Pinkham's Vegetable Compound, and had noticed the sunken eyes, sallow complexion, and general emaciated condition, and compared that person with me as I am today, robust, hearty and well, you would not wonder that I feel thankful to you and your wonderful medicine, which restored me to new life and health in five months, and saved me from an awful operation."

Ovaritis or inflammation of the ovaries or fallopian tubes which adjoin the ovaries may result from sudden stopping of the monthly flow, from inflammation of the womb, and many other causes. The slightest indication of trouble with the ovaries, indicated by dull throbbing pain in the side, accompanied by heat and shooting pains, should claim your instant attention. It will not cure itself, and a hospital operation, with all its terrors, may easily result from neglect.

"DEAR MRS. PINKHAM:—I can truly say that you have saved my life, and I cannot express my gratitude to you in words. Before I wrote to you telling how I felt, I had doctored for over two years steady and spent lots of money in medicine besides, but it all failed to do me any good. My menses did not appear in that time, and I suffered much pain. I would daily have fainting spells, headache, backache and bearing down pain, and was so weak that it was hard for me to do my work."

"I used your medicine and treatment as directed, and after taking three bottles of Lydia E. Pinkham's Vegetable Compound, menses appeared, my womb troubles left me, and I have been regular ever since. I used fourteen bottles of Lydia E. Pinkham's Vegetable Compound and Blood Purifier together, and am now restored to perfect health. Had it not been for you, I would have been in my grave."

"I will always recommend your wonderful remedies, and hope that these few lines may lead others who suffer as I did to try your remedies."—Mrs. T. C. WILLIAMS, R. R. No. 1, Manning, Iowa.

Such unquestionable testimony proves the power of Lydia E. Pinkham's Vegetable Compound over diseases of women. Women should remember that they are privileged to consult Mrs. Pinkham at Lynn, Mass., about their illness, entirely free.
