

THE BLUE RIBBON OIL AND GAS CO.

—Of—
NEWTON, KANSAS.

This company has acquired leases upon two tracts of valuable oil land in the heart of the Kansas oil field. One tract consists of 80 acres, the other of 160 acres. A gas well of over 3,000,000 cubic feet daily is within 100 rods of the 80-acre tract, and good oil wells a little farther away. Some of these wells produce as high as 75 and 100 barrels a day. There are no less than two hundred oil wells within two miles of the 160-acre tract, some as close as fifty rods, one of which produced over \$6,000 worth of oil the first twenty-one days after it was shot. The lease on 160 acres one-half mile from this company's 160-acre tract sold recently for \$50,000, with no better prospects than on this company's property.

To develop these leases, a limited amount of treasury stock is offered at 10 cents a share, par one dollar.

One hundred dollars will \$1,000 worth of stock which carries with it no liability, and which cannot be assessed.

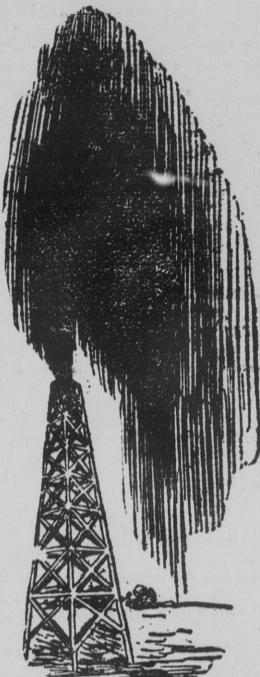

For one month's production last year in the Kansas field, over \$194,000 was paid in dividends.

This is a business proposition, conducted by business men in a business way. The small stockholders will be treated exactly like the large ones.

People here in Kansas who are familiar with the conditions of our property are buying stock at 10 cents a share, and as soon as a few thousand more shares are sold, work will be begun upon well No. 1, after which it is very probable no stock can be had as low as 10 cents.

For further particulars write to the undersigned, who is treasurer of the company and its heaviest stockholder, and to whom all remittances should be made.

Edgar Wants to Know Who Our Grandmother Was.

Edgar Showalter, who imagines himself a veritable John Mitchell in labor circles, regards every man crazy who does not take the same view of the broken strike in this region that is taken by him. Owing to that, Edgar gives it out that the editor of this paper is crazy, and the other day he asked a man to tell him who our grandmother Livengood was, saying that he heard she was as "crazy as a bedbug," and that he thought perhaps the editor inherited his insanity from her. Anyway, Edgar wants to know who our grandmother was, and we shall answer the question after the manner that Jerry Simpson, the sockless Senator from Kansas, once answered a question asked him by Mrs. Belva Lockwood.

Said Mrs. Lockwood, while interviewing Senator Simpson in Washington, "Is it true that you do not wear socks? Let me see, please."

The Senator answered: "Madam, I am a believer in reciprocity. If you show me your legs, I will show you mine."

Now, Edgar, if you tell us who your father is or was, we will tell you who our grandmother was, and we will prove to you by many good people still living in this vicinity that she was an eminently respectable lady, as well as a woman of good natural intelligence. It is very low in you to slander the dead, but we have always been told that all crazy people imagine that everybody else is crazy, and that they alone are sane. Perhaps that is what ails you, and then perhaps what really causes you to think that the editor is crazy, is the fact that he has been foolish enough to enter your name on his subscription list without getting the cash in advance.

But come again, Edgar, for you can't open your fool mouth without getting your foot in it, and you're about the softest soft thing that we have yet encountered. Vent your spleen on us all you please, but don't disturb the peaceful grave of our dear old grandmother, who never wronged anyone in her life. Only ghouls disturb the dead.

P.S. And when you vent your spleen on us, don't do too much of it at close range, for we warn you in advance that it will not be safe for you.

FROM 148 TO 92 POUNDS.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength. Sold by E. H. Miller."

Congressman Cooper's Re-election.

Writing from Washington anent the make-up of the next Congress, the Johnstown Tribune's special representative a few days ago said:

"Representative Cooper, of the Fayette District, for a new member, has made a splendid record in the House, and around the departments his activity for his constituents is well known. That he will be returned by an increased majority is not doubted here."

A POWER FOR GOOD.

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Philpot, of Albany, Ga., says: "During a bilious attack I took one. Small as it was, it did me more good than calomel, blue mass or any other pill I ever took, and at the same time the effect was pleasant. Little Early Risers are certainly an ideal pill." Sold by E. H. Miller.

Speak Up.

The Duquesne Observer invites citizens who have charges of graft and corruption against public officials not to make their accusations in the abstract, but to put them forward in the concrete.

No newspaper of spirit will hesitate to publish such charges if they are put in proper form and if the person making them assumes his full share of the responsibility therefor.

But so many "good citizens" declaim privately against existing abuses, and demand that the press shall expose them, but they flee from the responsibility of making them good.

A newspaper is not justified morally in printing anything that it is not abundantly able to prove to be the truth, and in many cases it is not legally justified in doing it then.

War on Weeds!

THISTLE-INE is sure death to Canada Thistles and all other noxious vegetation.

It can no longer be considered an experiment. That it is able to and does destroy weeds and thistles of all kinds, is shown by the hundreds of letters we have received from farmers, park, cemetery and highway commissioners, railroad officials, and others who have given it a thorough test. It is easier and cheaper to spray the grass and weeds in walks, driveways and street gutters with THISTLE-INE than to cut or dig them out.

If you have a lawn or back yard in which you take pride, you will find THISTLE-INE a constant friend in destroying Dandelion, Burdock, Wild Lettuce, or other unsightly weeds. You run no risk of failure in ordering, for when used according to directions, we guarantee the results to be entirely satisfactory. Send for Circular.
