CONGRESSMAN MEEKISON PRAISES PE-RU-NA. uty-fifth Die Hon. David Meekison, Napoleon, Onio, ex-member of Congre

"There used several bottles of Peruna and I feel greatly brackled thereby from my catarrh of the heat. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."---David Meekison.

ANOTHER SENSATIONAL CURE: Mr. Jacob L. Davis, Galena, Stone County, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peruna I am cured." Jacob L. Davis. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you bis valuable advice gratis. Low Temperature and Deep Snow

Interfere With Traffic and Check Revival of Business. R. G. Dun & Co.'s "Weekly Review of Trade" says: Weather conditions

still dominate the trade situation. Low temperature and deep snow have interferred with traffic and checked the revival of business that was well under way in most sections of the country. Retail distribution is not maintained and the deleterious effects are visible in all outdoor work, while

country. Retail distribution is not maintained and the deleterious effects are visible in all outdoor work, while the interruption to movement of freight has affected manufacturing to some extent. Theres of staple commodities at the exchanges are advanced by the restricted receipts at primary mark-ets. There is a partial offset in the largely increased demand for heavy weight wearing apparel and other winter goods, which promises to re-duce supplies in all positions at the end of the season. Meanwhile there is evidence that confidence in the future remains unshaken, prepara-tions for spring and summer trade continuing unabated, except where fuel and other supplies are tem-porarily blockaded in transit. Job bing trade in dry goods is on a liber-al scale. Railway earnings thus far reported for February were 1.9 per cent. smaller than a year ago, prob-ably another result of bad weather. Foreiga commerce at New York for the last week made a remarkable record for imports, exceeding in value those of the corresponding weak last year by \$4.376,517. Ex-ports decreased \$1,804,888. Dispatches from leading fron and strogeness, except the temporary inter-ruption to output and delivery, caus-ed by storms and continued cold weather. It is possible to trace the affect of the elements upon receipt of coke, which prevented resumption of work at several blast furnaces. Quotations are firm with little fluctu-ation, although in several depart-ments it is probable that higher prices will soon be asked, particular-ind uper prompty. In the textife industries the most significant event of the week was the revival of ex-port buying of cotton goods for China. Falures this week numbered 258 in the United States, against 287 hast year, and 32 in Canada compared with 20 a year ago.

Health of American Women

A Subject Much Discussed at Women's Clubs-The Future of a Country Depends on the Health of Its Women.

At the New York State Assembly of Mothers, a prominent New York dotto told the 500 women present that healthy American women were so rare as to be almost extinct. This seems to be a sweeping state ment of the condition of American women. Yet how many do you know who are perfectly well and do nothave some trouble arising from a derage-ment of the female organism which manifests itself in headaches, back-aches, nervousness, that bearing-down feeling, painful or irregular menstrua-tion, leucorrhea, displacement of the uterus, ovarian trouble, indigestion or sleeplessness? There is a tried and true remedy for all these ailments. Lydia E. Pinkham's Vegetable Compound will do for her." When women are troubled with irregular, suppressed or painful men-struation, excitability, indi-true remedy for all these ailments typia E.
