Copperas for Fertilizer.

Experiments made in Belgium indicate that copperas benefits crops like oats and other grains, while weeds are destroyed. This shows remarkable discrimination by the sulphuric acid and the iron if it is true.

FITs permanently cured.

No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer, 23¢. Bottled and treated free by Dr. R. H. Kline, Ltd., 381 Arch St., Phila., Pa.

There are sixty-four shops in Berlin in which horseflesh is sold

Many School Children Are Sickly. Mother Gray's Sweet Powders for Children, used by Mother Gray, a nurse in Children's Home, New York, break up colds in 24 hours, cure Feverishness, Constipation, Stomach Troubles, Teething Disorders and Destroy Worms. At all druggists 25¢. Sample mailed free. Address: Allen S. Olmsted, Le Roy, N.Y.

A Guaranteed Cure for Piles.

Hemorrhoids, Piles, Bleeding or Protruding Piles. Druggists will refund money if Pazo Ointment fails to cure in 6 to 14 days. 50¢.

There are 298 miles of railway in the Congo Free State.

If, F. GARDNER'S, of Atlanta, Ga., are the only successful Dropsy Specialists in the world. See their liberal offer in advertisement in another column of this paper.

Single eye-glasses are prohibited in the German Army.

Fifty-two billion dollars passed through the London Clearing House last year.

Home-Made Boxes.

Covering boxes with chintz and French cottons is the fancy work of the day. These are used for gifts and much ingenuity is shown in them. The smooth surfaced box is bought from the factory and covered with starch paste to any other method. The dainty woman has anywhere from two to twelve of these in her living room. They hold everything, vases, gloves, ribbons, visiting cards, invitations, amateur photographs and manicure implements.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. E. W. Grove's signature is on box. 25¢.

There are 252,436 miles of ocean cable in operation to-day.

Jansone's Hair Care for Consumption saved my life three years ago.—Mrs. THOMAS ROSS, Maple St., Norwich, N.Y., Feb. 17, 1903.

Seven of the greatest mountains have never been climbed.

According to the Oxford Dictionary, 1473 is the date of the earliest mention of breakfast, but until a century ago it consisted of a draught of ale or tea or chocolate, says the Chicago News. There were only two meals a day—dinner, ranging from 9 o'clock in the morning in the Fifteenth century to noon in the Seventeenth, and supper, which similarly advanced from 5 o'clock in the afternoon to 7 o'clock. Peeps, for instance, went down to the admiralty at 4 or 5 o'clock in the morning on no other breakfast than half a pint of wine or a dram of cordial. But in the Eighteenth century dinner was gradually postponed until 5 or 6 o'clock in the afternoon. When it passed midday breakfast became a necessity and a meal. Before this hunger had demanded the addition of bread and some such relish as radishes to the morning draught.

When, 100 years ago, cold meats and fish began to be served at breakfast the utmost surprise was expressed. Its novelty made it fashionable and led to the giving of breakfast parties, of which Mr. Gladstone's were the last. Eleven or 12 o'clock was the hour, and it was declared to be par excellence the meal for poets. Tom Moore was an inveterate breakfaster, and after the trencher work sang for the company's entertainment. Breakfast finally became an institution as a necessary oasis in the long stretch between supper overnight and dinner the next afternoon. This appearance of breakfast a century ago thus made England for the first time a three-meals-a-day nation.

WOMEN'S NEGLECT

SUFFERING THE SURE PENALTY

Health Thus Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

Miss Kate McDonald

More than likely you speak the same words yourself, and do not doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, leucorrhoea.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Kate McDonald, of Woodbridge, N. J., writes:

"I think that a woman naturally dislikes to make her troubles known to the public, but restored health has meant so much to me that I cannot help from telling mine for the sake of other suffering women."

"For a long time I suffered untold agony with a uterine trouble and irregularities, which made me a physical wreck, and no one thought I would recover, but Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is."

If you are ill, do not hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

Salzer's National Oats

Greatest of the century.
2¢, 10¢, 25¢, and 50¢ in N. York.
25¢ per bushel, 10¢ per bushel.
You can beat this record!

For 10¢ and this notice we mail you free lots of farm seed samples and our big catalogue, telling all the latest news and showing thousands of other seeds.

JOHN A. SALZER SEED CO.
Ac. La. Cross, Wis.

Bottling the Food.

The early people had an abundance of one kind of food of which we can certainly deprive ourselves—and this lack is the cause of much, if not of most, of our ill health. The early people had to work—and often work hard—for their food, and hence did not often get too much of it. We have food set before us in such abundance and variety that we overeat without knowing it. This causes so many of the illnesses from which modern man suffers that, barring accidents, it may be said that if we are ill or ill tempered it is likely to be our food which is at fault in some of the many ways we have indicated. Every day of our short life should count for something, and to lose it because one ate the wrong food is foolish waste. The chief object of the thorough mastication of the food and its treatment with saliva in the mouth is to protect the stomach from overwork. The thoroughness with which the stomach prepares the food for the final act of digestion, intestinal absorption, depends upon the amount given it to do. It would seem as if man might learn this lesson rapidly, but the fact is that the average human being bolts his food and washes it down regardless of all physiological law.

A Second Wesley.

Cardiff, South Wales, has published abroad the tales of a new evangelist, Evans Roberts by name, who, from a common collier, has suddenly leaped into fame as almost a second Wesley. He draws vast throngs to hear him.

To Care a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. E. W. Grove's signature is on box. 25¢.

Jansone's Hair Care for Consumption saved my life three years ago.—Mrs. THOMAS ROSS, Maple St., Norwich, N.Y., Feb. 17, 1903.

Seven of the greatest mountains have never been climbed.

According to the Oxford Dictionary, 1473 is the date of the earliest mention of breakfast, but until a century ago it consisted of a draught of ale or tea or chocolate, says the Chicago News. There were only two meals a day—dinner, ranging from 9 o'clock in the morning in the Fifteenth century to noon in the Seventeenth, and supper, which similarly advanced from 5 o'clock in the afternoon to 7 o'clock. Peeps, for instance, went down to the admiralty at 4 or 5 o'clock in the morning on no other breakfast than half a pint of wine or a dram of cordial. But in the Eighteenth century dinner was gradually postponed until 5 or 6 o'clock in the afternoon. When it passed midday breakfast became a necessity and a meal. Before this hunger had demanded the addition of bread and some such relish as radishes to the morning draught.

When, 100 years ago, cold meats and fish began to be served at breakfast the utmost surprise was expressed. Its novelty made it fashionable and led to the giving of breakfast parties, of which Mr. Gladstone's were the last. Eleven or 12 o'clock was the hour, and it was declared to be par excellence the meal for poets. Tom Moore was an inveterate breakfaster, and after the trencher work sang for the company's entertainment. Breakfast finally became an institution as a necessary oasis in the long stretch between supper overnight and dinner the next afternoon. This appearance of breakfast a century ago thus made England for the first time a three-meals-a-day nation.

Why She Fell Lient Towards the Drunkard.

A great deal depends on the point of view. A good temperance woman was led, in a very peculiar way, to revise her somewhat harsh judgment of the poor devil who cannot resist his cups, and she is now the more charitable. She writes:

"For many years I was a great sufferer from asthma. Finally my health got so poor that I found I could not lie down, but walked the floor whilst others slept. I got so nervous I could not rest anywhere. Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is."

"At last, however, I bought a package of Postum, although I was sure I could not drink it. I prepared it as directed, and served it for breakfast. Well, bitter as I was against it, I must say that never before had I tasted a more delicious cup of coffee! From that day to this (more than 2 years) I have never had a desire for the old coffee. My health is so returned, the asthma disappeared, I began to sleep well, and in a short time I gained 20 pounds in weight."

"One day I headed my physician, the tablets he had prescribed for me, telling him I had no use for them. He stayed for dinner. When I passed him his coffee cup he remarked, 'I am glad to see you were sensible enough not to let yourself be persuaded that coffee was harmful. This is the best cup of coffee I ever drank.' He continued, 'the trouble is so few people know how to make good coffee.' When he got his second cup I told him he was drinking Postum. He was incredulous, but I convinced him, and now he uses nothing but Postum in his home, and has greatly improved in health."

Name given by Postum Co., Battle Creek, Mich.

Look in each package for the famous little book, "The Road to Wellville."

FOR THE HOUSEWIFE

Sauce for Croquettes.

Put one cup of sugar with one cup of vanilla and cook five minutes, add vanilla flavoring to the taste and it is ready to use hot.

Whole Wheat Muffins.

Sift one cup of whole wheat flour, one cup of white flour, one-quarter cup of sugar, one-half level teaspoon of salt and four level teaspoons of baking powder together twice. Mix one cup of milk, one beaten egg and one tablespoon of melted butter. Beat for three minutes, then fill muffin pans two-thirds full after heating and buttermilk them. Bake about twenty-five minutes.

Pearl Cake.

Cream one cup of butter and beat two cups of fine granulated sugar into the butter; add one cup of milk, one cup of corn-starch and two cups of flour sifted with three level teaspoons of baking powder. Add last the whites of six eggs beaten stiff and a little rose flavoring. Bake in small cakes, cover with a white icing and ornament with small candies; or bake in a large sheet and ice, then mark off into squares and cover each alternately, like a checker-board, with little pink and white candies.

Rice Croquettes.

Cook one cup of rice in plenty of salted water for half an hour, or less time if the rice becomes tender. Drain in a colander cool and shape in cones or cylinders, after rolling the beaten yolk of one egg. Add each croquette in an egg beaten with a tablespoon of water, and then in sifted cracker crumbs. Put two or three croquettes in a frying basket and fry quickly in deep hot fat, which should be smoking hot, as the mixture has been previously cooked and only needs heating through and browning. Drain and serve with a sweet sauce.

Plain Frozen pudding.

Put three sticks of cinnamon, two blades of mace and one and one-quarter pounds of the choicest raisins, seeded, into six cups of milk and simmer fifteen minutes. Keep the pan well covered. Beat the yolks of five eggs a long time, or until light colored add one and one-quarter cups of powdered sugar and beat light. Strain the spice and raisins from the milk and put the milk back in the saucepan, stir in the eggs and sugar and cook a minute, then cool. Add the raisins, a quarter of a pound of blanched almonds, beaten to a powder, a few drops of rose flavoring, one-half pound of citron and a few bits of preserved ginger, all cut fine. Now add a quart of thick cream, stir well and freeze like ice cream. This makes a large quantity and the rule may be halved for a small dinner.

Helpful Hints.

All green vegetables keep their color if better if boiled rapidly and left uncovered.

Whole cloves will more effectively exterminate moths than either camphor, tobacco or cedar shavings.

When milk is spilled on a woolen dress or coat, at once apply absorbent cotton. All traces of the stain will be removed.

When cooking anything with milk, and you require to add salt, do not put it in till the very last, or it will curdle the milk.

Cane seats may be easily tightened by the use of hot water. Turn the chair upside down and wash the cane with very hot water, using a brush. If the cane needs cleaning use soap and dry in the open air away from the direct rays of the sun.

Watercress must be very thoroughly and carefully washed. It is an excellent blood purifier.

Brush hooks and eyes should be used for washing dresses and blouses. They leave no iron marks in the washing.

Bites of insects will be greatly relieved by touching the spot with a drop of ammonia. This neutralizes the poison and consequently soothes the pain.

Eggshell crushed in little bits and shaken well in decanters, water bottles, etc., three parts filled with water, not only cleans them, but makes the glass look like new.

The proper way to dry shoes is to place the shoes, soles upward, near enough, but not too near, to the fire to dry slowly and properly, but not to steam during the process. The soles should always be turned upward, even when the shoes are only slightly wet, for this way enables the air to reach the wettest part of the leather first.

New print dresses should be well soaked in cold water to remove all the "dressing" before washing in hot water and soap. Do not boil them, and do not use soda. Rinse in pale blue water.

When packing closets or trunks preparatory to an absence, have a long sheet of paper and a pencil by your side, and on this write alphabetically, or under some classification, the names of the articles in the trunk or cupboard the sheet refers to. It is obvious what a help this will be in the case of anything being wanted suddenly.

FINANCE AND TRADE REVIEW

BLIZZARD HITS TRADE.

So Does the Russian Ruction, but Confidence Remains Unabated.

R. G. Dun & Co.'s Weekly Review of Trade says: Storms at home and complications abroad tended to check activity in commercial and financial markets, but most industrial lines continue busy, testifying to confidence that trade interruptions will be brief. Prior to the bad weather there was a liberal distribution of merchandise at steady prices, but subsequently a sharp advance occurred in retail prices of food products, owing to restricted receipts at points of heavy consumption.

Country merchants at the South have large stocks of goods slowly because of the decline in cotton, and collections are slow.

New England manufacturing plants are well engaged, especially in machinery, jewelry and textiles; but buyers have left the Boston footwear market without placing contracts, owing to disagreement as to the price of merchandise at steady prices, but subsequently a sharp advance occurred in retail prices of food products, owing to restricted receipts at points of heavy consumption.

Foreign commerce at this port for the last week shows a gain of \$772,924 in imports and a loss of \$1,690,177 in exports, as compared with the same time in 1904. Railway earnings in January were only four-tenths of 1 per cent larger than last year.

Production of pig iron continues at the maximum rate, yet there is no evidence of a reaction. Connellsville production of coke remains at the large percentage, but traffic is now delayed and may cause a decrease. Tinplate mills are fully engaged. Even steel rails are beginning to feel the effect of expanding confidence, several large contracts increasing the amount of business on the books to about 1,000,000 tons. Railway bridges will take a large tonnage of structural steel, and extensive building operations are about to begin, so that this division of the industry is in a fairly encouraging position. Pipe mills are assured of full activity for some time to come, and preparations are being made for a very large trade in agricultural implements. Machinery houses also are better conditioned, partly because of the resumption at Fall River. Western markets make less uniformly favorable returns.

Textile manufacturing conditions remain practically without alteration. Much of the best news comes from woolen mills, which have large orders in the buyers of cotton goods in the primary markets continue to limit their operations to immediate needs, and in many cases have deferred business entirely in expectation of much better terms later in the season. Undoubtedly future starts chronic ailments and long years of suffering. No matter what ailment you start taking CASARETS today, for you will never get well and stay well until you get your bowels right. Take our advice, start with Casarets today and you will get your bowels right. The genuine tablet stamped C. C. NEVER SOLD IN BULK, Sample and booklet free. Address Sterling Remedy Company, Chicago or New York.

Moderate supplies maintain packer hides. There is no pressure to purchase in any department, and stocks of native steers are accumulating rapidly. All foreign hides are firm and some grades advanced.

Failures this week numbered 305 in the United States against 302 last year and 43 in Canada compared with 28 a year ago.

COL. BECKWITH SAYS:

"I Take Pleasure in Commending Pe-ru-na For Coughs and Colds."

COL. PAUL E. BECKWITH.

Colonel Paul E. Beckwith, Lt. Col., retired, 1st Reg. Minute Men, in a letter from 1503 Vermont Avenue, N. W., Washington, D. C., writes: "From the unqualified endorsement of many of my friends, I take pleasure in commending your remedies for coughs and colds."—Paul E. Beckwith.

IN FIELD OR BARRACKS PE-RU-NA IS EFFICACIOUS.

The constant exposure to the elements experienced in the outdoor life is not so apt to cause coughs and colds as sedentary habits. Those who are brought face to face with the weather every day in active life are much less liable to catarrhal diseases than those who are housed up in ill ventilated rooms. And yet both of these classes are more or less subject to catarrh and catarrhal diseases. The soldier well as the civilian finds it frequently necessary to use Peruna on account of coughs and colds. No one is exempt. The strong and healthy are less liable than the weak and ill, but none entirely escape.

Peruna has always been a great favorite with the military men, both in the army and navy. The strongest kind of testimonials are received from officers of high rank concerning the virtues of Peruna for all catarrhal ailments. Only a small per cent of these can be used for publication for want of space. Mr. Harrison L. Dean, Burnside Post No. 8, Department of the Potomac, Colonel Encampment No. 69, Union Veterans' Legion, Colonel Green Clay Smith Regiment No. 17, U. V. U. Department of the Potomac, Military Order of the Legion, Department of Columbia, Major 34th Indiana Veterans' Volunteer Infantry, writes:

"There is no longer any question as to the curative qualities of Peruna in all catarrhal troubles. Its successful use by many of my friends entitles it to confidence and endorsement."

BEST FOR THE BOWELS

Casarets

CANDY CATHARTIC

THEY WORK WHILE YOU SLEEP.

GUARANTEED CURE for all bowel troubles, appendicitis, biliousness, bad breath, bad blood, wind on the stomach, bloated bowels, flatulence, indigestion, pimples, irregularity of the bowels, constipation, hemorrhoids, piles, when your bowels don't move regularly you are sick. Drinking Less Tea.

Figures published by the Tea Brokers' Association of London for the five months ending October 31, this year, show a diminution in the consumption of tea in the British Isles to the extent of 4,000,000 pounds as compared with the corresponding time in 1903, an indication of dire poverty.

15 YEARS OF TORTURE

Itching and Painful Sores Covered, Head and Body—Cured in Week by Cuticura.

"For fifteen years my scalp and forehead was a mass of sores, and my body was covered with sores. Words cannot express how I suffered from the itching and pain. I had given up hope when a friend told me to get Cuticura. After bathing with Cuticura Soap and applying Cuticura Ointment for three days, my head was clear as ever, and to my surprise and joy, one cake of soap and one box of ointment made a complete cure in one week. (Signed) H. B. Franklin, 717 Washington St., Allegheny, Pa."

Parkman's sense of Justice.

A friend met Francis Parkman walking along the street holding two street boys by their coat collars. In reply to his friend's request for an explanation Parkman said: "I found this boy had eaten an apple without dividing with his little brother. Now I'm going to buy one for the little boy and make the big one look on while he eats it."—St. Nicholas.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CENEY & Co., Toledo, O. Sold by Druggists, 70¢.

Take Hall's Family Pills for constipation.

Some one has been figuring out the number of words a man utters in a year and finds the average to be 11,800,000.

Nineteen pianos every one of which was a wedding present, are in the possession of the Prince and Princess of Wales.
