FROM MISERY TO HEALTH.

A Prominent Club Woman of Kanasa Orig Writes to Thank Doan's Kidney Pills For a Quick Cure. Miss Nellie Davis, of 1216 Michigan avenue, Kansas City, Mo., society leader and club

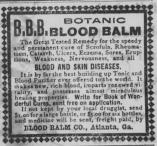

woman, writes:
"I cannot say too
much in praise
of Doan's Kidney

woman, writes;
"I cannot say too
muci. in praise
of Doan's Kidney
Pills, for they effected a complete
cure in a very
short time when
I was suffering
from kidney troubles brought on by
a cold. I had severe pains in the back
and sick headaches, and felt miserable
all over. A few boxes of Doan's Kidney Pills made me a well woman,
without an ache or pain, and I feel
compelled to recommend this reliable
remedy."

Gold Nuggets in the Street

Gold Nuggets in the Street.

"The streets of some of the mining towns of California are paved with gold," said U. P. Koenig. "Yes, I mean just what I say. A great deal of the rock that is taken out of the mines contains such a small percentage of gold that it would not be profitable to take it out, so when a street needs paving this rock is crushed, and, being exceedingly hard, makes the finest sort of a pavement. After a rain one can see any number of people in the streets picking up pieces of gold ore. Some of these pieces contain \$40 worth of gold, but of course, such valuable nuggets are rare finds."—Milwaukee Sentinel.

SEND FOR THIS ATLAS.

An Atlas of the World containing a complete series of 16 Newly Engraved and Colored Maps covering every portion of the Globe including separate maps of every State and Territory of the Union and Special Maps of our new pesses sions. It also contains a short our new pesses sions. It also contains a short of the United States from the Capitol and other public buildings of the Capitol and other public buildings of Washington, D. C. together with half tone photographs of all the Presidents of the United States from Washington to Roosevelt, and short biographical sketches of each. A copy of this handy Atlas will be multed to any address by the littleburgh the contained of the Capitol and the Capitol States from the Capitol States from the Capitol States from States with the Capitol States from the Capitol States fro

Look Out For This.

In several sections of the country agents are offering what they claim to be trees budded on four-year-old seedlings. If they deliver what they claim, the trees are likely to be nearly worthless, declares the Indianapolis News, for a seedling four years old is too old to bud and make a good tree. It could be grafted, of course, but even then would sot be superior in any way to the regulation root-grafted trees generally sold by nurserymen. There are so many reliable nurserymen in the country that it seems incredible any one should be victimized by any such absurd claims, much less a farmer who is more or less familiar with fruit growing. Be on the safe side, and if an agent comes to you with an offer of trees grown in some manner out of the ordinary, refer the offer to your State experiment station before closing it. Nine times out of ten you will find you have saved money by doing this.

A Leebon "Erg Machine."

Money in Growing Beef.

Many of the agricultural papers are urging farmers to raise beef for market, claiming that the demand exceeds the supply. This may be so to a certain extent, but there are several other conditions to be met before this industry can be made profitable to farmers generally. As a matter of fact, the farm and its adaptability has everything to do with success. There are many farms, even in dairying sections not at all suited to dairying, but eminently fitted to raising cattle for beef, and with such a farm and a proper knowledge of the work the results would probably be successful. The question is but one of many which should be decided entirely on local conditions and by each man for himself. It is folly to generalize on some things, and this is one of them.

Good Milking.

Tests at the Storr's Experiment Station show conclusively that the amount of milk given by the cows and the purity of the product both depend greatly upon the method adopted by the milker. One young man, who said he could milk, was given charge of the milking of six cows. At the end of a week the quantity given showed a shrinkage of twelve per cent. In another experiment, in which five boys, previously taught as to proper methods, were tested as milkers, four increased the flow seven, ten and five per cent., respectively. The following instructions in regard to milking are in use at the station.

The milker should milk regularly, thoroughly and quietly. He should wear clean clothes, wash his hands before beginning to milk, and never wet them while milking. The cow should be brushed before being milked, and her flank and udder wiped with a damp cloth in order to minimize, as far as possible, the number of bacteria floating about in the vicinity of the pall, and likely to get into the milk. To the same end the foremilk should

Our farm horses should have the very best of care that the farmer can give them. They are faithful animals and deserve to be kept right. They

Argon, the recently discovered ele-ment of air, is, as was expected from its existence in the chromosphere, very light and apparently monatimic.

A Swiss scientist has made a discovery of prehistoric remains in the Jura Mountains which is so important that extensive excavations are being made.

For several years a record has been kept of the wear of locomotive wheels on the Danish State railways. The single drivers are found to wear better than four coupled, the latter better than six coupled, and in all cases wear is increased by filmsiness of road.

A remarkable luminous meteor trail seen at Madrid has been reported by J. A. Perez. It continued visible from about 10 p. m. until midnight, and the shape gradually changing from an almost closed curve with a loop in it to an enlarged loop with a very faint detached portion of the primary curve.

A local study of rural depopulation near Paris has been made by Dr. A. F. Plicque. He finds that the causes include sanitary ignorance leading to high infant mortality, migration of young people to towns, effects of conscription, and alcoholism. His suggested remedy—one that promises success in Belgium—is improved primary and technical education, with special efforts to cultivate a love for farm life.

per cent., respectively. The following instructions in regard to milking are in use at the station.

The milker should milk regularly, thoroughly and quietly. He should wear clean clothes, wash his hands before beginning to milk, and never wet them while milking. The cow should be brushed before being milked, and her flank and udder wiped with a damp cloth in order to minimize, as far as possible, the number of bacteria floating about in the vicinity of the pail, and likely to get into the milk. To the same end the foremilk should be rejected, and the milking done into covered pails, with strainers arranged for the milk to pass through. Rejecting the first few spurts of milk from the teat removes the milk containing objectionable germs. The cleaner the milking is, done, the fewer the germs.—

Miss M. Cartledge gives some helpful advice to young girls. Her letter is but one of thousands which prove that nothing is so helpful to young girls who are just arriving at the period of womanhood as Lydia E. Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham;—I cannot praise Lydia E. Pinkam's Vegetable Compound too highly, for it is the only medicine I ever tried which cured me. I suffered much from my first menstrual period, I felt so weak and dizzy at times I could not pursue my studies with the usual interest. My thoughts became sluggish, I had headaches, backaches and sinking spells, also pains in the back and lower limbs. In fact, I was sick all over.

"Finally, after many other remedies had been tried, we were advised to get Lydia E. Pinkham's Vegetable Compound, and I am pleased to say that after taking it only two weeks, a wonderful change for the better took place, and in a short time I was in perfect health. I felt buoyant, full of life, and found all work a pastime. I am indeed glad to tell my experience with Lydia E. Pinkham's Vegetable Compound, for it made a different girl of me. Yours yery truly, Miss M. Cartleder, 533 Whitchell St., Atlanta, Ga."

At such a time, the grandest aid to nature is Lydia E. Pinkham's Vegetable Compound. It prepares the young system for the necessary changes, and is the surest and most reliable cure for woman's ills of every nature. Mrs. Pinkham invites all young women who are ill to write her for free advice. Address, Mrs. Pinkham, Lynn, Mass.

Mrs. Estes, of New York City, says:

young women who are ill to write her for free advice. Address, Mrs. Pinkham, Lynn, Mass.

Mrs. Estes, of New York City, says:

"Dear Mrs. Pinkham:—I write to you because I believe all young girls ought to know how much good your medicine will do them. I did dress-making for years before I was married, and if it had not been for Lydia E. Pinkham's Vegetable Compound, I do not believe I could have stood the strain. There is no other work that is such a strain on the system. Oh, how my back used to ache from the bending over! I would feel as though I would have to scream out from the pain, and the sitting still made me so terribly tired and weak, and my head throbbed like an engine. I never could eat after work, I was so worn out. Then I was irregular, and had such frightful cramps every month they would simply double me up with pain, and I would have to give up working and lie down. But Lydia E. Pinkham's Vegetable Compound changed me into a strong, well woman. Yours very truly, Mas. MARTHA ESTES, 513 West 195th St., N. Y. City."

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of female troubles cured. Sold by druggists everywhere. Refuse all substitutions. Remember every woman is cordially invited to write to Mrs. Pinkham, if there is anything about her symptoms she does not understand. Mrs. Pinkham's address is Lynn, Mass.
