raised—its popularity as a catarch remedy, its national impor-tance, its extensive use. One asked his opinion. Without a moment's hesitation he said: "I can cheerially say that Mirs. Schley has taken Peruna and I believe with good effect." Like the battle of Saatingo, the thought was sprung upon him without any warning, and he disposed of it with the same ofm and decision as he did with the Spanish fleet led by the ill futed Viscaya. His words concerning Peruna have gone out into the world to be repeated by a thousand tongues, because he has said them.

Except for an inborn manly independence, in a country of free speech, these words never would have been uttered by an officer in such a notable position as that of Admiral Schley. Except for a world-wide notoriety and popularity, such as Peruna enjoys, no remedy could ever have received such out-spoken public endorsement by such a man.

Edison's Happy Accident.

Edison's Happy Accident. An accident--a cut on the fin-ger--caused Edison fo invent the phonograph, or talking machine. Mr. Edison told the story of this invention to a visitor recently. At the time, he said, he was singing into a telephone, and in the telephone's mouthpiece he had placed for safe keeping a fine steel point. Suddenly this point cut his finger. He found, to his surprise, that it had been moving here and there and round-about cuided by the vibrations of bis
